The Later Middle Ages Isabella Lazzarini, 2021-04-29 Of all the sub periods in which European medieval history has been divided over time the later middle ages is possibly the one on which the burden of past and current grand narratives weighs the most Its chronological and geopolitical boundaries are shaped by a heavy narrative of decline or transition and consequently this period is often interpreted through the lenses of previous or following developments becoming in turn the tail end of the feudal communal imperial versus papal era or the announcement of modernity The Later Middle Ages addresses the urgent need to revise and rewrite the story of this period forging new critical and technical vocabularies not derived from the study of other periods By adopting a conscious approach towards temporal and spatial variety and by breaking the traditional and unitary narrative of decline and transition into one of many changes and continuities it charts the principal developments of late medieval Europe while opening up to different political cultures and societies throwing new light on older concepts and revealing analogies and differences with other geopolitical contexts Including maps illustrations a detailed chronology and a rich range of reading suggestions *The Later Middle Ages* aims at providing a first introduction to a very complex dynamic and fascinating period for Europe and beyond

White Hart Red Lion Nick Asbury, 2013-07-01 To this day The White Hart and The Red Lion are two of the most popular names for a public house in England both talismans that served as the insignia for Richard II and the banished Henry Bolingbroke Duke of Lancaster who usurped the throne in 1399

Nick Asbury acted in the Royal Shakespeare Company's famed Histories cycle which staged Shakespeare's vision of the deposition of Richard II through to the notorious Battle of Bosworth in 1485. With fellow RSC actors for company Nick travels the country visiting the buildings, landscapes and former sites of war and intrigue that feature in the plays and asks the question: what is it about the England of Shakespeare's Histories that continues to fascinate? From Alnwick to Eastcheap, Windsor Castle to a Leicester car park, this is his snapshot of England and its people then and now.
