Health Promotion Jackie Green, Keith Tones, 2010-02-15 Beginning with a critical appraisal of the concept itself the second edition of Health Promotion Planning and Strategies outlines models for defining health promotion and sets out the factors involved in planning health promotion programmes that work Locating the principles and strategies of health promotion within an emerging sphere of multidisciplinary health the authors show how these can be applied within a range of contexts and settings In an attempt to bridge the gap that persists between ideological perspectives and practical

implementations they delve beyond the rhetoric of empowerment and show how it can be incorporated into practice Focusing particularly on the synergistic relationship between policy and education the book re appraises the notion of health education an idea which has become marginalised in recent years and shows the fundamental importance of education in creating individual choice and generating effective advocacy for social change The question of evidence is central to the text and the book examines methods of evaluation and the role it plays in creating more effective health promotion programmes The new edition offers coverage of values and ethics working with communities the settings approach and social marketing It also provides students with a glossary of key terms Internationally relevant and multidisciplinary this is an essential text for students of health studies health promotion public health interprofessional social care courses and all healthcare professionals

Health Promotion Planning Lawrence W. Green, Marshall W. Kreuter, 1991 Rev ed of Health education planning Lawrence W Green 1st ed

Health Promotion Planning Lawrence W. Green, Marshall W. Kreuter, 1999 Presents the PRECEDE PROCEED model for planning a health promotion program in such contexts as population community school workplace and patient health care Among the considerations are social assessment and participatory planning behavioral and environmental assessment evaluation and the acc

Program Planning for Health Education and Health Promotion Mark B. Dignan, Patricia A. Carr, 1987 Abstract The six chapters of this text present the basic elements of community health education program planning and evaluation The first chapter outlines an overall model of the program planning process and subsequent chapters elaborate on components of the model Topics include defining the concept of community and conducting a community analysis determining community felt needs defining target behaviors and establishing program objectives development and implementation of a program plan and program evaluation

Planning, Implementing, and Evaluating Health Promotion Programs James F. McKenzie, Jan L. Smeltzer, 1997 This work provides background and application information needed to plan implement and evaluate health promotion programmes in a variety of settings Programmes in the areas of community health medical care and worksites are examined in detail and presentes in an accessible format

Health Promotion Keith Tones, Jackie Green, 2004-05-24 Written for all professionals who strive to improve the health of others

Planning Health Promotion Programs L. Kay Bartholomew Eldredge, Christine M. Markham, Robert A. C. Ruiter, Maria E. Fernández, Gerjo Kok, Guy S. Parcel, 2016-01-04 The Intervention Mapping bible updated with new theory trends and cases Planning Health Promotion Programs is the bible of the field guiding students and practitioners through the planning process from a highly practical perspective Using an original framework called Intervention Mapping this book presents a series of steps tasks and processes that help you develop effective health promotion and education programs using a variety of approaches As no single model can accurately predict all health behavior or environmental changes this book shows you how to choose useful theories and integrate constructs from multiple theories to describe health problems and develop appropriate promotion and education solutions This new fourth edition has

been streamlined for efficiency with information on the latest theories and trends in public health including competency based training and inter professional education New examples and case studies show you these concepts in action and the companion website provides lecture slides additional case studies and a test bank to bring this book directly into the classroom Health education and health promotion is a central function of many public health roles and new models theories and planning approaches are always emerging This book guides you through the planning process using the latest developments in the field and a practical approach that serves across discipline boundaries Merge multiple theories into a single health education solution Learn the methods and processes of intervention planning Gain a practical understanding of multiple planning approaches Get up to date on the latest theories trends and developments in the field Both academic and practice settings need a realistic planning handbook based on system not prescription Planning Health Promotion Programs is the essential guide to the process equipping you with the knowledge and skills to develop solutions without a one size fits all approach *Planning, Implementing, and Evaluating Health Promotion Programs* James F. McKenzie, Brad L. Neiger, Jan L. Smeltzer, 2005 Planning Implementing and Evaluating Health Promotion Programs A Primer provides health education students with the comprehensive background and application information needed to plan implement and evaluate health promotion programs in a variety of settings The Fourth Edition features updated information throughout including expanded discussions of topics such as measures measurement data collection and data sampling intervention theories and evaluation techniques It has been thoroughly reviewed by both practitioners and professors to reflect the latest trends in the field

Planning, Implementing and Evaluating Health Promotion Programs with Navigate Advantage Access James F. McKenzie, Brad L Neiger, Rosemary Thackeray, 2022-07-18 This book is written for students who are enrolled in their first professional course in health promotion program planning It is designed to help them understand and develop the skills necessary to carry out program planning regardless of the setting This book is unique among the health promotion planning textbooks on the market in that it provides readers with both theoretical and practical information **A Guide for Community Health Promotion Planning** Ontario. Ministry of Health and Long-Term Care, Ontario. Healthy Lifestyles Promotion Program, 1991 **Health Promotion Planning** Jean Marie S. Place, Jonel Thaller, Scott S. Hall, 2024-04-08 I find this book to be an invaluable resource offering a comprehensive guide for assessing and addressing public health issues Its unique blend of theoretical insights and real world narratives provides a nuanced understanding of interventions in practical contexts This book is an essential tool for both current and aspiring professionals in the public health sector DANE MINNICK Indiana Division of Mental Health and Addiction Real stories real solutions a unique textbook that embeds definitions and descriptions of program planning principles within the story of one town grappling with the opioid crisis In Health Promotion Planning Learning from the Accounts of Public Health Practitioners you will embark on a journey through the heart of a small midwestern city where a community grapples with the daunting challenges of the opioid epidemic The book uses narratives

in a creative and engaging way weaving together the real life accounts of over 100 public health practitioners As you follow the saga of the town you will see program planning principles in action Through the intricacies of substance use and opioid related challenges this book sheds light on the interconnected efforts of diverse programs including needs assessment health education curriculum health communication campaigns environmental change strategies peer support initiatives and community organizing Students and practitioners will uncover the principles and processes of building health promotion programs Discussion questions and activities at the end of each chapter stimulate reflection and exploration offering a valuable resource for instructors and individual learners Health Promotion Planning is a powerful glimpse into public health practice inspiring future generations to take up the mantle in addressing societal challenges Learners will witness health promotion in action as they follow the compelling stories inside where lessons are learned lives are changed and hope emerges from the frontlines of a devastating epidemic

Health Program Planning: An Educational and Ecological Approach Lawrence Green, Marshall Kreuter, 2005 This classic text by the creators of the PRECEDE PROCEED model provides a comprehensive overview of the principles and processes of health promotion planning It is an invaluable up to date resource for students and practitioners in any discipline whose programs will include a significant health education or health promotion component Each chapter includes references and extensive endnotes from the most current literature and is backed by the authors reputations as leading researchers and practitioners in the field

Assessment and Planning in Health Programs Bonni C. Hodges, Donna M. Videto, 2010-08-25 Assessment and Planning in Health Programs Second Edition enables students and practitioners to successfully plan implement and evaluate programs and interventions that will assist individuals and groups in maintaining and improving their health Written in an accessible manner this comprehensive text provides an overview of needs assessment program planning and program evaluation and explains several goals and strategies for each It addresses the importance and use of theories data collection strategies and key terminology in the field of health education and health promotion Important Notice the digital edition of this book is missing some of the images or content found in the physical edition

Planning Health Promotion Programs L. Kay Bartholomew, Guy S. Parcel, Gerjo Kok, Nell H. Gottlieb, 2006-03-03 This guide to the planning of health promotion programs uses the increasingly popular Intervention Mapping approach a theory and evidence based interactive process that links needs assessment with program planning in a way that adds efficiency and improves outcomes Students researchers faculty and professionals will appreciate the authors approach to applying theories of behavior and social change to the design of coherent practical health education interventions Written by internationally recognized authorities in Intervention Mapping the book explains foundations in Intervention Mapping provides an overview of the role of behavioral science theory in program planning including a review of theories and how to assess theories and evidence and a step by step guide to Intervention Mapping along with detailed case examples of its application to public health programs Planning Health Promotion Programs is the second and substantially

revised edition of the bestselling resource **Intervention Mapping** L. Michele Issel, 2013-02-04 In this revision of **Health Program Planning and Evaluation** author L Michele Issel carefully walks the reader through the process for developing implementing and evaluating successful community health promotion programs Featuring reader friendly accessible language and practical tools and concepts this outstanding resource prepares students and professionals to become savvy consumers of evaluation reports and prudent users of evaluation consultants The Third Edition reflects the major changes in the field of community health with updated examples and references throughout New to this Edition New examples and references throughout the book New key references to reflect the major changes within the field New examples and issues related to global health planning and evaluation New material about information systems and web based technology as it applies throughout the planning and evaluation cycle New basic review of the ACA Enhanced information related to financing programs and monitoring the program costs Updated instructor s manual *Planning in Health Promotion Work* Roar Amdam, 2010-10-04 Drawing on theoretical and empirical evidence from local regional and international planning and public health Amdam develops a new model for health promotion empowerment planning This combines top down and bottom up approaches to enable people to take more responsibility for their own health and for individual and collective capacity building **Green & Tones' Health Promotion** Ruth Cross, James Woodall, 2024-01-25 What to expect from the new edition Full discussion on the impacts from Covid 19 on health strategy Increased emphasis on upstream interventions rather than patient centred individualised downstream approaches Increased internationalisation more comparative examples and international perspectives prioritising northern Europe Scandinavia and the US Health promotion is being taught to an increasingly diverse range of students either because of background future career plans or the increasing international student numbers This book provides international examples applicable to a range of health professions to meet the needs of diverse cohorts The international case studies provided online also mean that international students in the UK have access to cases that can be more relevant to their own countries It can be a challenge understanding the softer side of health science particularly understanding how to think outside an individual responsibility for Health promotion public health The focus of this book is setting out the process of planning implementing and evaluating successful health programmes meaning that you are introduced to the softer side in an applied way making it easier for you to see the importance of what you are studying **Health Promotion Programs** Carl I. Fertman, Melissa L. Grim, Society for Public Health Education (SOPHE), 2022-03-22 An incisive up to date and comprehensive treatment of effective health promotion programs In the newly revised Third Edition of **Health Promotion Programs From Theory to Practice** health and behavior experts Drs Carl I Fertman and Melissa Grim deliver a robust exploration of the history and rapid evolution of health promotion programs over the last three decades The authors describe knowledge advances in health and behavior that have impacted the planning support and implementation of health promotion programs With thoroughly updated content statistics

data figures and tables the book discusses new resources programs and initiatives begun since the publication of the Second Edition in 2016 Key Terms and For Practice and Discussion Questions have been revised and the authors promote the use of health theory by providing the reader with suggestions models boxes and templates A renewed focus on health equity and social justice permeates much of the book and two significant health promotion and education events the HESPA II study and Healthy People 2030 are discussed at length Readers will also find A thorough introduction to health promotion programs including the historical context of health promotion settings and stakeholders for health promotion programs advisory boards and technology disruption and opportunities for health promotion Comprehensive explorations of health equity and social justice including discussions of vulnerable and underserved population groups racial and ethnic disparities in health and minority group engagement Practical discussions of theory in health promotion programs including foundational theories and health promotion program planning models In depth examinations of health promotion program planning including needs assessments and program support Perfect for undergraduate and graduate students studying public health health administration nursing and medical research Health Promotion Programs From Theory to Practice is also ideal for medical students seeking a one stop resource on foundational concepts and cutting edge developments in health promotion programs
