Heart Of Darkness Search For The Unconscious:

Conrad's Heart of Darkness John P. Anderson, 2005 This is a reader's guide to Conrad's novel *Heart of Darkness* as art not as a page turner but as art. As he has done with other works of Conrad, Anderson traces Conrad's art in a line-by-line analysis of most of this short novel. Anderson traces the unifying theme of the novel to Nietzsche's ideas in *The Birth of Tragedy*. Nietzsche interpreted ancient Greek tragedy as a reflection of Dionysian and Apollinian life experiences of the Greek audience. Apollo was a Greek god of the higher orders of civilization and the civilized restraint and control that is necessary for getting along with others. Dionysus, on the other hand, was a god of nature and fertility and is associated with unrestrained orgiastic worship. This author shows how Conrad used the contrast between the Apollinian and Dionysian to structure the form and content of the novel, how the contrast holds together the important artistic decisions made by Conrad, how Conrad midwived the rebirth of ancient Greek tragedy as the Congo tragedy, the rape of the Congo by Europeans in the late 19th century, and how this could have happened, how the psyche of the Europeans unraveled in the Congo jungle. In Conrad's rendition, the unrestrained competitive and hostile Dionysian life forces at the heart of nature not only power the teeming jungle but also lurk in the inherited instincts of mankind. The European search for ivory in the Congo brought these primitive instincts to the surface out of their holes like serpents with venom of a mixture of desire and hate. The high ground of the novel is an irony: in the Congo, clothes do not make the man. The European exploiters dressed in the very proper tropical whites are savage in behavior, while naked man-eaters are restrained in behavior. As with Nietzsche before him, Conrad's approach anticipated central doctrines of Freud and Jung. Conrad's use of Nietzschean elements gives many modern readers a sense of dread or uneasiness, suggesting that the Nietzschean elements jostle important structures in our unconscious.

Joseph Conrad's Heart of Darkness Harold Bloom, Sterling Professor of Humanities, Harold Bloom, 2014-05-14

Discusses the writing of *Heart of Darkness* by Joseph Conrad. Includes critical essays on the work and a brief biography of the author.

Heart of Darkness Gary Adelman, 1987 Adelman uncovers political, metaphysical, and prophetic insights in the text and clarifies the novel's symbols, themes, and unconscious workings of the hero.

Worlds Within Vilashini Cooppan, 2009-10-08 From Conrad to Rushdie, from Du Bois to Ngugi, *Worlds Within* explores the changing form of novels, nations, and national identities by attending to the ways in which political circumstances meet narratives of the psyche.

Undaunted by Blindness, 2nd Edition Clifford E. Olstrom, 2012-07-10 The purpose of this book is to provide concise biographical information about 400 notable blind persons. The people in this volume are but a small sample of many thousands of notable blind persons in history. Most of the information about their lives comes from secondary sources. Where feasible, some of the subject's own words were used.

Chance 1913 is as enigmatic as the tales he recounts Psychoanalytic Patterns in the Work of Graham Greene Roland A. Pierloot, 2023-12-14 In Greene's writings we notice a genuine concern with social and political conflicts at different places in the world. But at the same time they bear witness to a distinct involvement in problems of human nature and behaviour. In this respect we can formulate some dominating preoccupations such as the stressing of antitheses and antagonisms which he calls himself cleavage: the questioning of loyalty and the claiming of the right to disloyalty; the repercussion of childhood experiences; in particular the father-son relationship on adult life and the transcendental dimension in human experience. From a psychoanalytic viewpoint we analyse the various elaborations of these general themes in the work of Greene as symbolizations of specific unconscious phantasies defined in the writings of Freud, Klein, Fairbairn, Kernberg, Kohut and Winnicott. This analysis of the imaginary world of an author is conceived as analogous to a clinical psychoanalysis. It is a hermeneutical activity based on the countertransference experience evoked by the reading of the text while taking into account the manifold strategies of symbolizing in a literary work: the choice of the genre, themes, text construction, tropes, word plays, figurative language, repetition, discontinuity, parallelism, plot and characters *Fiction & the Colonial Experience* Jeffrey Meyers, 2022-02-14 British colonialism provided a rich vein of material for the novelists of the first half of the 20th century. This study, originally published in 1968, looks at five writers and their reaction to the Empire: Rudyard Kipling, E. M. Forster, Joseph Conrad, Joyce Cary and Graham Greene. It shows how the romantic adventure stories of Kipling's early days, in which the indigenous population plays almost no part, gave rise to the much more important novels of spiritual and moral conflict in which the stereotyped values of Empire are questioned. The decline of colonialism from its apogee in the 1880s within a relatively short period makes the novels discussed a compact group so that not only is the use of colonial material closely studied but its impact on the novelists themselves emerges clearly. This is an important study of a major literary theme linking modern literature and modern history at a vital point The Waste Land Nancy K.
