**Living With Grief** Kenneth J. Doka,2014-01-14 First published in 1996 This book was

produced as a companion to the Hospice Foundation of America's third annual teleconference. The Foundation, begun in 1982, is a nonprofit organization dedicated to providing leadership in the development of hospice and its philosophy of care for terminally ill people. The Foundation conducts educational programs related to hospice, sponsors research on ethical questions as well as the economics of health care at the end of life, and serves as a philanthropic presence within the national hospice community. Close to 90 percent of hospices in the United States reach beyond their own patients and families to become in a variety of ways a community resource on grief and bereavement. That is part of the hospice mission and an important service which the Hospice Foundation of America encourages and tries to support. Our annual teleconference is a major part of our effort and it, like all of our projects, is largely underwritten by contributions from individuals. The Hospice Foundation of America is a member of the Combined Federal Campaign through Health Charities of America. **An Ethics for an Ecological Age** Brian Fay, 2024-10-12. This book presents a comprehensive vision of human life, ecology, and theology inspired by Spinoza. According to this vision, human beings and all other natural entities are not independent substances but are rather modes of nature, meaning that they are fleeting manifestations of nature's conatus. By intuitively and not just intellectually recognizing ourselves to be modes of nature, we can more fully realize ourselves. To achieve this requires a radical rethinking of our world, of ourselves, and of God, and a far richer understanding of ecology and an ethics grounded in ecology than those in current usage. Brian Fay explores this rethinking, and the result is a new, far-reaching vision of our world and how to be responsible, thriving agents in it.
