A Handbook of Modern Japan Ernest Wilson Clement, 1905 *Alternative Politics in Contemporary Japan* David H. Slater, Patricia G. Steinhoff, 2024-05-31 Modern social movements frequently serve as a space to voice concerns in a supportive and collective context and thus are an important venue for individuals to learn how to speak up for themselves With the rise of new generations and advancement of technology such as digital networks contemporary Japanese social movements and activism have transformed significantly in recent years now with more flexibility and less reliance on ideology and institutional foundations The new patterns provide individuals different spaces and ways to get involved in politics which have shed the traditional settings and expectations This transformation carries both advantages and risks In *Alternative Politics in Contemporary Japan* twelve original ethnographic studies illustrate how social movements are creating new alternatives for Japan in the current century The term alternative has a double meaning First it refers to forms of political engagement that are outside the standard politics of political parties and institutional forums Second it engages with contemporary movements seeking an alternative politics that is culturally specific and historically embedded an alternative to past periods of activism in Japan in the 1960s and 1970s often characterized as tainted and causing the decline of social movement activity for nearly two decades The introduction written by Slater and Steinhoff places the volume in historical social and methodological context and analyzes the main characteristics of the new social movements Each chapter

provides a rich description of a particular movement active between 1990 and 2020 showing what the participants wanted to achieve how they tried to distance themselves from earlier movements and how they used new social media and other innovations to do so The accounts preserve the immediacy of the period when the fieldwork was conducted but each end with a postscript bringing the movement up to date Engagingly written by an international community of Japan specialists committed to doing extended fieldwork with small social movement groups Alternative Politics will appeal to social scientists interested in activism and Japan specialists in sociology anthropology and other disciplines as well as undergraduates in a wide range of courses
