Healthy Democracies Welfare Politics In Taiwan And South Korea:

Healthy Democracies Joseph Wong, 2018-05-31 Do the pressures of economic globalization undermine the welfare state Contrary to the expectations of many analysts Taiwan and South Korea have embarked on a new trajectory toward a strengthened welfare state and universal inclusion In *Healthy Democracies* Joseph Wong offers a political explanation for health care reform in these two countries He focuses specifically on the ways in which democratic change in Taiwan and South Korea altered the incentives and ultimately the decisions of policymakers and social policy activists in contemporary health care debates Wong uses extensive field research and interviews to explore both similarities and subtle differences in the processes of political change and health care reform in Taiwan and South Korea During the period of authoritarian rule he argues state leaders in both places could politically afford to pursue selective social policies reform was piecemeal and health care policy outcomes far from universal Wong finds that the introduction of democratic reform changed the political logic of social policy reform vote seeking politicians needed to promote popular policies and health care reform advocates from bureaucrats to grassroots activists adapted to this new political context In Wong's view the politics of democratic transition in Taiwan and South Korea has served as an effective antidote to the presumed economic imperatives of social welfare retrenchment during the process of globalization

Democratic Governance in Taiwan John Fuh-sheng Hsieh, Robert Cox, 2022-10-24 This book employs a policy based approach to examine the emerging governance structure in Taiwan one of several countries in East Asia where democratic consolidation is firmly established Each chapter provides a detailed investigation of reforms that have helped to strengthen Taiwan's democracy in such areas as elections civil service recruitment economic policy social policy environmental protection civil rights response to the COVID 19 pandemic civil military relations and foreign and mainland China policy As a study of Taiwan's democratic governance this book will be of interest to students and scholars of Asian politics comparative politics democracy and Taiwan

Policy Analysis in Taiwan Yu-Ying Kuo, 2018-03-01 The study of policy analysis in Taiwan began in the 1970s however while other countries have recognised the need for detailed examination of the theory and practice of policy analysis at different levels of government Taiwanese studies have remained limited This book brings together for the first time a team of experienced and highly respected researchers from across Taiwan with expertise in policy analysis theory and practice in specific areas of government as well as in non governmental organisations This is a well structured volume which will be highly relevant for students and academics interested in understanding and analysing politics and policy making in Taiwan Features of the ILPA series include a country specific systematic study of policy analysis systems by government and non governmental actors a history of the country's policy analysis empirical case studies and a comparative overview of alternative approaches a key reference collection for research and teaching in comparative policy analysis and policy studies

Housing East Asia J. Doling, R. Ronald, 2014-01-21 Housing policy has been central to the economic success stories of the major East Asian economies as well as a pillar of social and welfare provision This book explores not only the development of their distinctive approach but also the challenges posed in recent years and currently by rapid socio economic and demographic change

Achieving Access Joseph Harris, 2017-09-15 At a time when the world's wealthiest nations struggle to make health care

and medicine available to everyone why do resource constrained countries make costly commitments to universal health coverage and AIDS treatment after transitioning to democracy Joseph Harris explores the dynamics that made landmark policies possible in Thailand and Brazil but which have led to prolonged struggle and contestation in South Africa Drawing on firsthand accounts of the people wrestling with these issues *Achieving Access* documents efforts to institutionalize universal healthcare and expand access to life saving medicines in three major industrializing countries In comparing two separate but related policy areas Harris finds that democratization empowers elite professionals such as doctors and lawyers to advocate for universal health care and treatment for AIDS Harris s analysis is situated at the intersection of sociology political science and public health and will speak to scholars with interests in health policy comparative politics social policy and democracy in the developing world In light of the growing interest in health insurance generated by implementation of the Affordable Care Act as well as the coming changes poised to be made to it *Achieving Access* will also be useful to policymakers in developing countries and officials working on health policy in the United States

Ageing in East Asia Tsung-hsi

Fu, Rhidian Hughes, 2009-02-13 Ageing populations present considerable challenges to welfare states internationally and East Asia is no exception Demographics show that countries in East Asia either have the highest proportion of older people or the speed at which their population is ageing is faster than anywhere else in the world This book explores the causes and trends of population ageing in eight countries and discusses the challenges and impacts of population ageing on public policies East Asian countries have developed new policies to meet older people s needs across health social care income maintenance employment and housing *Ageing in East Asia* provides the first comprehensive introduction to ageing policies in East Asian countries The book explores causes and trends of population ageing discusses the challenges and impacts of population ageing on public policies examines the important strategic and theoretical policy contexts of ageing policies in East Asian countries covers eight East Asian countries in dedicated chapters examining Japan China South Korea Taiwan Hong Kong Singapore Malaysia and Thailand This volume brings East Asian countries clearly into focus and illuminates the state of welfare development internationally It provides an important resource for lecturers students researchers and policy makers with interest in East Asia older people and welfare policy

The Changing Policy-Making Process in Greater China

Bennis Wai Yip So, Yuang-kuang Kao, 2014-04-24 This book explores how the policy making process is changing in the very volatile conditions of present day mainland China Taiwan and Hong Kong It considers the overall background conditions the need to rebalance in mainland China after years of hectic economic growth governance transition and democratic consolidation in Taiwan and governance crisis in Hong Kong under a regime of uncertain legitimacy It examines the various actors in the policy making process the civic engagement of ordinary people and the roles of legislators mass media and bureaucracy and discusses how these actors interact in a range of different policy cases Throughout the book contrasts the different approaches in the three different jurisdictions and assesses how the policy making process is changing and how it is

likely to change further **Comparative Politics** Mark Irving Lichbach, Alan S. Zuckerman, 2009-02-09 This revised edition of *Comparative Politics* offers an assessment of the past decade of scholarship in comparative politics **Taiwan and The 'China Impact'** Gunter Schubert, 2015-12-14 There can be no doubt that China's economic and political rise is having a stronger effect on Taiwan than on any other country given the Chinese government's claim to sovereignty over Taiwan and Taiwan's quest to maintain its democratic achievements and political identity as a sovereign state Against this background this volume deals with the bigger picture of evolving relations across the Taiwan Strait departing from the observation that China's impact on Taiwan has become stronger over the last 20 years This book analyses the China impact on Taiwan in terms of its social political and security space from both an empirical and conceptual point of view It is the first comprehensive account of China's multifaceted impact on the politics and society of contemporary Taiwan written by renowned scholars from Taiwan Europe and the U S The book covers a wide range of topics including Taiwan's party alignment elections generational politics cross strait political economy immigration policy and security The contributors political scientists and sociologists highlight both the dangers and the opportunities of the China impact for Taiwan and draw a realistic picture of the island republic's current situation and future options in the shadow of its giant neighbour Based on qualitative and quantitative data this volume intends to fill a gap in the Taiwan studies field by studying the China impact on Taiwan's politics and society systematically and from a comparative perspective By doing so it will be of great interest to students and scholars of Taiwan studies and East Asian politics and society more generally *Democracy, State Capacity and the Governance of COVID-19 in Asia-Oceania* Aurel Croissant, Olli Hellmann, 2023-04-07 This book examines the public health responses to the COVID 19 pandemic in the Asia Oceania region and their implications for democratic backsliding in the period January 2020 to mid 2021 The contributions discuss three key questions How did political institutions in Asia Oceania create incentives for effective public health responses to the COVID 19 outbreak How did state capacities enhance governments ability to implement public health responses How have governance responses affected the democratic quality of political institutions and processes Together the analyses reveal the extent to which institutions prompted an effective public health response and highlights that a high capacity state was not a necessary condition for containing the spread of COVID 19 during the early phase of the pandemic By combining quantitative and qualitative analyses the volume also shows that the effect of the COVID 19 pandemic on the quality of democratic institutions has been uneven across Asia Oceania Guided by a comprehensive theoretical framework this will be an invaluable resource for scholars and students of political science policy studies public health and Asian studies *Varieties of Capitalism in Asia* David Hundt, Jitendra Uttam, 2017-08-02 This book devises an innovative new way of explaining how socioeconomic orders shape capitalism in Asia Hundt and Uttam go beyond both the varieties of capitalism approach which is mainly used to analyse Western capitalism and the developmental state thesis which is the primary framework for analysing capitalism in Asia and propose a new and innovative approach to the

emergence of capitalist systems Rather than focusing solely or predominantly on the state they argue it is necessary to bring society back in to an analysis of capitalism The authors apply this approach to case studies from across the region Japan South Korea and Taiwan Hong Kong and Singapore Malaysia and Thailand and India and China This volume will appeal to historians political scientists and economists as well as policymakers who are interested in the transformation of the Asian region since World War II

Assessing the Landscape of Taiwan and Korean Studies in Comparison ,2021-04-19 In Assessing the Landscape of Taiwan and Korean Studies in Comparison the chapters offer a reflection on the state of the field of Taiwan and Korea Studies For the editors the volume s purpose was to identify not just their similarities but also a reflection on their differences Both have national identities formed in a colonial period The surrender of Japan in 1945 ignited the light of independence for Korea but this would be ideologically split within five years For Taiwan that end forced it into a born again form of nationalism with the arrival of the Chinese Nationalists Taiwan and South Korea s economic development illustrate a progressive transition and key to understanding this is the relationship between modernization and democracy By looking at Korea and Taiwan the chapters in the volume broaden an understanding of the interconnectivity of the region

The Oxford Handbook of Transformations of the State Stephan Leibfried,Evelyne Huber,Matthew Lange,Jonah D. Levy,Frank Nullmeier,John D. Stephens,2015-06-11 This Handbook offers a comprehensive treatment of transformations of the state from its origins in different parts of the world and different time periods to its transformations since World War II in the advanced industrial countries the post Communist world and the Global South Leading experts in their fields from Europe and North America discuss conceptualizations and theories of the state and the transformations of the state in its engagement with a changing international environment as well as with changing domestic economic social and political challenges The Handbook covers different types of states in the Global South from failed to predatory rentier and developmental in different kinds of advanced industrial political economies corporatist statist liberal import substitution industrialization and in various post Communist countries Russia China successor states to the USSR and Eastern Europe It also addresses crucial challenges in different areas of state intervention from security to financial regulation migration welfare states democratization and quality of democracy ethno nationalism and human development The volume makes a compelling case that far from losing its relevance in the face of globalization the state remains a key actor in all areas of social and economic life changing its areas of intervention its modes of operation and its structures in adaption to new international and domestic challenges

International Security and the United States Paul Bellamy,Karl DeRouen Jr.,2007-12-30 Shaped by often very dramatic events international security and the international system have changed significantly in recent years The conclusion of the Cold War the emergence of new political systems the growth of significant threats such as terrorism and the development of new security doctrines have driven global transformation These volumes provide detailed information on countries from every geographic region and continent on the globe evaluating their

relationship with the United States and measuring the potential security threats posed by each. The contributors consider factors such as geography and history, the political systems of each state, their human rights records, the ability to maintain law and order and provide security within their own borders, the impact of current administrations, rulers or regimes on a nation's foreign policy, and the regional factors that often dictate local politics in order to make their assessments. All of the entries in this set follow a standardized outline and present a concise but detailed assessment of each country. Each entry begins with a discussion of geography through which the contributors identify the state's natural resources, environmental issues, and the extent of its territorial jurisdiction. The focus then shifts to social and political organizations. Populations are broken down by not only numbers but by ethnic and religious affiliations, access to health care, education, housing, and income. All of those aspects are often a reflection of the system of government in place. Like the United States, those governments are comprised of different parties or leaders with various interests. The contributors assess those entities and interests within each country. They measure the ways in which factors of religion, nationalism, and globalism impact and shape not only domestic policies but also foreign policy and ultimately the country's relationship to the United States. Other areas such as military organizations and activities, records on human rights and justice, recognition of and adherence to international conventions, and national attitudes towards security are also considered. Every entry also includes an assessment of current and potential security issues and an analysis of current terrorist threats that may already be in place or that are beginning to develop in various nations. Each entry concludes with a summary of current relationships with the United States. Those relationships are defined by the identification and brief analysis of formal trade aid or military treaties in place between the United States and other nations, the general attitude of a nation's citizenry and its government towards the U.S., and finally identifying any social and cultural links between nations and the U.S., migration patterns, language, economies. Finally, possible changes and trends that will impact security issues are identified by the contributors. Taken in their entirety, these encyclopedias contain a wealth of information in a concise format that will serve as a valuable reference guide not only for specialists but general readers as well.

Dictatorship and Information Martin K. Dimitrov, 2023. Fear pervades dictatorial regimes. Citizens fear leaders, the regime's agents fear superiors, and leaders fear the masses. The ubiquity of fear in such regimes gives rise to the dictator's dilemma where autocrats do not know the level of opposition they face and cannot effectively neutralize domestic threats to their rule. The dilemma has led scholars to believe that autocracies are likely to be short-lived. Yet some autocracies have found ways to mitigate the dictator's dilemma. As Martin K. Dimitrov shows in *Dictatorship and Information*, substantial variability exists in the survival of nondemocratic regimes with single party polities having the longest average duration. Offering a systematic theory of the institutional solutions to the dictator's dilemma, Dimitrov argues that single party autocracies have fostered channels that allow for the confidential vertical transmission of information while also solving the problems associated with distorted information. To explain how this all

works Dimitrov focuses on communist regimes which have the longest average lifespan among single party autocracies and have developed the most sophisticated information gathering institutions Communist regimes face a variety of threats but the main one is the masses Dimitrov therefore examines the origins evolution and internal logic of the information collection ecosystem established by communist states to monitor popular dissent Drawing from a rich base of evidence across multiple communist regimes and nearly 100 interviews Dimitrov reshapes our understanding of how autocrats learn or fail to learn about the societies they rule and how they maintain or lose power Challenging Neoliberalism Cal Clark,Evelyn A.

Clark,2016-02-26 Neoliberalism which advocates free markets without government interference has become increasingly utilized and controversial over the last three and a half decades This book presents case studies of Chile and Taiwan two countries that seemingly prospered from adopting neoliberal strategies and finds that their developmental histories challenge neoliberalism in fundamental ways From one perspective the political economies of Chile and Taiwan might appear to be poster children for neoliberalism Both took aggressive policy actions Taiwan in the 1960s and Chile in the 1970s to create market driven economies that were well integrated into the capitalist global economy Subsequently these two countries were cited as economic miracles that opened their markets resulting in rapid economic growth and development A closer examination of the two nations however turns up very significant differences between them In particular Taiwan with its much more statist approach to development outperformed Chile by a considerable margin and some of the experiences of Chile departed markedly from neoliberal predictions The authors argue that Taiwan s strategy was the more successful of the two primarily because it discarded the ideology of neoliberalism and unfettered laissez faire Scholars educators and students studying globalization political economy and or economic development will find this book an irreplaceable addition to the discussion of neoliberalism **Causal Mechanisms in the Global Development of Social Policies** Johanna

Kuhlmann,Frank Nullmeier,2022-05-28 This open access edited volume introduces the concept of causal mechanisms to explore new ways of explaining the global dynamics of social policy and shows that a mechanism based approach provides several advantages over established approaches for studying social policy The introductory chapter outlines the mechanism based approach which stands out by modularisation and a clear focus on actors The mechanism based approach then guides the twelve chapters on social policy developments in different Asian African European and Latin American countries Based on these findings the concluding chapter provides a structured compilation of causal mechanisms and outlines how a mechanism based approach can further strengthen research on the global development of social policies especially in a comparative perspective The edited volume is highly relevant for social policy scholars from a variety of disciplines as well as for scholars interested in strengthening explanation in the social sciences
