Christopher Westland, Theodore H. K. Clark, 1999 Provides an understanding of the technologies of electronic commerce The text does not concentrate solely on the Internet but suggests that the Internet is only a bridge technology Each chapter contains an overview of a theory or practice followed by one or more business case studies *Electronic Commerce in Small to Medium-sized Enterprises* Nabeel A. Y. Al-Qirim, 2004-01-01 This work addresses eCommerce issues in small to medium sized enterprises SMEs in a global setting It covers issues that are of importance to researchers students and professionals interested in the eCommerce field in SMEs *E-commerce Management* Sandeep Krishnamurthy, 2003 E Commerce Management is designed to help the managers of today and tomorrow better direct the E Commerce process by integrating business models marketing and Internet technology The integration of text and cases helps make this a perfect choice for instructors seeking one primary text for use in both graduate and undergraduate level E Commerce and E Marketing courses Each case study provides readers with an in depth analysis of well known companies that have developed into e successes or e failures *E-Business Issues, Challenges and Opportunities for SMEs: Driving Competitiveness* Cruz-Cunha, Maria Manuela, Varajão, João, 2010-09-30 Electronic business plays a central role in the economy facilitating the exchange of information goods services and payments It propels productivity and competitiveness and is accessible to all enterprises and as such represents an opportunity also for SME competitiveness E Business Issues Challenges and Opportunities for SMEs Driving Competitiveness discusses the main issues challenges opportunities and solutions related to electronic business adoption with a special focus on SMEs Addressing technological organizational and legal perspectives in a very comprehensive way this text aims to disseminate current developments case studies new integrated approaches and practical solutions and applications for SMEs Global e-commerce Kenneth L. Kraemer, Jason Dedrick, Nigel P.

Melville, Kevin Zhu, 2006-08-17 Are the Internet and e commerce truly revolutionizing business practice This book explodes the transformation myth by demonstrating that the Internet and e commerce are in fact being adapted by firms to reinforce their existing relationships with customers suppliers and business partners Detailed case studies of eight countries show that rather than creating a borderless global economy e commerce strongly reflects existing local patterns of commerce business and consumer preference and its impact therefore varies greatly by country Paradoxically while e commerce is increasing the efficiency effectiveness and competitiveness of firms it is also increasing the complexity of their environments as they have to deal with more business partners and also face greater competition from other firms This incisive analysis of the diffusion and impact of e business provides academic researchers graduates and MBA students with a solid basis for understanding its likely evolution

**Managing (e)Business Transformation** Ali Farhoomand, M. Lynne Markus, Guy Gable, Shamza Khan, 2021-01-21 Managing e Business Transformation comprises text and cases designed to show students how a business can be transformed into an internetworked enterprise where IT infrastructures are used to link customers suppliers partners and employees to create superior economic value The book is written based on the premise that integrating internet technologies throughout the value chain is crucial to building and managing customer relationships Importantly it underscores the centrality of basic business and economic principles within the context of a networked environment The book builds on established business and economic theories concepts and fundamentals to show that e business will soon be synonymous with business The book takes a strong managerial perspective especially popular with MBA students to argue that the internet is simply an enabling technology which allows firms to build the infrastructure needed to operate in an evolving business world The application of theory concepts is emphasized throughout and contains a range of international case studies enhance the learning experience This book is a must for all students studying e business strategy at undergraduate MBA and postgraduate level Also available is a companion website with extra features to accompany the text please take a look by clicking below <http://www.palgrave.com/business/farhoomand/index.asp>

**Digital Trade and Data Privacy** Roman Pascal Kalin, 2024-11-26 This monograph provides a comprehensive examination of the intricate legal challenges arising at the intersection of digital trade and data privacy It argues in favour of an integrated approach to understanding the dynamic interaction between digital trade and data privacy with the aim of building a bridge between these two fields of law Cross border data flows are paramount for the operational efficiency and productivity of companies across diverse industries The ongoing economic transformation characterized by the perception of data as both a commodity and currency exacerbates the tension between the push for economic liberalization of cross border transfers of personal data under a trade rationale and the limitations imposed on such transfers for non economic reasons Given that the regulation of cross border personal data transfers is profoundly influenced by both international trade law and national data privacy laws a complex relationship has developed between the normative values that underpin these legal frameworks This publication centers on the resulting interdependence of digital trade and data privacy in a global digital economy It provides a contribution to the debate on a re contextualisation of trade law against the background of the advent of digital trade
