

HARLAND & WOLFF

Designs from the Shipbuilding Empire

TOM McCLUSKIE

Harland And Wolff Designs From The Shipbuilding Empire

Annelies Wilder-Smith

Harland And Wolff Designs From The Shipbuilding Empire:

Harland & Wolff Tom McCluskie,1998 This book is an illustrated history of the partnership which began in 1861 in Belfast and still survives today An introductory overview of the company its shipyards and works is followed by 44 detailed drawings of the ships from the earliest sailing vessels to the great liners such as the Canberra and the Southern Cross

Ships & Shipbuilders Fred M. Walker,2010-05-05 In the past three centuries the ship has developed from the relatively unsophisticated sail driven vessel which would have been familiar to the sailors of the Tudor navy to the huge motor driven container ships nuclear submarines and vast cruise liners that ply our seas today Who were the innovators and builders who during that span of time prompted and instigated the most significant advances In the past three centuries the ship has developed from the relatively unsophisticated sail driven vessel which would have been familiar to the sailors of the Tudor navy to the huge motor driven container ships nuclear submarines and vast cruise liners that ply our seas today Who were the innovators and builders who during that span of time prompted and instigated the most significant advances In this new book the author describes the lives and deeds of more the 120 great engineers scientists philosophers businessmen shipwrights naval architects and inventors who shaped ship design and shipbuilding world wide Covering the story chronologically and going back briefly even to Archimedes such well known names as Anthony Deane Peter the Great James Watt Robert Fulton and Isambard Kingdom Brunel share space with lesser known characters like the luckless Frederic Sauvage a pioneer of screw propulsion who unable to interest the French navy in his tests in the early 1830s was bankrupted and landed in debtors prison With the inclusion of such names as Ben Lexcen the Australian yacht designer who developed the controversial winged keel for the 1983 Americas Cup the story is brought right up to date Concise linking chapters place all these innovators in context so that a clear and fascinating history of the development of ships and shipbuilding emerges from the pages An original and important new reference book

The Titanic Eugene L. Rasor,2001-09-30 Promoted as virtually unsinkable the ultimate luxury liner the largest ship in the world the RMS Titanic sank on its maiden voyage in April 1912 taking some 1 500 people to their death Aboard the ship were the wealthy and famous as well as hundreds of immigrants seeking a new life in America The most dramatic marine disaster of modern times the Titanic tragedy captured the interest and imagination of the entire world The intensity of interest in the catastrophe has increased particularly after discovery of the wreck off the coast of Newfoundland in the mid 1980s The resulting literature is vast including both scholarly and popular sources Covering more than the published literature the book also surveys memorabilia artifacts cultural icons music film and exhibitions Divided into three sections the work opens with a historiographical survey of the literature then includes descriptive lists of more peripheral material and concludes with a bibliography of 674 entries All items covered in the historiographical survey are included in the bibliography This useful guide will appeal to researchers both laymen and scholars interested in the Titanic

The Rise and Fall of Harland and Wolff Tom McCluskie

MBE,2013-03-01 Harland and Wolff once acknowledged as the greatest and best known shipbuilding company in the world for many years enjoyed a mighty eminence before a gradual descent into near obscurity This illustrated book told from the unique perspective of someone who was there at the time chronicles the history of the organisation from its creation to the present day from its halcyon days to its present incarnation Today the company is no longer involved in shipbuilding maintaining only a small ship repair and engineering facility and occupying a fraction of its previously vast complex At its peak Harland and Wolff directly employed over 45 000 people with even more in its subsidiary companies Well known Harland and Wolff former employee Tom McCluskie who was a technical consultant to James Cameron on the movie Titanic sheds light on many little known facts about the business delves into the human interest stories and recounts both the mighty zenith and ignominious demise of this great enterprise Marine Engineers Review ,2000 **Nautical Research Journal** ,2001 **Designing Liners** Anne Massey,2020-11-29 Designing Liners A History of Interior Design Afloat covers the interior design of these floating palaces from the mid nineteenth century to the twenty first century In this new edition the design heritage of the ocean liner is also explored in this age of a growing holiday cruise market The book offers the first history and analysis of this highly significant aspect of the design of interiors which mirrors and reinforces cultural assumptions about national identity gender class and ethnicity The interiors of ocean liners reflect the changing hierarchies of society and shifting patterns of globalization The trajectory of the professionalization of interior design is the connecting narrative of the book from the local decorating firm to the internationally renowned architect It is an important addition to interior design research and takes this transitory building type as its subject This book provides the first survey of the transient history of interior design in relation to the development of passenger shipping The history of these great ship interiors is tracked from their commissioning by the line owners the materials methods and sources for the initial creation their construction their use and their reception The demise and re purposing of the interiors is also covered in this new edition with additional material on the South African Union Castle and P O Lines Drawing on a broad range of original research Anne Massey s approach combines interior design studies design history architectural history and maritime studies The new edition has been carefully designed to include black and white and colour illustrations Designing Liners Anne Wealleans,2006-09-27 This in depth history of the interior design of ocean liners surveys the transient history of interior design in relation to the development of passenger shipping from commissioning by the line owners methods and sources for the original creation of designs through to its construction use and influence It is a short lived branch of architecture and design lasting an average of fifteen years As the design and taste mirrors and reinforces cultural assumptions about national identity gender class and race not only did the interiors of ocean going liners reflect the changing hierarchies of society and shifting patterns in globalization but the glamour and styling of the liners were reflected back into the design of interiors on land Combining design history architecture history material and visual cultures Designing Liners is a richly multidisciplinary

work for those studying or researching this application of interior design **Irish Economic and Social History** ,1999
Ships Monthly ,2003 *The Mariner's Mirror Bibliography for ...* ,1999 Shipbuilding & Shipping Record ,1920
Shipbuilding and Shipping Record ,1927 **Shipbuilding & Marine Engineering International** ,1904 Annual Bibliography of British and Irish History ,2002 Bibliography of Nautical Books Alan Obin,2000-02 This is the 15th annual edition of the Bibliography of Nautical Books a reference guide to over 14 000 nautical publications It deals specifically with the year 2000 *Maritime Bibliography* ,1999 Burke's Handbook to the Most Excellent Order of the British Empire A. Winton Thorpe,1921 **Aircraft Carriers** Paul E. Fontenoy,2006-09-21 This vivid volume describes the fascinating history of aircraft carriers first deployed successfully in World War I by the Imperial Russian Navy and indispensable to the Allied victory in World War II now the strategic centerpiece of the world's most powerful navies From their World War I deployment in the Black Sea by the Imperial Russian Navy to their coming of age in World War II to their role in recent conflicts in Vietnam the Falklands and the Persian Gulf Aircraft Carriers An Illustrated History of Their Impact charts the evolution of carrier systems both militarily and within broader political and diplomatic contexts Covering both the ships and the planes they support this convenient authoritative handbook offers complete descriptions of carrier systems from all of the world's major navies from their operational histories strategic integration and technological advancements to the training of aircrew the development of carrier command leadership and the role of carriers as deterrents and diplomatic enforcers
The Shipbuilder and Marine Engine-builder ,1925
