Ward, 2024-04-26 This volume of the Sports She Wrote series completes the nine volume chronological journey of 19th century cycling articles written by women By the end of the century the bicycling craze transitioned from a fleeting fad into a deeply ingrained aspect of American culture Bicycles were no longer mere novelties but essential methods of transportation for the masses sources of physical exercise and vehicles for leisure and sports Forty eight articles 102 000 words authored by

dozens of women writers and 38 illustrations from 20 periodicals offer insightful discourse on the state and development of women's cycling. These articles offer a multifaceted exploration of various cycling topics reflecting the evolving attitudes and practices surrounding the sport. The final cycling article published in 1900 is emblematic of the progress made and the future prospect for athletic cycling focusing on women's fancy riding now known as trick riding. This volume includes the comprehensive book *Bicycling for Ladies* written by Maria E. Ward published in 1896. With 34 accompanying photographs, Ward's book serves as a testament to the vibrancy and diversity of cycling culture during this pivotal period in history. In addition to the basics of riding, Ward provides detailed instructions for maintenance and repair of bicycles and demonstrates how to use the necessary tools that many women of the era were unaccustomed to using. The volume concludes with a foretaste of the future penned by Mary Sargent Hopkins whose cycling articles are featured in several volumes of this series but in this case introduces readers to a new wheeled contraption destined to revolutionize independent transportation: the automobile. *Sports She Wrote* is a 31-volume time capsule of primary documents written by more than 500 women in the 19th century including nine volumes on cycling.

Helping Families of Youth with School Attendance Problems Christopher A. Kearney, 2019-07-15 School attendance problems even in mild forms are a significant risk factor for social, behavioral, and academic problems in childhood and adolescence. These cases tend to be urgent and complex in nature with problems that manifest both at home and at school. As such, mental health and school-based professionals need practical and efficient strategies to resolve school attendance problems. *Helping Families of Youth with School Attendance Problems* is a real-world guide to addressing school attendance problems at different levels of severity and complexity. The book offers specific procedures for many types of cases to address these problems in a relatively short period of time and within the constraints of most private practice and school settings. The text also considers developmental level with distinct coverage of elementary school children as well as adolescents in middle school and in high school. The book consists of seven empirically supported chapters that guide readers through assessment, consultation, and intervention processes. Given the limited timeframe frequently faced by mental health and school-based professionals, these processes are often blended. Beginning with an overview of school attendance problems, the heart of the book offers core intervention components as well as other procedures to enhance the effectiveness of these components. These components cover key aspects of anxiety and contingency management, school reintegration, and school engagement as well as suggestions for many specific scenarios. The final chapter focuses on chronic and severe school attendance problems and other highly challenging scenarios common to these young people. *Helping Families of Youth with School Attendance Problems* is a must-have resource for mental health and school-based professionals alike as well as for others who regularly engage with this population.
