Hard Of Hearing Child

Hard Of Hearing Child:

A Guide to Help the Severely Hard of Hearing Child H. H. Beebe,1953-12-31 *Parents and Their Deaf Children* Kathryn P. Meadow-Orlans,Marilyn Sass-Lehrer,Donna M. Mertens,2003 Three scholars from Gallaudet U in Washington D C discuss the results of their research into the experiences of young deaf and hard of hearing children and their parents Based upon a nationwide survey of parents with six to seven year old children as well as 80 in depth interviews the text des *You and Your Deaf Child* John W. Adams,1997 Discusses parenting skills and problem solving techniques for parents of deaf and hearing impaired children **The Young Deaf Or Hard of Hearing Child** Barbara Bodner-Johnson,Marilyn Sass-Lehrer,2003 As deaf and hard of hearing children are identified at an increasingly early age professionals need to expand their knowledge about early intervention and education for these young children and their families This scholarly text from the experts provides a solid foundation of research key concepts and practical suggestions Essential reading for early childhood educators education professionals speech language pathologists and students this comprehensive resource fully prepares readers for successful partnerships with families and their deaf and hard of hearing children *Keys to Raising a Deaf Child* Virginia Frazier-Maiwald,Virginia F. Frazier-Maiwald,Lenore M. Williams,1999 Two educators who are also parents of deaf children offer positive advice and encouragement on helping children adapt to deafness They show how problems related to deafness can be overcome so that the child interacts as a social and intellectual equal with children who can hear The authors recommend what is called bimodal communication that is having the child parents and other non deaf family members learn American Sign Language as a first step in normal communication Though admitting that this approach is controversial they are personally convinced that bimodal use of signed and spoken English allows the deaf child's communication ability to grow and vocabulary to blossom The book also offers much good general advice on parenting stressing that deaf and hearing children are more alike than they are different **Your Child's Hearing Loss** Debby Waldman,Jackson Roush,2009-10-01 **The Deaf Child in the Family and at School** Patricia Elizabeth Spencer,Catrina J. Erting,Marc Marschark,1999-11 A tribute to a much respected figure in Deaf education this book also reflects the state of current understanding of the complex interacting domains in which Deaf children develop For educators developmentalists and specialists in Deafness **The Hard of Hearing Child** Frederick S. Berg,Samuel Glen Fletcher,1970 **The Silent Garden** Paul W. Ogden,1996 This sensitive guide is firm support in helping parents make their difficult choices **How Deaf Children Learn** Marc Marschark,Peter C. Hauser,2011-11-22 In this book renowned authorities Marschark and Hauser explain how empirical research conducted over the last several years directly informs educational practices at home and in the classroom and offer strategies that parents and teachers can use to promote optimal learning in their deaf and hard of hearing children **Raising and Educating a Deaf Child** Marc Marschark,2007-01-27 The second edition of this guide offers a readable comprehensive summary of everything a parent or teacher would want to know about raising and

educating a deaf child It covers topics ranging from what it means to be deaf to the many ways that the environments of home and school can influence a deaf child's chances for success in academic and social circles The new edition provides expanded coverage of cochlear implants spoken language mental health and educational issues relating to deaf children enrolled in integrated and separate settings Marschark makes sense of the most current educational and scientific literature and also talks to deaf children their parents and deaf adults about what is important to them Raising and Educating a Deaf Child is not a how to book or one with all the right answers for raising a deaf child rather it is a guide through the conflicting suggestions and programs for raising deaf children as well as the likely implications of taking one direction or the other

The Education of d/Deaf and Hard of Hearing Children Peter V. Paul,2020-02-12 A significant number of d/Deaf and hard of hearing d/DHH children and adolescents experience challenges in acquiring a functional level of English language and literacy skills in the United States and elsewhere To provide an understanding of this issue this book explores the theoretical underpinnings and synthesizes major research findings It also covers critical controversial areas such as the use of assistive hearing devices language and literacy assessments and inclusion Although the targeted population is children and adolescents who are d/DHH contributors found it necessary to apply our understanding of the development of English in other populations of struggling readers and writers such as children with language or literacy disabilities and those for whom English is not the home language Collectively this information should assist scholars in conducting further research and enable educators to develop general instructional guidelines and strategies to improve the language and literacy levels of d/DHH students It is clear that there is not a one size fits all concept but rather research and instruction should be differentiated to meet the needs of d/DHH students It is our hope that this book stimulates further theorizing and research and most importantly offers evidence and reason based practices for improving language and literacy abilities of d/DHH students *Social Competence of Deaf and Hard-of-hearing Children* Shirin D. Antia, Kathryn H. Kreimeyer, 2015 Hearing loss with its resulting communication challenges can impede the development of social skills and restrict social relationships of deaf and hard of hearing DHH children Social Competence of Deaf and Hard of Hearing Children is addressed to parents educators and researchers interested in the development assessment and promotion of social competence in DHH children

The Child who is Hard of Hearing United States.
