*The Oxford Handbook of Hegel* Dean Moyer, 2017 The Oxford Handbook of Hegel is a comprehensive guide to Hegel's philosophy from his first published writings to his final lectures The Handbook includes many essays from younger scholars who have brought new perspectives and rigor to the study of Hegel's texts The Style of Hawthorne's Gaze John Dolis, 2014-07-14 An exploration of Nathaniel Hawthorne's narrative technique and unique vision of the world The Style of Hawthorne's Gaze is an unusual and insightful work that employs a combination of critical strategies drawn from art history philosophy psychoanalysis and contemporary aesthetic and literary theory to explore Nathaniel Hawthorne's narrative technique and his unique vision of the world Dolis studies Hawthorne's anti technological and essentially Romantic view of the external world and examines the recurring phenomena of lighting motion aspectivity fragmentation and imagination as they relate to his descriptive techniques Dolis sets the world of Hawthorne's work over and against the aesthetic and philosophical development of the world understood as a view from its inception in the camera obscura and perspective in general to its 19th century articulation in photography In light of this general technology of the image and drawing upon a wide range of contemporary critical theories Dolis begins his study of Hawthorne at the level of description where the world of the work first arises in the reader's consciousness Dolis shows how the work of Heidegger Merleau Ponty Freud Lacan and Derrida can provide fresh insights into the sophisticated style of Hawthorne's perception of and system for representing reality

**Portraits of the Great Bible-believing Scientists** Franjo Stvarnik, 2018-10-29 More than 60 years ago remembered Mr Stvarnik I read the books From Ancient Philosophy to Modern Science of Atoms by prof dr Ivan Supek and the Images from the Lives of Great Scientists by prof dr Milutin Milankovic and for me these are still the most beautiful scientific texts From that time as a much loving hobby Mr Stvarnik has studied biographies of great scientists I have grown up in an atheistic country he once said and therefore it was a surprise to find that there were very few atheistic or agnostic scientists the majority of them were some kind of believers in God Actually a good number of the greatest scientific minds were or are Bible believing Christians That realization along with discoveries of some deliberate distortions of historical facts that made certain Bible believing scientists look as having an atheistic bent prompted writing a book The Portraits of the Great Bible believing Scientists that was published in Croatian and in Serbian languages Now he has written the same in English but since many years elapsed from the mentioned publications he enriched the text with new findings and added 12 new portraits into the book

also doubtful about their doubting There are still others who are proud of their doubting Yet there remains a longing for certainty Certainty Whether Christians or Jews believers in God or atheists the discussion today runs right across old denominations and new ideologies but the longing for certainty is unquenched Does God exist We are putting all our cards on the table here The answer will be Yes God exists As human beings in the twentieth century we certainly can reasonably believe in God even more so in the Christian God and perhaps even more easily today than a few decades or centuries ago For after so many crises it is surprising how much has been clarified and how many difficulties in regard to belief in God have melted into the Light that no darkness has overcome The Wizard of Us Jean Houston,2016-11 Discover the powerful unique skills and qualities of Dorothy the Wizard and the other archetypes of mind heart and courage that live within each of us Houston offers new understanding of the human condition the importance of myth and the critical nature of our role and how we can participate in the creation of a better world It s time to uncover your inner hero and become the essential human you were always meant to be **The Logic of Desire** Peter Kalkavage,2007 The best introduction for the general reader to Georg Wilhelm Friedrich Hegel s Phenomenology of Spirit **The Holy Bible** ,1861 **Littell's Living Age** ,1865
