The Heart of the World Ian Baker, 2006-05-02 The myth of Shangri la originates in Tibetan Buddhist beliefs in beyul or hidden lands sacred sanctuaries that reveal themselves to devout pilgrims and in times of crisis The more remote and inaccessible the beyul the vaster its reputed qualities Ancient Tibetan prophecies declare that the greatest of all hidden lands lies at the heart of the forbidding Tsangpo Gorge deep in the Himalayas and veiled by a colossal waterfall Nineteenth century accounts of this fabled waterfall inspired a series of ill fated European expeditions that ended prematurely in 1925 when the intrepid British plant collector Frank Kingdon Ward penetrated all but a five mile section of the Tsangpo s innermost gorge and declared that the falls were no more than a religious myth and a romance of geography The heart of the Tsangpo Gorge remained a blank spot on the map of world exploration until world class climber and Buddhist scholar Ian Baker delved into the legends Whatever cryptic Tibetan scrolls or past explorers had said about the Tsangpo s innermost gorge Baker determined could be verified only by exploring the uncharted five mile gap After several years of encountering sheer cliffs maelstroms of impassable white water and dense leech infested jungles on the last of a series of extraordinary expeditions Baker and his National Geographic sponsored team reached the depths of the Tsangpo Gorge They made news worldwide by finding there a 108 foot high waterfall the legendary grail of Western explorers and Tibetan seekers alike The Heart of the World is one of the most captivating stories of exploration and discovery in recent memory an extraordinary journey to one of the wildest and most inaccessible places on earth and a pilgrimage to the heart of the Tibetan Buddhist faith

With the World at Heart Thomas A. Carlson,2019-05-01 What is the role of love in opening and

sustaining the temporal worlds we inhabit One of the leading scholars in philosophy and the history of religious thought Thomas A Carlson here traces this question through Christian theology twentieth century phenomenological and deconstructive philosophy and nineteenth century individualism Revising Augustine s insight that when we love a place we dwell there in the heart Carlson also pointedly resists lines of thought that seek to transcend loss and its grief by loving all things within the realm of the eternal Through masterful readings of Heidegger Derrida Marion Nancy Emerson and Nietzsche Carlson shows that the fragility and sorrow of mortal existence in its transience do not in fact contradict love but instead empower love to create a world
