

You must walk to the beat of a different drummer.
The same beat that the wealthy hear. If the beat
sounds normal, evacuate the dance floor
immediately! The goal is to not be normal, because
as my radio listeners know, normal is broke.

Hear A Different Drummer:

The Quote Verifier Ralph Keyes, 2007-04-01 Our language is full of hundreds of quotations that are often cited but seldom confirmed Ralph Keyes's The Quote Verifier considers not only classic misquotes such as Nice guys finish last and Play it again Sam but more surprising ones such as Ain't I a woman and Golf is a good walk spoiled as well as the origins of popular sayings such as The opera ain't over till the fat lady sings No one washes a rented car and Make my day Keyes's in depth research routinely confounds widespread assumptions about who said what where and when Organized in easy to access dictionary form The Quote Verifier also contains special sections highlighting commonly misquoted people and genres such as Yogi Berra and Oscar Wilde famous last words and misremembered movie lines An invaluable resource for not just those with a professional need to quote accurately but anyone at all who is interested in the roots of words and phrases The Quote Verifier is not only a fascinating piece of literary sleuthing but also a great read

When Mongrel Dogs Teach William J Burghardt, 2021-03-25 What happens when a 45 year old Baby Boomer goes back to teach high school and finds the students are more in touch with reality than his colleagues and supervisors So don't blow off these tests Keep our school number high These test scores are not about you the students They are about property value Money Status Making the rich richer and the poor poorer The American Dream is about moving from districts with shitty test scores to those with really good ones Teaching isn't easy it's grueling You have to have the gift or you won't make it teachers should be paid like doctors and lawyers their contributions affect the lives of millions of young people what they give back to the human race is far far greater The evaluation of teachers is a very hot issue at this writing and as Storm once told the entire faculty the people doing the evaluating take these extra courses but it doesn't really qualify them to evaluate anybody

the world as a rock musician followed by living abroad as a minister Did you know that all the music ever created in the West has its origin in just twelve sounds From rock to bluegrass to gospel to the intricate arrangements of classical it all came from only twelve notes That happened because musicians found an infinite number of tonal combinations to use within the twelve note scale What today s social ills have in common with music is that they exist because of a failure on our part to have a similar vision for the Ten Commandments That vision is one of limitless applications for them This book approaches the Ten Commandments in the same manner that musicians approach the twelve note scale with a desire to create something fresh building on what has come before This book uses the ten sounds to create a different melody to sing in the areas of racial injustice disability gender inequality and to bring healing to the wounds that linger on in some communities because of unjust activities engaged in by some of our forebearers
