Kaplan, Matthew B. Schwartz, 2018-12-14 This book is about the difference between parables and riddles and between different views and definitions of wisdom and various attitudes towards the possibility of its attainment Both parables and riddles go beyond a simple rote presentation of facts which may become tedious and likely to be tuned out or rejected However there is a major difference between the two Parables are a dominant form of transmission of information in biblical writings while riddles dominate those of ancient Greece Parables transmit an underlying useful life message in a way that will not be rejected Riddles in contrast are largely unintelligible leaving one helpless unable to derive any life lesson This book will be of intellectual value to educators writers therapists story tellers clergy and classicists as well as anyone interested in the implications of ancient views of wisdom for modern education **The English Chemist** Jessica Mills, 2024-09-03 The controversial story of one of the twentieth century's most famed scientists Rosalind Franklin who discovered the two chain helical structure of DNA in 1952 but was then cheated out of the Nobel Prize Rosalind Franklin knows that to be a woman in a man's world is to be invisible In the 1950s science is a gentleman's profession and in the years after WWII there are plenty of scientists who want to keep it that way After being segregated at Cambridge then ignored and criticized in the workplace she has no intention of being seen as a second class scientist and throws everything into proving her worth But despite her success in unlocking the very secret of life the ultimate glory is claimed by the men she left in her

wake Inspired by the true story of a woman so many tried to silence The English Chemist is a tale of hope and perseverance love and betrayal *Rosalind* Jessica Mills,2024-02-01 Inspired by the true story of a woman so many tried to silence Rosalind is a tale of hope and perseverance love and betrayal Teaching: Professionalisation, Development and Leadership David Johnson,Rupert Maclean,2008-06-04 Harry Judge It is doubly fortunate that a foreword is not an introduction Since it is mercifully brief it should not be expected to mention respectfully each of the distinguished contributions which constitute the word before which it modestly stands as herald For the same reason it cannot be expected to constrain within one overarching framework contributions which are essentially varied in subject matter and method The brief of a foreword writer might indeed be compared to that of a musician commissioned to write an overture to an opera which he had not written To write such a piece for a volume devoted to Eric Hoyle is nevertheless a privilege as well as a pleasure Partly of course because this volume celebrates a long and distinguished career devoted to the application of intelligence and less assertively theory to the improvement of practice And partly because this abbreviated overture is privileged by being placed before a set of virtuoso performances throughout which consistent and coherent themes do insistently resonate Those themes are the very same that distinguish Eric Hoyle's own work *Zion's Herald* ,1902 **Learning and Development for Managers** Eugene Sadler-Smith,2009-02-09 This text describes analyses and synthesises a wide range of contemporary issues from research and practice in the field of individual and collective workplace learning and development Enables students and managers of learning and development L D to understand the theory and practice of L D in organizations Explores the concept of learning from a variety of perspectives through the use of examples of research and practice from all over the world Takes a broad view of learning as encompassing both explicit and implicit and individual and collective learning processes Argues that the practice of L D should be based upon a rigorous theoretical and empirical base Each chapter uses synopses of research studies and case studies from businesses to illustrate the most important theories concepts and models Lists of key concepts knowledge outcomes perspectives from practice perspectives from research discussion points for individual or class use and concept checklists to benefit both students and teachers Is illustrated throughout with diagrams tables and L D facts and figures *The Tortoise and the Hare* Betty Miles,Aesop,1998 Recounts in simple dialogue the famous tale of the race between the persevering tortoise and the boastful hare
