*Doctors in Canada* Bernard R. Blishen, 1991-12-15 Through the twentieth century the nature of medical practice has changed more quickly more dramatically and far more publicly than that of any other profession in Canada In this study Bernard Blishen identifies the social and political pressures on the medical profession and assesses how it has responded to them Among the changes doctors have confronted are third party pressures from government and hospital bureaucracies greater public knowledge improved technology recognition of patients rights and legal challenges Blishen discusses how the doctors achieved dominance in the health field reviews demographic changes within the profession and the larger population examines data on the changing health status of Canadians and charts physician supply against patient demand He finds that the chief source of his profession s collegial strength has been the homogeneity of its membership This homogeneity is declining with increasing numbers of women and ethnic groups in the profession and increasing specialization Blishen offers a comprehensive quantified overview of a profession in transition and suggests the implications of its changes for all Canadians      Case Studies in Canadian Health Policy and Management, Second Edition Raisa B.
