- 4  **Microbial Life** *How are traits passed from parents to offspring?*

Why do people look different?

People have different skin colors, different kinds of hair, and different heights. Knowing how these differences are determined will help you predict when certain traits might appear. This will help you understand what causes hereditary disorders and how these are passed from generations to generations.

Science Focus Write down traits that you have and how you would determine how those traits were passed to you.
