regularly

Eat a
healthy,
balanced
diet

Quit
smoking

Get the flu
vaccine

Make sure you
have an annual
review with your
GP

Health Promotion Of The Child With Long Term Illness

Anne F. Cronin

Health Promotion Of The Child With Long Term Illness:

Health Promotion of the Child with Long-term Illness Shirley Steele, 1983 **Nursing Care of Children and Young People with Long-Term Conditions** Mandy Brimble, Peter McNee, 2021-03-15

The second edition of *Nursing Care of Children and Young People with Long Term Conditions* remains the only nursing specific text on the care of paediatric patients with chronic illness. Written to meet the needs of nursing students and professionals alike, this comprehensive volume provides authoritative and up to date information on the context, theory and practice of delivering holistic care to children and families in a range of health and social care settings. Contributions from a team of experienced academics, educators and practitioners offer valuable insight into the impact of chronic illness on children and parents, the practical implications of meeting their physical, psychological and social needs, empowering them to be experts in their care, and many more vital aspects of long term paediatric care. This edition features new and revised content reflecting contemporary guidelines and evidence based practice, including updated clinical case studies and a new chapter examining the impact of having a sibling with a long term condition. Emphasising a multi disciplinary approach to managing chronic illness, this important resource provides numerous case studies and activities illustrating the application of theoretical principles and current evidence in nursing practice. Investigates the genetic basis of chronic illness and the differing onsets of long term conditions. Discusses current political, economic and social policies that are influencing healthcare for children and bringing challenges to managers and practitioners. Examines both classic and contemporary theories of grief, loss, coping and adaptation. Explores ethical, legal and professional aspects of nursing children and young people with chronic illness. Addresses evolving nursing roles, the importance of acute emergency care and the planning and delivery of effective transition from child to adult services. *Nursing Care of Children and Young People with Long Term Conditions* is required reading for student and registered children's nurses as well as for practitioners in related health and social care disciplines.

Health Promotion for Children and Adolescents Maya Rom Korin, 2016-08-11

This timely volume surveys the broad spectrum of interventions used in health promotion and shows how they may be tailored to the developmental needs of children and adolescents. Its multilevel lifespan approach reflects concepts of public health as inclusive, empowering and aimed at long and short term well being. Coverage grounds readers in theoretical and ecological perspectives while special sections spotlight key issues in social and behavioral wellness, dietary health and children and teens in the health care system. And in keeping with best practices in the field, the book emphasizes collaboration with stakeholders, especially with the young clients themselves. Among the topics covered: Child mental health, recent developments with respect to risk, resilience and interventions. Health related concerns among children and adolescents with ADD/ADHD. Preventing risky sexual behavior in adolescents. Violence affecting youth, pervasive and preventable. Childhood and adolescent obesity. Well being of children in the foster care system. *Health Promotion for Children and Adolescents* is a necessary text for graduate or advanced

undergraduate courses in public health education medicine psychology health education social work curriculum nutrition and public affairs It is also important reading for public health professionals researchers in child health health education and child psychology policymakers in education and public health and teachers

Nursing Care of Children and Young People with Chronic Illness Fay Valentine, Lesley Lowes, 2008-04-15 Children and young people suffering from long term conditions require continuing support and nursing care throughout their lives *Nursing Care of Children and Young People with Chronic Illness* explores chronic disease management in the context of recent developments including the National Service Framework for Children It addresses the aetiology of chronic illness and the impact on the child's family It also explores holistic approaches to caring for their social physical and psychological needs and highlights the importance of the nurse's role in promoting children and their parents as expert patients *Nursing Care of Children and Young People with Chronic Illness* is a comprehensive up to date resource for nursing students and practitioners on the context theory and practice of assessing health needs and the delivery of holistic care and services within a variety of care settings to enable them to meet the changing needs of children and young people with chronic illnesses and diseases and their families The first nursing specific text related to the care of children young people with chronic illness Incorporates case studies scenarios throughout to enable readers to gain an understanding of the application of concepts theories in practice Covers care aspects of the child and young person in different settings including tertiary secondary primary health care and the home Written in the context of the NSF for Children

Trends in Neonatal and Paediatric Nursing Mr. Rohit Manglik, 2024-05-16 Discusses recent advances and evolving practices in neonatal and paediatric nursing
