The New Thought Companion, 1914 20+ New Thought. Classic collection Napoleon Hill, Wallace D. Wattles, Charles F. Haanel, Ralph Waldo Trine, Florence Scovel Shinn, James Allen, William Walker Atkinson, Theron Q. Dumont, Neville Goddard, Ernest Shurtleff Holmes, William Clement Stone, Prentice Mulford, Catherine Ponder, Robert Collier, 2024-10-15 The New Thought movement, also known as Higher Thought, is a spiritual movement that coalesced in the United States in the early 19th century. New Thought was seen by its adherents as succeeding ancient thought, accumulated wisdom, and philosophy from a variety of origins such as Ancient Greek, Roman, Egyptian, Chinese, Taoist, Vedic, Hindu, and Buddhist cultures, and their related belief systems, primarily regarding the interaction between thought, belief, consciousness, and the human mind, and the effects of these within and beyond the human mind. Though no direct line of transmission is traceable, many adherents to New Thought in the 19th and 20th centuries claimed to be direct descendants from those systems.

homely of his style that it is at times familiar at times declamatory but always happy and often eloquent of his doctrine that neither the Calvinist nor the Baptist appears in the forefront of the battle which is waged by Mr Spurgeon with relentless animosity and with Gospel weapons against irreligion cant hypocrisy pride and those secret bosom sins which so easily beset a man in daily life and to sum up all in a word it is enough to say of the man himself that he impresses you with a perfect conviction of his sincerity More than a hundred years after his death Charles Spurgeon s legacy continues to effectively inspire the church around the world For this reason Delmarva Publications has chosen to republish the complete works of Charles Spurgeon The Occult World Christopher Partridge,2014-12-05 This volume presents students and scholars with a comprehensive overview of the fascinating world of the occult It explores the history of Western occultism from ancient and medieval sources via the Renaissance right up to the nineteenth and twentieth centuries and contemporary occultism Written by a distinguished team of contributors the essays consider key figures beliefs and practices as well as popular culture
