Knickman**

Health Insurance Bargaining Foreign Lessons For Americans:

Health Insurance Bargaining William A. Glaser,1978 **Financing Universal Access To Healthcare: A Comparative Review Of Landmark Legislative Health Reforms In The Oecd** Alexander S Preker,2018-03-20 The recent expansion of health insurance coverage in the USA under the Affordable Health Care Act and current threats to reverse the benefits of this reform have once again focused the world s attention on the difficult challenges faced by other countries trying to provide better access to healthcare to their population at an affordable cost This textbook provides a comparative review of financing universal access to healthcare in the Organisation for Economic Co operation and Development OECD countries The first two chapters of the book provide a framework for financing universal access to healthcare The remaining eight chapters present case studies of eight OECD countries that have successfully introduced reforms to finance universal access to healthcare for their population through landmark legislative reforms A concluding chapter focuses on the lessons learned from the OECD and recommendations from policymakers and others who are planning similar reforms The book is designed as a learning tool for students and as a user guide for policymakers Expanding Access to Health Care Terry F. Buss,Paul N. Van de Water,2014-12-18 The U S health care system faces well known problems 47 million people without health insurance rapidly rising costs that consume 16 percent of the country s economic output and widely uneven quality of care Even many people with coverage are experiencing serious problems paying for the rapidly rising costs of health care and insurance This book a joint product of the National Academy of Public Administration and the National Academy of Social Science undertakes a sweeping analysis of the management and administrative issues that arise in expanding health care coverage The book identifies the core administrative functions that need to be performed in assuring access to health coverage describes how these functions are performed at present and under proposed alternatives draws lessons from experience in the U S and abroad and assesses suggested administrative approaches designed to facilitate the improvement and expansion of health care coverage Adequate health care is one of today s most crucial domestic policy concerns Expanding Access to Health Care is designed to bring together in one place some of the best thinking on the subject not as an exercise in advocacy but rather to lay out the issues in a balanced way so that policymakers researchers and citizens can better understand the complex details of health care reform *Current Catalog* National Library of Medicine (U.S.),1979 First multi year cumulation covers six years 1965 70 Jonas and Kovner's Health Care Delivery in the United States Anthony R. Kovner, PhD,James Knickman,2005-06-22 How is health care understood and assessed in America What are the characteristics of those institutions which provide it Over the short term how are changes in health care provisions affecting the health of the population the cost of care and access to care This eighth edition discusses these and other core issues in the field **The Health Planning Predicament** Victor G. Rodwin,2023-11-15 Jonas and Kovner's Health Care Delivery in the United States Anthony R. Kovner,Steven Jonas,2002 Thoroughly presents today s health care system its administration

and its dissemination **Health and the Law** Tom Christoffel,1985-08 This outstanding text and reference provides health professionals students with a balanced comprehensive highly readable survey of the legal concepts and controversies affecting them today Avoiding unnecessarily technical language it lucidly explains basic legal principles and theories examines current issues and their implications and probes future legal trends Throughout each chapter offers a complete self contained introduction to a medicolegal topic including invaluable endnotes that cite references clarify perspectives and suggest further readings A unique appendix also explains how to use law library facilities to best advantage Comparative Health Policy and the New Right Christa Altenstetter, Stuart C. Haywood,1991-06-18 A compilation of essays which examine the response of the new Right to health policy issues While economic circumstances dictate the pressures placed on policy makers it is argued that there is a gap between the rhetoric they espouse and the actions initiatives taken **Health Care Systems And Their Patients** Marilyn M. Rosenthal,2019-03-07 This book provides an examination of the American health care system a benchmark for cost containment efforts exploring two worlds that of cost containment and that of the patient experience It emphasises on the quality of care as perceived by the individual patient FWS/OBS. ,1980 *Health Care Systems* Hans-Martin Sass,R.U. Massey,2013-04-17 *Instream Flow Negotiation* Mary Ray White,Felix D. Valdez,Michael D. White,1980 **Politics and Health Care Organization** Lawrence Brown,2010-12-01 Among various health cost containment strategies proposed during the 1970s none has held more sustained fascination than the health maintenance organization HMO For many years policy analysts in search of market and incentive based alternatives to command and control regulation have argued that medical groups combining prepayment and group practice and offering comprehensive medical services within a fixed budget would hold down costs both by their own efficient operations and by the competitive pressures they would apply to the conventional systems During the 1970s three presidents and five Congresses worked to formulate and implement legislation to increase the HMO presence nationwide with very modest results Some observers concluded that but for the well intended but counterproductive efforts of the federal government HMOs might thrive Indeed the Reagan administration has called for an end to direct federal financial involvement in building HMOs though it has also promised legislation to promote HMOs and a newly competitive health care system based on revamped financial incentives and reinvigorated markets In this book Lawrence D Brown a senior fellow in the Brookings Governmental Studies program examines the interplay between politics and policy in the federal HMO development effort between 1970 and 1980 He argues that the basic explanation for the disappointments of the policy analysts and federal supporters of HMOs lies not in a political miscarriage but in the overambitious promises of the policy strategy itself Tracing the poor fit between policy and politics revealed by federal efforts to translate the attractive HMO idea into a workable strategy Brown concludes that the episode augurs poorly for the competitive reforms frequently offered as a nonregulatory solution to rising health care costs in the 1980s Monthly Labor Review ,1978 Publishes in depth articles on labor subjects current labor statistics information

about current labor contracts and book reviews **Health planning reports subject index** United States. Health Resources Administration,1979 **Germany** Eric Solsten,1999-08 Reviews Germany s history and treats in a concise and objective manner its dominant social political economic and military aspects Sections written by experts include chronology of important events early history to 1945 history 1945 1990 the society and its environment social welfare health care and educ the domestic economy international economic relations government and politics foreign relations national security military tradition strategic concerns and military missions the armed forces defense budget and such military issues as uniforms ranks and insignia defense production and export foreign military relations and internal security National Health Systems of the World Milton I. Roemer,1993-01-14 This is the companion to the comprehensive review of national health systems presented in Volume I In that volume the author analyzed the resources organization financing management and delivery of health services in 68 countries at diverse levels of economic development and political ideology In Volume II the principal issues in health systems across countries are carefully examined These issues are categorized according to the several components by which national health systems may be analyzed In the general field of health resources Roemer discusses physicians and traditional healers nurses pharmacists auxiliary health personnel the background and distribution of hospitals and health centers and the production and consumption of drugs The sections of this important work elucidate the various issues surrounding the world s health systems The scope and functions of Ministries of Health and social security programs for health care in different types of health systems are reviewed The book recognizes the contributions of voluntary health agencies as well as the characteristics of major services in the private sector of national economies The serious implications of private profit in health systems and the benefits and difficulties of private public sector relationships are also examined This authoritative volume presents a global analyzation of economic and management support for national health systems including a discussion of world wide expenditures according to the source of financing and the purposes for which money is spent Special attention is also given to experiences in the delivery of health service including ambulatory and primary care and equivalent analyses are made of world wide delivery of hospital services regionalization and long term care Volume II concludes with a review of international health activities from the 19th century International Sanitary Conferences up to the present era of the World Health Organization This critical work probes the political factors involved in this evolution The last chapter summarizes major social trends in society along with major trends in the health system components resources programs economic support management and delivery of services **Health Politics** Ellen M. Immergut,1992-08-28 A comparative analysis of the politics of national health insurance in Sweden France and Switzerland showing how the Swedes have developed the most socialized health system in Western Europe the Swiss the most privatized and the French a conflict ridden compromise between the two Health Planning Reports: Subject index. 4 v United States. Health Resources Administration,1978
