Mother / Nature Catherine M. Roach,2003-01-30 This brief but ambitious book explores our relationship with nature through the imagery we use when we talk about Mother Nature Employing the critical tools of religious studies psychology and gender studies Catherine M Roach examines the various manifestations of nature as mother and what that idea implies for the way we approach the natural world Part One Nature as Good Mother discusses the notion that nature is or is like a beneficent and nurturing mother who provides and maintains life In studying the green slogan Love Your Mother Roach questions the effects for women and for the environment of imputing female gender to nature She asks us to look at the associations that motherhood and mothering carry within a culture still shaped by patriarchy She notes the danger of such an apparently pro environmental slogan if mother evokes the bountiful self sacrificing provider who herself requires no care Part Two Nature as Bad Mother looks at the contrary notion of nature as a violent threatening and wrathful mother This image arises most often when humans and technology are depicted as masters of unruly nature Here Roach draws on theological reflection to analyze this ambivalence toward nature manifested in a fantasy that casts humans as gods She explores the contributions of eco theology and eco psychology to a heart of darkness perspective Finally Part Three Nature as Hurt Mother looks at possibilities and pitfalls of environmental healing inherent in the image of nature as a mother we have wounded and now seek to heal

The Prophet and the Bodhisattva Charles R. Terrae Incognitae: Mapping the Unknown Carla Lois,2024-12-23 The blank spots on a map and the legends that speak of terrae incognitae are among the most seductive sirens of the cartographic imagination They hint at the existence of unknown lands yet tell us nothing about what they are or what they might be like Do such lands even exist How many types of terrae incognitae are there What does it mean and what has it meant to mark a land as unknown Why do so many maps of the last five centuries insist on reserving a place for unknown geographies This book navigates the cartographic unknown exploring its contribution to the history of knowledge and geographical culture

The New Cambridge Companion to Joseph Conrad J. H. Stape,2015 This volume offers both students and scholars a comprehensive overview of the most recent developments in Conrad studies

English Teaching Forum ,2004 **Conrad in Germany** Walter Göbel,Hans Ulrich Seeber,Martin Windisch,2007 A

comprehensive collection of 20th century research on Joseph Conrad this volume outlines the shift from a humanist and anthropological interest in Conrad as a metaphysical author to the appreciation of Conrad as a nihilist and skeptic of the modernist epoch Held Up Christopher Radmann,2012-07-19 How far do you go to rescue your child Paul van Niekirk a successful white South African is held up at gun point when driving his new BMW He is dragged out and his abductor drives off in his car It is an everyday car jacking Except his nine month old daughter is in the back seat As a pacifist Paul is reluctant to carry a gun but he descends into the heart of darkness of his country determined to find his child He uncovers a criminal gang involved in people trafficking and discovers in himself a capacity for violence When the trail goes cold he is on the verge of losing everything but finds redemption in the most unlikely circumstances Moving from the enclaves of Johannesburg's northern suburbs to the throbbing heart of Soweto's informal settlements Paul is forced to confront the changing political and social landscape of the new South Africa questioning his own values as his perfect life crumbles around him **Forum** ,2004 Joseph Conrad Today Kieron O'Hara,2016-06-16 This book argues that the novelist Joseph Conrad's work speaks directly to us in a way that none of his contemporaries can Conrad's scepticism pessimism emphasis on the importance and fragility of community and the difficulties of escaping our history are important tools for understanding the political world in which we live He is prepared to face a future where progress is not inevitable where actions have unintended consequences and where we cannot know the contexts in which we act Heart of Darkness uncovers the rotten core of the Eurocentric myth of imperialism as a way of bringing enlightenment to native peoples lessons which are relevant once more as the Iraq debacle has undermined the claims of liberal democracy to universal significance The result can hardly be called a political programme but Conrad's work is clearly suggestive of a sceptical conservatism of the sort described by the author in his 2005 book After Blair Conservatism Beyond Thatcher The difficult part of a Conradian philosophy is the profundity of his pessimism far greater than Oakeshott with whom Conrad does share some similarities though closer to a conservative politician like Salisbury Conrad's work poses the question of how far we as a society are prepared to face the consequences of our ignorance
