

ISAAC KRAMNICK AND
BARRY SHEERMAN

A portrait of Harold Laski, an older man with glasses and a mustache, wearing a dark suit and tie. The portrait is set against a background of vertical wooden planks. The overall color palette is warm, with browns and reds.

HAROLD LASKI
A LIFE ON THE LEFT

Harold Laski A Life On The Left

Marc Stears

Harold Laski A Life On The Left:

Harold Laski Isaac Kramnick, Barry Sheerman, 1993 Learning on the Left Stephen J. Whitfield, 2020-09-15 Brandeis University is the United States only Jewish sponsored nonsectarian university and while only being established after World War II it has risen to become one of the most respected universities in the nation The faculty and alumni of the university have made exceptional contributions to myriad disciplines but they have played a surprising formidable role in American politics Stephen J Whitfield makes the case for the pertinence of Brandeis University in understanding the vicissitudes of American liberalism since the mid twentieth century Founded to serve as a refuge for qualified professors and students haunted by academic antisemitism Brandeis University attracted those who generally envisioned the republic as worthy of betterment Whether as liberals or as radicals figures associated with the university typically adopted a critical stance toward American society and sometimes acted upon their reformist or militant beliefs This volume is not an institutional history but instead shows how one university over the course of seven decades employed and taught remarkable men and women who belong in our accounts of the evolution of American politics especially on the left In vivid prose Whitfield invites readers to appreciate a singular case of the linkage of political influence with the fate of a particular university in modern America

Labour's Thinkers Kevin Hickson, Matt Beech, 2007-04-27 Labour s Thinkers seeks to examine the key ideas emphasised by the twelve individuals whom the authors judge to have made the most significant development to the political thought of the Labour Party since the 1930s Hickson and Beech argue the Labour Party is a party of values but often not of ideas The number of people involved in the serious discussion of ideas in the Labour Party is relatively small and intellectuals are often viewed with suspicion in what is or was a party set up to represent the interests of the working classes The formulation and development of ideas are therefore crucial to understanding the outcomes of the Labour Party s internal struggles and the basis of the party s appeal Labour s Thinkers highlights influential and at times controversial figures involved in the battle of socialist ideas in the Labour Party thus exploring concepts such as equality liberty community power the state ownership and patriotism **Equality and the British Left** Ben Jackson, 2007 The demand for equality has been at the heart of the politics of the Left in the twentieth century but what did theorists and politicians on the British Left mean when they said they were committed to equality How did they argue for a more egalitarian society Which policies did they think could best advance their egalitarian ideals Equality and the British Left provides the first comprehensive answers to these questions It charts debates about equality from the progressive liberalism and socialism of the early twentieth century to the arrival of the New Left and revisionist social democracy in the 1950s Along the way it examines and reassesses the egalitarian political thought of many significant figures in the history of the British Left including L T Hobhouse R H Tawney and Anthony Crosland This book demonstrates that the British Left has historically been distinguished from its ideological competitors on the Centre and the Right by a commitment to a demanding form of economic egalitarianism It shows that this egalitarianism has come to be

neglected or caricatured by politicians and scholars alike and is more surprising and sophisticated than is often imagined Equality and the British Left offers a compelling new perspective on British political thought that will appeal to scholars and students of British history and political theory and to anyone interested in contemporary debates about progressive politics

In the Shadow of the Dictators Paul Corthorn,2006-08-23 Paul Corthorn presents an illuminating in depth study of the British Left s response to the rise of international fascism in the 1930s He uses a range of newly available archival sources to analyse how the Labour left which took the form of the Socialist League between 1932 and 1937 and the Independent Labour Party reacted to developments such as Mussolini s invasion of Abyssinia Franco s uprising in Spain and Hitler s drive for territorial expansion He argues that their responses to these threats from the fascist dictators were shaped above all by their constantly changing views of another dictatorship the Soviet Union under Stalin an elegant piece of innovative research on the Labour left between 1932 and 1939 based on an impressive amount of research and on a perceptive and sensitive handling of the evidence collected this elegantly written book fills a major gap in the existing literature Professor E F Biagini University of Cambridge

The Longman Companion to the Labour Party, 1900-1998 Harry Harmer,2014-09-25 A timely reference guide to the Labour Party which brings together the essential facts and figures about the Party since its foundation through to the New Labour of the 1990 s It is the essential reference book for anyone wanting reliable information on the Labour Party

The New Left, National Identity, and the Break-up of Britain Wade Matthews,2013-08-08 In The New Left National Identity and the Break Up of Britain Wade Matthews charts the nexus between socialism and national identity in the work of key New Left intellectuals E P Thompson Raymond Williams Stuart Hall Perry Anderson and Tom Nairn Matthews considers these New Left thinkers response to Britain s various national questions including decolonization and the End of Empire the rise of European integration and separatist nationalisms in Scotland and Wales and to the national and nationalist implications of Thatcherism Cold War and the fall of communism Matthews establishes a contestatory dialogue around these issues throughout the book based around different New Left perspectives on what has been called the break up of Britain He demonstrates that national questions where crucial to New Left debates

Jews and the Law Ari Mermelstein,Victoria Saker Woeste,Ethan Zadoff,Marc Galanter,2014-06-10 Jews are a people of law and law defines who the Jewish people are and what they believe This anthology engages with the growing complexity of what it is to be Jewish and more problematically what it means to be at once Jewish and participate in secular legal systems as lawyers judges legal thinkers civil rights advocates and teachers The essays in this book trace the history and chart the sociology of the Jewish legal profession over time revealing new stories and dimensions of this significant aspect of the American Jewish experience and at the same time exploring the impact of Jewish lawyers and law firms on American legal practice This superb collection reveals what an older focus on assimilation obscured Jewish lawyers wanted to make it but they also wanted to make law and the legal profession different and better These fascinating essays show how despite considerable obstacles they succeeded

Daniel R Ernst Professor of Law Georgetown University Law Center Author of *Tocqueville's Nightmare The Administrative State Emerges in America 1900-1940* This fascinating collection of essays by distinguished scholars illuminates the distinctive and intricate relationship between Jews and law Exploring the various roles of Jewish lawyers in the United States Germany and Israel they reveal how the practice of law has variously expressed reinforced or muted Jewish identity as lawyers demonstrated their commitments to the public interest social justice Jewish tradition or personal ambition Any student of law lawyers or Jewish values will be engaged by the questions asked and answered Jerold S Auerbach Professor Emeritus of History Wellesley College Author of *Unequal Justice and Rabbis and Lawyers* *Liberal Ideals and the Politics of Decolonisation* H. Kumarasingham, 2020-11-25 *Liberal Ideals and the Politics of Decolonisation* explores the subject of liberalism and its uses and contradictions across the late British Empire especially in the context of imperial dissolution and subsequent state building The book covers multiple regions and issues concerning the British Empire and the Commonwealth in particular the period ranging from the late nineteenth century to the late twentieth century Original intellectual contributions are offered along with new arguments on critical issues in imperial history that will appeal to a wide range of scholars including those outside of history *Liberal Ideals and the Politics of Decolonisation* exposes commonalities contradictions and contexts of different types of liberalism that animated the late British Empire and its rulers radicals subjects and citizens as they attempted to forge new states from its shadow and understand the impact of imperialism This book examines the complexities of the idea and quest for self government in the last stages of the British Empire It also argues the importance of the political intellectual and empirical aspects of liberalism to understand the process of decolonisation The chapters in this book were originally published in a special issue of *The Journal of Imperial and Commonwealth History* **An Unrepentant Liberal** Marc Karson, 2017-01-20 *An Unrepentant Liberal* is a book of writings by an American professor of political science over a particular period of history It includes an introduction by the author who envisaged this book in his lifetime Unfortunately he died before its completion There is in addition a preface by Ann Karson his widow This book contains a chapter from Dr Karson's major work *American Labor Unions and Politics 1900-1918* and one from a previous writing on which it was based Among other things these and some of his scholarly articles and reviews about American labor tell of the discovery for which he is known that the influence of Roman Catholicism should be added to previously noted factors accounting for the relative conservatism of American unions and the absence of a Labor Party in the United States American labor in the early 20th Century was his research specialty Other articles and reviews concern aspects of American government and politics on which he regularly taught and world affairs as well as health issues and education Topics include race relations civil liberties religion socialism the left the right and foreign affairs *Liberalism's Crooked Circle* Ira Katznelson, 2021-08-10 This book is a profoundly moving and analytically incisive attempt to shift the terms of discussion in American politics It speaks to the intellectual and political weaknesses within the liberal tradition that

have put the United States at the mercy of libertarian authoritarian populist nakedly racist and traditionalist elitist versions of the right wing and it seeks to identify resources that can move the left away from the stunned intellectual incoherence with which it has met the death of Bolshevism In Ira Katznelson's view Americans are squandering a tremendous ethical and political opportunity to redefine and reorient the liberal tradition In an opening essay and two remarkable letters addressed to Adam Michnik who is arguably East Europe's emblematic democratic intellectual Katznelson seeks to recover this possibility By examining issues that once occupied Michnik's fellow dissidents in the Warsaw group known as the Crooked Circle Katznelson brings a fresh realism to old ideals and posits a liberalism that stares hard at cruelty suffering coercion and tyrannical abuses of state power Like the members of Michnik's club he recognizes that the circumference of liberalism's circle never runs smooth and that tolerance requires extremely difficult judgments Katznelson's first letter explores how the virtues of socialism including its moral stand on social justice can be related to liberalism while overcoming debilitating aspects of the socialist inheritance The second asks whether liberalism can recognize appreciate and manage human difference Situated in the lineage of efforts by Richard Hofstadter C Wright Mills and Lionel Trilling to thicken liberalism these letters also draw on personal experience in the radical politics of the 1960s and in the dissident culture of East and Central Europe in the years immediately preceding communism's demise Liberalism's Crooked Circle could help foster a substantive debate in the American elections of 1996 and determine the contents of that desperately needed discussion

Harold Laski M. Newman, 1993-03-08 Harold Laski 1893-1950 was perhaps the best known socialist intellectual of his era with influence in the USA India and mainland Europe as well as Britain But he was always a controversial figure and his reputation has never recovered from the effort to discredit him that took place during the Cold War This new biography argues that Laski has been misrepresented It maintains that he dedicated his life to the quest for a just society and that his thought remains highly relevant for our own times *A History of the British Labour Party* Andrew Thorpe, 2017-09-16 After 13 years in power Labour suddenly returned to being the party of opposition in 2010 This new edition of *A History of the British Labour Party* brings us up to date examining Gordon Brown's period in office and the Labour Party under the leadership of Ed Miliband Andrew Thorpe's study has been the leading single volume text on the Labour Party since its first edition in 1997 and has now been thoroughly revised throughout to include new approaches This new edition Covers the entirety of the party's history from 1900 to 2014 Examines the reasons for the party's formation and its aims Analyses the party's successes and failures including its rise to second party status and remarkable recovery from its problems in the 1980s Discusses the main events and personalities of the Labour Party such as MacDonald Attlee Wilson Blair and Brown With his approachable style and authoritative manner Thorpe has created essential reading for students of political history and anyone wishing to familiarise themselves with the history and development of one of Britain's major political parties

Labour in Crisis Neil Riddell, 1999 James VI of Scotland and I of England participated in the burgeoning literary culture

of the Renaissance not only as a monarch and patron but as an author in his own right publishing extensively in a number of different genres over four decades As the first monograph devoted to James as an author this book offers a fresh perspective on his reigns in Scotland and England and also on the inter relationship of authorship and authority literature and politics in the Renaissance Beginning with the poetry he wrote in Scotland in the 1580s it moves through a wide range of his writings in other genres including scriptural exegeses political social and theological treatises and printed speeches concluding with his manuscript poetry of the early 1620s The book combines extensive primary research into the preparation material form and circulation of these varied writings with theoretically informed consideration of the relationship between authors texts and readers The discussion thus explores James s responses to and interventions in a range of literary political and religious debates and reveals the development of his aims and concerns as an author Rickard argues that despite the King s best efforts to the contrary his writings expose the tensions and contradictions between authorship and authority This book will be of interest to scholars and students of the reign of James VI and I the literary and political cultures of late sixteenth century Scotland and early seventeenth century England the development of notions of authorship and the relationship between literature and politics

The Cambridge History of the Second World War: Volume 2, Politics and Ideology
Richard Bosworth, Joseph Maiolo, 2015-04-23 War is often described as an extension of politics by violent means With contributions from twenty eight eminent historians Volume 2 of The Cambridge History of the Second World War examines the relationship between ideology and politics in the war s origins dynamics and consequences Part I examines the ideologies of the combatants and shows how the war can be understood as a struggle of words ideas and values with the rival powers expressing divergent claims to justice and controlling news from the front in order to sustain moral and influence international opinion Part II looks at politics from the perspective of pre war and wartime diplomacy as well as examining the way in which neutrals were treated and behaved The volume concludes by assessing the impact of states politics and ideology on the fate of individuals as occupied and liberated peoples collaborators and resisters and as British and French colonial subjects

Absent Minds Stefan Collini, 2006-03-09 A richly textured work of history and a powerful contribution to contemporary cultural debate Absent Minds provides the first full length account of the question of intellectuals in twentieth century Britain have such figures ever existed have they always been more prominent or influential elsewhere and are they on the point of becoming extinct today Recovering neglected or misunderstood traditions of reflection and debate from the late nineteenth century through to the present Stefan Collini challenges the familiar cliché that there are no real intellectuals in Britain The book offers a persuasive analysis of the concept of the intellectual and an extensive comparative account of how this question has been seen in the USA France and elsewhere in Europe There are detailed discussions of influential or revealing figures such as Julien Benda T S Eliot George Orwell and Edward Said as well as trenchant critiques of current assumptions about the impact of specialization and celebrity Throughout attention is paid to the multiple senses of

the term intellectuals and to the great diversity of relevant genres and media through which they have communicated their ideas from pamphlets and periodical essays to public lectures and radio talks Elegantly written and rigorously argued *Absent Minds* is a major long awaited work by a leading intellectual historian and cultural commentator ranging across the conventional divides between academic disciplines and combining insightful portraits of individuals with sharp edged cultural analysis *Progressives, Pluralists, and the Problems of the State* Marc Stears,2002-06-13 In the first three decades of the twentieth century two groups of radical political theorists one American and one British were bound together in a unique ideological relationship *Pluralists Progressives and the Problems of the State* provides the first comprehensive examination of the intellectual dialogue that constituted that bond Drawing on extensive original archival research and employing conceptual institutional and historical analysis the book examines the efforts of these two initially distinctive political movements to forge a single ideology capable of motivating far reaching reform in both of their countries In so doing it challenges traditional narratives emphasizing the exceptional development of American progressivism and British socialism arguing instead that the intellectual aspirations and political programmes of both were constantly shaped and reshaped by international ideological exchange Such an analysis transforms our understanding of the complex political demands of these movements and enables the works of their leading protagonists including G D H Cole Herbert Croly Harold Laski and Walter Lippmann to emerge as rich and sophisticated contributions to modern political thought **Clem Attlee** Francis Beckett,2015-08-15 As British prime minister from 1945 to 1951 Clement Attlee built a legacy that includes today s famous and controversial National Health Service yet he is often remembered as a rather dull political figure Rejecting Winston Churchill s jibe that Attlee was a modest little man with plenty to be modest about this biography makes the case that his reputation as Britain s greatest reforming prime minister is fully deserved Building on his earlier work on Attlee and including new research and stories many of which are published here for the first time Francis Beckett highlights Attlee s relevance for a new generation A poet and dreamer Attlee led a remarkable political life that saw among other challenges the beginning of the Cold War Ultimately this perceptive biography demonstrates that Attlee s ideas have never been more relevant *A Party with Socialists in It* Simon Hannah,2022-08-20 A Guardian Book of the Day The defeat of socialist firebrand Jeremy Corbyn as Labour Leader in 2019 confirmed Tony Benn s famous retort the Labour party has never been a socialist party although there have always been socialists in it For over a hundred years the British Labour Party has been a bastion for working class organisation and struggle However has it ever truly been on the side of the workers Where do its interests really lie And can we rely on it to provide a barrier against right wing forces Simon Hannah s smart and succinct history of the Labour left guides us through the twists and turns of the party from the Bevanite movement and the celebrated government of Clement Attlee through the emergence of a New Left in the 1970s and the Blairism of the 1990s to Corbyn s defeat and his replacement by Keir Starmer This new edition is updated throughout with a new final chapter and conclusion

bringing the story up to date **Labour's Conscience** Jonathan Schneer, 2018-12-07 First published in 1988 The years 1945-51 were crucial to the Labour Party and the Left in Britain This elegantly written book traces the gradual and painful disillusionment of the Labour Left with the Attlee governments and analyses the alternative more militant programme which the Labour Left devised Never an organised bloc the author argues that they are best understood as Labour's conscience a militant tendency is the true sense of the words This title will be of interest to scholars and students of political history

Unveiling the Energy of Verbal Beauty: An Psychological Sojourn through **Harold Laski A Life On The Left**

In a world inundated with screens and the cacophony of instantaneous transmission, the profound energy and emotional resonance of verbal artistry frequently disappear into obscurity, eclipsed by the continuous barrage of sound and distractions.
