## **Harold Temperley:**

**Harold Temperley** John D. Fair, 1992 Harold Temperley was a leading Cambridge diplomatic historian of the interwar period and Master of Peterhouse at the time of his death in 1939 This biography sheds new light on the development of the British historical profession and contributes to our understanding of Cambridge life in the early twentieth century It focuses on how Temperley's work affected the larger worlds of intellectual life and international politics outside his college A basic premise of this study is that Temperley was influenced by spiritual factors especially the romantic literature and cultures of eastern Europe He also exhibited from his Victorian upbringing a great confidence in the rightness of his own country's liberal institutions in the Gladstone Acton mode and constantly sought intervention in the realm of public affairs Early chapters lay a basis for Temperley's moral worldview and show how he and other scholars of the Cambridge History School struggled over whether history should be valued for its own sake or whether it should be regarded as a school for statesmanship During World War I Temperley entered the active life After brief service in Gallipoli he was assigned to the War Office where he gathered intelligence on the Balkans and daily influenced British policy through his knowledge of that area and his ability to get on with the right people At the end of the war he served as an agent on mission in southeastern Europe and was a member of the British delegation at the Paris Peace Conference Vehemently anti Italian Temperley was instrumental in frustrating Italian Irredentist aims along the eastern Adriatic Later he represented Britain on the Albanian boundary commission and served as a special advisor to A J Balfour with Britain's League of Nations delegation in Geneva in 1921 Between the wars Temperley continued to mingle with persons in the highest echelons of government and academic affairs throughout Britain Europe and America He gained notoriety for his compilation with G P Gooch of British Documents on the Origins of the War This tempestuous story adds substantially to U F G Eyck's biography of Gooch Temperley also initiated The Cambridge Historical Journal and wrote a textbook with A J Grant entitled Europe in the Nineteenth and Twentieth Centuries which is still used in many British educational institutions His most famous pupil was Herbert Butterfield whose seminal idea and book The Whig Interpretation of History was influenced by continuous contacts with his mentor at Peterhouse As president of the International Historical Congress as well as through a continuous outpouring of scholarly works Temperley was an influential figure in the historical profession in the 1930s However his greatest influence occurred in the public realm when Neville Chamberlain read Temperley's book The Foreign Policy of Canning as he was formulating plans for a settlement of the Czechoslovakian problem in 1938 This work created an appealing historical parallel between George Canning's ideas in the 1820s and his own approach to Hitler and it had a definite impact on Chamberlain's conduct during the Munich crisis BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved An Historian in Peace and War Dr T G Otte, 2014-06-28 The First World War and subsequent peace settlement shaped the course of the twentieth century and the profound significance of these events were not lost on Harold Temperley

whose diaries are presented here An established scholar and later one of Britain s foremost modern and diplomatic historians Temperley enlisted in the army at the outbreak of the war in August 1914 Invalided home from the Dardanelles campaign in 1915 he spent the remainder of the war and its aftermath as a general staff officer in military intelligence Here he played a significant role in preparing British strategy for the eventual peace conference and in finalising several post war boundaries in Eastern Europe Later in the 1920s and 1930s Temperley was to co edit the British diplomatic documents on the origins of the war and the vicissitudes of modern Great Power politics were to be his principal preoccupation Beginning in June 1916 the diary presents a more or less daily record of Temperley s activities and observations throughout the war and subsequent peace negotiations As a professional historian he appreciated the significance of eyewitness accounts and if Temperley was not at the very heart of Allied decision making during those years he certainly had a ringside seat Trained to observe accurately he recorded the concerns and confusions of wartime conscious always of the historical significance of what he observed As a result there are few sources that match Temperley s diary which presents a fascinating and unique perspective upon the politics and diplomacy of the First World War and its aftermath

**Cambridge Modern History Collection** J.B. Bury, Mandell Creighton, R. Nisbet Bain, G. W. Prothero, Adolphus William Ward, Lord Acton, 2024-02-22 The Cambridge Modern History is a comprehensive modern history of the world beginning with the 15th century Age of Discovery The first series was planned by Lord Acton and edited by him with Stanley Leathes Adolphus Ward and George Prothero The Cambridge Modern History Collection features all five original volumes Volume I The Renaissance Volume II The Reformation the End of the Middle Ages Volume III The Wars of Religion Volume IV The 30 Years War Volume V The Age of Louis XIV     The Madman in the White House Patrick Weil, 2023-05-16 A rich study of the role of personal psychology in the shaping of the new global order after World War I So long as so much political power is concentrated in one human mind we are all at the mercy of the next madman in the White House Gary J Bass author of *The Blood Telegram* The notorious psychobiography of Woodrow Wilson rediscovered nearly a century after it was written by Sigmund Freud and US diplomat William C Bullitt sheds new light on how the mental health of a controversial American president shaped world events When the fate of millions rests on the decisions of a mentally compromised leader what can one person do Disillusioned by President Woodrow Wilson's destructive and irrational handling of the 1919 Treaty of Versailles a US diplomat named William C Bullitt asked this very question With the help of his friend Sigmund Freud Bullitt set out to write a psychological analysis of the president He gathered material from personal archives and interviewed members of Wilson's inner circle In *The Madman in the White House* Patrick Weil resurrects this forgotten portrait of a troubled president After two years of collaboration Bullitt and Freud signed off on a manuscript in April 1932 But the book was not published until 1966 nearly thirty years after Freud's death and only months before Bullitt's The published edition was heavily redacted and by the time it was released the mystique of psychoanalysis had waned in popular culture and Wilson's legacy was unassailable The psychological study was panned by critics and Freud's descendants denied his involvement in the project For nearly a century the mysterious original Bullitt and Freud manuscript remained hidden from the public Then in 2014 while browsing the archives of Yale University Weil happened upon the text Based on his reading of the 1932 manuscript Weil examines the significance of Bullitt and Freud's findings and offers a major reassessment of the notorious psychobiography The result is a powerful warning about the influence a single unbalanced personality can have on

the course of history      *The Eastern Question in 1870s Britain* Leslie Rognie Schumacher,2023-09-30 This book examines mid Victorian discourse on the expansion of the British Empire s role in the Middle East It investigates how British political leaders journalists and the general public responded to events in the Ottoman Empire which many if not most people in Britain came to see as trudging towards inevitable chaos and destruction Although this Eastern Question on a post Ottoman future was ostensibly a matter of international politics and sometimes conflict this study argues that the ideas underpinning it were conceived shaped and enforced according to domestic British attitudes In this way this book presents the Eastern Question as as much a British question as one related in any way to the Ottoman Empire Particularly in the crucial decade of the 1870s debates in Victorian society on the Eastern Question served as proxies for other pressing issues of the day including electoral reform changing religious attitudes public education and the costs of maintaining Britain s empire This book offers new perspectives on the Eastern Question s relationship to these trends in Victorian society culture and politics highlighting its significance in understanding Britain s imperial programme more widely in the second half of the nineteenth century      **Human Nature and the Causes of War** John David Orme,2018-04-07 What are the causes of war Wars are generally begun by a revisionist state seeking to take territory The psychological root of revisionism is the yearning for glory honor and power Human nature is the primary cause of war but political regimes can temper or intensify these passions This book examines the effects of six types of regime on foreign policy monarchy republic and sultanistic charismatic and military and totalitarian dictatorship Dictatorships encourage and unleash human ambition and are thus the governments most likely to begin ill considered wars Classical realism modified to incorporate the impact of regimes and beliefs provides a more convincing explanation of war than neo realism      **The American Historical Review** John Franklin Jameson, Henry Eldridge Bourne, Robert Livingston Schuyler,1925 American Historical Review is the oldest scholarly journal of history in the United States and the largest in the world Published by the American Historical Association it covers all areas of historical research      **Forging the Collective Memory** Keith Wilson,1996-07-01 When studying the origins of the First World War scholars have relied heavily on the series of key diplomatic documents published by the governments of both the defeated and the victorious powers in the 1920s and 1930s However this volume shows that these volumes rather than dealing objectively with the past were used by the different governments to project an interpretation of the origins of the Great War that was more palatable to them and their country than the truth might have been In revealing policies that influenced the publication of the documents the relationships between the commissioning governments their officials and the historians involved this collection serves as a warning that even seemingly objective sources have to be used with caution in historical research      *The Athenaeum* ,1910      **Hyderabad, British India, and the World** Eric Lewis Beverley,2015-06 A study of political possibilities in the era of modern imperialism from the perspective of the sovereign state of Hyderabad
