Diet Rehab

Mike Dow,Antonia Blyth,2011-12-27 The co host of TLC s hit series Freaky Eaters reveals the ultimate diet plan to kick the junk food habit in just four weeks without the pain of withdrawal In March 2010 The Scripps Research Institute released a study showing how rats on a junk food diet had just as difficult a time if not more so giving up excess fat and sugar as the rats who were struggling to recover from cocaine dependence The results showed that certain foods actually alter the brain s chemistry making our consumption of these foods less like an indulgence and more like an addiction Our brains require two key neurotransmitters to maintain proper mood and function serotonin and dopamine We get a rush of the two when we eat junk food but the converse is also true If we stop eating them cold turkey we go through serotonin and dopamine withdrawal This is what causes so many dieters to ultimately fail In order to successfully lose weight explains Dr Mike Dow dieters should be sensitive both to their emotional and physical needs Dr Dow a psychologist who specializes in addictive behavior and eating disorders introduces a four week program for breaking the hold that food has over the body mind and spirit by gradually decreasing the amount of bad foods while increasing activities and foods that boost serotonin and dopamine levels Sensible and uniquely effective Diet Rehab eliminates the withdrawal pains of most diet plans and provides the structure for a sustainable healthy and happy lifestyle
