Heart Of Buddhism In Search Of The Timeless Spirit Of Primitive Buddhism:

The Heart of Buddhism Yoshinori Takeuchi,1983 **The Cosmic Breath** Amos Yong,2012-05-10 Recent thinking in the interfaith dialogue and in the theology science dialogue have taken a pneumatological turn The Cosmic Breath explores this pneumatological theology as unfolded in the Christian Buddhist dialogue alongside critical interaction with the theology and science conversation As an attempt in comparative and constructive Christian philosophical theology its central thesis is that a pneumatological approach to Buddhist traditions in further dialogue with modern science generates new philosophical resources that invigorate Christian thinking about the natural world and humanity s place in it The result is a transformation of the Buddhist Christian dialogue from insights generated in the theology and science interface and a contribution to the religion and science dialogue from a comparative theological and philosophical perspective **Foundations of T'ien-T'ai Philosophy** Paul Loren Swanson,1989 A chronological account of the development of the Two Truth theory which forms the foundation of T ien T ai philosophy the teaching of the Threefold Truth and includes an annotated translation of Chih i s Fa hua hsuan i a must for all major libraries Choice a must for all Buddhist collections Religious Studies Review **The Oxford Handbook of Japanese Philosophy** Bret W. Davis,2020 This handbook is currently in development with individual articles publishing online in advance of print publication At this time we cannot add information about unpublished articles in this handbook however the table of contents will continue to grow as additional articles pass through the review process and are added to the site Please note that the online publication date for this handbook is the date that the first article in the title was published online **Interpreting Amida** Galen Amstutz,1997-04-25 Examines the history of Japanese Pure Land Buddhism and how orientalist assumptions have caused the West to ignore this important tradition **Buddhist Spirituality** Takeuchi Yoshinori,2003-01-01 Of all the great religions it is Buddhism that has focused most intensively on that aspects of religion that we call spirituality No religion has ste a higher value on states of spiritual insight and liberation and none has set forth so methodologically and with such a wealth of reflection the various paths and with such a wealth of reflection the various paths and disciplines by which such states are reached The aim of the volumes on Buddhism is to survey the entire tradition both chronologically and geographically in the varieties of its historical forms and in the great diversity of its teachings

The Theory and Practice of Zen Buddhism Charles S. Prebish,On-cho Ng,2022-02-15 This book brings together an impressive group of scholars to critically engage with a wide ranging and broad perspective on the historical and contemporary phenomenon of Zen The structure of the work is organized to reflect the root and branches of Zen with the root referring to important episodes in Chan Zen history within the Asian context and the branches referring to more recent development in the West In collating what has transpired in the last several decades of Chan Zen scholarship the collection recognizes and honors the scholarly accomplishments and influences of Steven Heine arguably the most important Zen scholar in the past three decades As it looks back at the intellectual horizons that this towering figure in Zen Chan studies

has pioneered and developed it seeks to build on the grounds that were broken and subsequently established by Heine thereby engendering new works within this enormously important religio cultural scholarly tradition This curated Festschrift is a tribute both retrospective and prospective acknowledging the foundational work that Heine has forged and generates research that is both complementary and highly original This academic ritual of assembling a liber amicorum is based on the presumption that sterling scholarship should be honored by conscientious scholarship In the festive spirit of a Festschrift this anthology consists of the resounding voices of Heine and his colleagues It is an indispensable collection for students and scholars interested in Japanese religion and Chinese culture and for those researching Zen Buddhist history and philosophy

The Foundational Standpoint of Mādhyamika Philosophy Gadjin M. Nagao, 1989-03-07 The Madhyamika philosophy of Nagarjuna articulates the basic Mahayana insights in two themes the identity of emptiness dependent co arising and the two truths In The Foundational Standpoint of Madhyamika Philosophy Gadjin M Nagao one of the foremost Buddhist scholars in the world presents an in depth interpretation of this foundational philosophy of Mahayana Buddhism In this book the author has culled data from Sanskrit Tibetan Chinese Japanese and Western sources a rare feat which only a few scholars are capable of accomplishing The translation is faithful readable and masterful *Nothingness and Emptiness* Steven W. Laycock, 2012-02-01 This sustained and distinctively Buddhist challenge to the ontology of Jean Paul Sartre s Being and Nothingness resolves the incoherence implicit in the Sartrean conception of nothingness by opening to a Buddhist vision of emptiness Rooted in the insights of Madhyamika dialectic and an articulated meditative zen phenomenology Nothingness and Emptiness uncovers and examines the assumptions that sustain Sartre s early phenomenological ontology and questions his theoretical elaboration of consciousness as nothingness Laycock demonstrates that in addition to a relative nothingness the for itself defined against the positivity and plenitude of the in itself Sartre s ontology requires but also repudiates a conception of absolute nothingness the Buddhist emptiness and is thus as it stands logically unstable perhaps incoherent The author is not simply critical he reveals the junctures at which Sartrean ontology appeals for a Buddhist conception of emptiness and offers the needed supplement *Pneumatology and the Christian-Buddhist Dialogue* Amos Yong, 2012-07-26 This project at the interface of Buddhist Christian studies comparative theology and Christian systematic theology proceeds by way of exploring questions related to the presence and activity of the Holy Spirit in a 21st century world of many faiths

Zen Buddhism: Japan Heinrich Dumoulin, 2005-08-16 In this second volume of his classic history one of the world s foremost Zen scholars turns his attention to the development of Zen in Japan **Philosophy as Metanoetics** Hajime Tanabe, 1986 Tanabe s agenda was not religious but philosophical in that he tried to integrate Eastern and Western insights in order to acquire a cross cultural philosophical vision for the post war world community This book shows his superior philosophical originality It is high time that Tanabe s thought should be introduced to the West Joseph Kitagawa University of Chicago *Beyond the Dynamical Universe* Michael Silberstein, William Mark Stuckey, Timothy McDevitt, 2018 A novel

approach to the unresolved issues of theoretical physics and the philosophy foundations of physics **Buddhist Spirituality (Vol. 1) Indian, Southeast Asian, Tibetan, Early Chinese** Takeuchi Yoshinori, 1994-12-31 The present volume is part of a series entitled World Spirituality An Encyclopedic History of the Religious Quest which seeks to present the spiritual wisdom of the human race in its historical unfolding The volume presents the richness of the spiritual heritage of the human race and designed to reflect the autonomy of the traditional in its historical development *Routledge Encyclopedia of Philosophy* Edward Craig, 1998 Volume five of a ten volume set which provides full and detailed coverage of all aspects of philosophy including information on how philosophy is practiced in different countries who the most influential philosophers were and what the basic concepts are *Christianity Looks East* Peter Feldmeier, 2006 This fascinating book takes a fresh look at interreligious dialogue with St John of the Cross and Bhadantacariya Buddhaghosa as representatives of Christian and Buddhist paths to liberation As the world is increasingly experienced as a global village dialogue with other religious traditions is widely regarded as possibly the greatest modern or post modern challenge and the distinctive journey of our time Dialogue not only informs our understanding of various expressions of holiness it also can inform one's own religious faith and practice This book investigates a form of dialogue that can be a model for future dialogues Without laying assumptions on the nature of religious experience it allows these classic texts and their representative religions to speak for themselves What is often lacking in this history of dialogue is its lack of appreciation for distinctive religious paths and the experiences described therein *Zen Buddhism: India and China* Heinrich Dumoulin, 2005-08-16 Unparalleled in scope and detail this classic history of Zen covers all important ideas and developments in the tradition from its beginnings in India through the Sung period in China *Philosophers of Nothingness* James W. Heisig, 2001-05-01 The past twenty years have seen the publication of numerous translations and commentaries on the principal philosophers of the Kyoto School but so far no general overview and evaluation of their thought has been available either in Japanese or in Western languages James Heisig a longstanding participant in these efforts has filled that gap with *Philosophers of Nothingness* In this extensive study the ideas of Nishida Kitaro Tanabe Hajime and Nishitani Keiji are presented both as a consistent school of thought in its own right and as a challenge to the Western philosophical tradition to open itself to the original contribution of Japan **Watsuji Tetsurô's Global Ethics of Emptiness** Anton Luis Sevilla, 2017-08-31 This book is a rethinking of ethics and socio political life through the ideas of Watsuji Tetsur Can we build a systematic philosophy of morality society and politics not on the basis of identity and ego but rather on the basis of selflessness This book explores such an attempt by the leading ethicist of modern Japan Using concrete examples and contemporary comparisons and with careful reference to both English and Japanese sources it guides the reader through Watsuji's ideas It engages three contemporary issues in depth First how do we approach the moral agent as an autonomous being or as a fundamentally relational being Second is it the individual or the community that is the starting point for politics And finally is ethics something that is globally shared or something

fundamentally local This book aims to be an informative and inspiring resource for researchers students and laypersons interested in Buddhist thought Bibliography on East Asian Religion and Philosophy ,2001 This comprehensive research bibliography compiles annotates indexes and cross references resources in the principal Western languages which focus on China Japan and Korea in the areas of philosophy and religious studies supporting resources in theology history culture and related social sciences A notable additional feature is the inclusion of extensive Internet based resources such as a wide variety of web sites discussion lists electronic texts virtual libraries online journals and related material
