meticulous research repeatedly led her to one startling conclusion that it was impossible for Donna Branion's murder to have unfolded the way the police alleged. In this award-winning account, D'Amato deftly explores the intriguing facts of this shocking case from the tragic blunders made by authorities to Branion's arrest, conviction, and years practicing medicine in Africa as a fugitive from justice. The result is a damning indictment of our criminal system and the vindication of an innocent man. *The Doctor The Murder The Mystery* by Barbara D'Amato won the Anthony and Agatha Awards for Best True Crime. She is also the author of the highly acclaimed Cat Marsala mysteries including *Hard Case* and *Hard Christmas*. She lives in Chicago.

Other Eyes Barbara D'Amato, 2011-01-18 Blue Eriksen is a famous forensic archaeologist based at Northwestern University. She and her team are traveling the globe testing mummies to research the use of hallucinogens in the development of ancient religions. Armed with evidence from ancient peoples, Blue has become convinced that psilocybin, a hallucinogen derived from mushrooms, can prevent or cure drug addiction. She hopes to develop testing and treatment centers. Leeuwarden Associates is the cover name for a deeply secret international organization that facilitates the production, delivery, and sale of illegal drugs worldwide, much as OPEC facilitates the sale of oil. Leeuwarden considers Blue a long-term threat and sends Felix Hacker, one of their enforcers, to kill her. Blue has no idea she's being stalked and prepares for a dig high in the Peruvian mountains. That casual act saved them from the Twin Towers collapse, even as their friends and Brenda's fiancé were killed and their company obliterated. Founding their own software security firm, they never forgot that morning of horror. Grant and Henderson then establish a clandestine division inside their company, committed to covertly tracking down global terrorists. In a search involving Washington, DC, Egypt, Italy, and Turkey, they expose a plot to hijack a US presidential election, rig voting machines, and topple democracies worldwide. *Foolproof* is a global thriller in the tradition of Tess Gerritsen, Catherine Coulter, and Linda Howard.
