## Heart Of Creation:

**Christ the Heart of Creation** Rowan Williams, 2018-09-06 In this wide ranging book Rowan Williams argues that what we say about Jesus Christ is key to understanding what Christian belief says about creator and creation overall Through detailed discussion of texts from the earliest centuries to the present day we are shown some of the various and subtle ways in which Christians have discovered in their reflections on Christ the possibility of a deeply affirmative approach to creation and a set of radical insights in ethics and politics as well Throughout his life Rowan Williams has been deeply influenced by thinkers of the Eastern Christian tradition as well as Catholic and Anglican writers This book draws on insights from Eastern Christianity from the Western Middle Ages and from Reformed thinkers from Calvin to Bonhoeffer as well as considering theological insights sparked by philosophers like Kierkegaard and Wittgenstein Christ the Heart of Creation concerns fundamental issues for Christian belief and Williams tackles them head on he writes with pellucid clarity and shows his gift for putting across what are inevitably complex ideas to a wide audience

Errington,2019-12-26 Andrew Errington brings the book of Proverbs into discussion with two significant accounts of the  
nature and foundation of practical reason in Christian ethics those of Thomas Aquinas and Oliver O Donovan Aiming to move  
towards a framework for understanding Christian moral reasoning this book develops a significant critique of aspects of  
Aquinas s thought and provides a major engagement with O Donovan s moral theology Errington argues that the way the  
Book of Proverbs conceives of wisdom presents an important challenge to the Western theological and philosophical tradition  
Instead of a perfection of theoretical knowledge wisdom in Proverbs is a practical knowledge of how to act well grounded in  
the reality of the world God has made Discussing the complexities of practical reason moral reasoning in Aquinas world order  
and deliberation in the work of O Donovan and the place of created order in Christian Ethics this volume is invaluable for  
scholars and general readers in reconfiguring moral theology      Power Engineering ,1978
