The City of Coventry Adrian Smith,2006-10-27 The image of Coventry in flames was one of the most haunting of the Second World War Yet the excitement and optimism of the 1950s and 1960s were succeeded by a quarter century of urban blight and economic slump The collapse of manufacturing industry machine tools aeroplanes cars left a proud community adrift and demoralised Today a revitalised twenty first century city Coventry has embraced the new millennium and evolved from bleak post industrial desert to vibrant cultural oasis in the process rediscovering a sense of purpose and a vision for the future The City of Coventry tells the story of an experiment in social democracy carried out by a Labour controlled council which envisaged the bomb shattered city as a model of urban regeneration and imaginative planning Post war reconstruction could be a striking success as in the pedestrian friendly Precinct and the bold new cathedral or a notable failure as in the ever more intrusive ring roads and grim high rise flats In offering a fresh perspective on the city this innovative volume of essays rediscovers Coventry as an inspiration for poets and painters such as Philip Larkin and Terry Frost musicians as varied as Benjamin Britten and The Specials and film makers such as Humphrey Jennings whose Heart of Britain was shot in the immediate aftermath of the Blitz Adrian Smith skilfully mixes memoir family history and meticulous scholarship to paint a complete and incisive portrait of Coventry Drawing on new research into topics as diverse as the place of Surrealism in West Midlands culture and the shadowy presence of rugby league in a union bastion Smith brings a unique insight into the recent history of his native city Attractively presented highly readable and with broad appeal The City of Coventry is a lively re examination of an iconic city of the twentieth century illuminating the profound changes that engulfed industrial England during and after the Second World War

Logan,2011 During a short career between 1939 and 1950 Humphrey Jennings produced a number of outstanding films documenting everyday life in Britain In this new book Philip Logan offers a thorough reassessment of Jennings s intellectual background and the factors that informed his life Through an understanding of the historical context within which Jennings s films were produced and directed Logan suggests we can begin to much better understand the propaganda messages that inform them and thus gain a fuller insight into the nature character and purpose of the films he produced for the British war effort

Musolff, 2004-08-04 Far from being rhetorical ornaments metaphors play a central role in public discourse as they shape the structure of political categorisation and argumentation Drawing on a very large bilingual corpus this book now in paperback analyses the distribution of metaphor scenarios in more than a decade of public discourse on European integration elucidating differences in UK and German attitudes and argumentation The corpus analysis leads to a refinement of cognitive metaphor theory by systematically relating conceptual semantic and argumentation levels and incorporating the historical dimension of metaphor evolution Finally drawing on examples of metaphor negotiation and on a reassessment of Hobbes concept of metaphor in Leviathan the book highlights the ethical dimension of metaphor in politics

Political Metaphor Analysis Andreas Musolff, 2016-08-25 Political metaphors and related figurative discourse tools are characterised by their variability and contentiousness Using them discourse participants try to gain competitive advantage over others by offering their audiences new meaning nuances challenging each other and announcing political initiatives It is here that metaphor as a means to change meanings and thus to change social and political reality comes into its own Political Metaphor Analysis provides an innovative approach to the study of figurative language use in political discourse by presenting empirical analyses based on a large corpus of political metaphors and metonymies linking these analyses to theoretical positions and assessing their limitations and perspectives for further exploration The classic model of conceptual metaphor analysis pioneered by Lakoff and Johnson 1980 and expanded and amended over the past thirty five years is critically examined with regard to new findings about the variation historicity pragmatic exploitation comprehension and interpretation of metaphors As a central new analytical category the notion of metaphor scenario is proposed and tested against various sub sets of data It allows to link hypothesised conceptual metaphors to narrative argumentative and evaluative patterns in actual discourse and understanding processes so that their cognitive significance can be more reliably gauged and theoretically modelled
