Glenn Clark Miles Morton Clark, Glenn Clark, 1975-01-01      **Glenn Clark** Miles Clark, 1962      A Man's Reach: The Autobiography of Glenn Clark Glenn Clark, 2008-06-01 This scarce antiquarian book is a facsimile reprint of the original. Due to its age it may contain imperfections such as marks, notations, marginalia and flawed pages. Because we believe this work is culturally important, we have made it available as part of our commitment for protecting, preserving and promoting the world's literature in affordable, high quality modern editions that are true to the original work      **A Man's Reach** Glenn Clark, 2013-09 2013 Reprint of 1949 Edition. Full facsimile of the original edition, not reproduced with Optical Recognition Software. Clark was a man who without being himself a recognized New Thought leader, has been highly influential in introducing New Thought ideas and techniques into the churches. Clark was deeply religious and something of a mystic, a great believer in prayer. He first came into prominence through an article in the Atlantic Monthly titled "The Soul's Sincere Desire." He began to be much in demand as a speaker in the churches and in summer camps. In 1930 he organized a summer camp of his own in Koronis, Minnesota, to which he gave the name Camp Farthest Out Here for a period amidst pleasant surroundings a group of congenial and serious-minded people met for a season of fellowship, relaxation and spiritual renewal under the direction of Dr. Clark and others of somewhat similar views. In 1942 he resigned from his position at the College to give all his time to helping others discover this integration of body, mind and spirit in God. Through a series of experiences told in his autobiography *A Man's Reach*, he had been brought to an unusual interest in prayer and it became his major concern and emphasis. It set him to reading, especially the works of the mystics and about them and their approach to God. Among the books he read was *Life Understood* by Frank Rawson, a onetime Christian Scientist who had been expelled from the church and went on to become an influential leader of New Thought in England. The thing that attracted Clark to Rawson, he says, was that he believed one's prayers could be just as scientifically infallible as the laws of physics and chemistry.

The Man Who Tapped the Secrets of the Universe Glenn Clark, 2022-08-15 *The Man Who Tapped the Secrets of the Universe* is a captivating exploration of the life and work of Walter Russell, a visionary artist, sculptor, and philosopher who uncovered profound insights into the nature of reality. Through his unique perspective and tireless dedication, Russell shed light on the fundamental principles that govern the universe, offering a transformative understanding of energy, matter, and consciousness. This book serves as an illuminating introduction to Russell's groundbreaking ideas, inviting readers to embark on a journey of discovery and expand their perception of the world around them      **Age of the Spirit** John Maiden, 2023 How did charismatic renewal transform the churches in the twentieth century, moving from the periphery to the mainstream? In *Age of the Spirit*, John Maiden looks at the rise of charismatic Christianity before, during, and after the long 1960s across the English-speaking world      **Agnes Sanford and Her Companions** William L. De Arteaga, 2015-08-17 Agnes Sanford was arguably the most original and spiritually fruitful theologians of the twentieth century. Among her achievements were the

discovery and development of the inner healing ministry the development of a theology of the light of God missing in Western theology and the first ever theology of nature prayers as in stilling storms She and her husband developed a school to teach ministers and lay leaders healing and deliverance prayer and the gifts of the Spirit a decade before the charismatic renewal made such things acceptable in mainline churches In spite of these achievements she is largely ignored and unrecognized today This work examines her career and shows why her theology though deeply biblical was unacceptable to orthodox critics Sanford was part of a group who worked from the 1900s through the 1960s to make healing and deliverance prayer as normal in church They had to confront the erroneous established theology of cessationism which affirmed that the healing ministry of the church was past *Quaker History*, 2005 'I Will Lift Up Mine Eyes Christopher Alan Anderson, 2012-09-18 The author's take on the essence of the spiritual life what is it to that we look outward in awe and yet at the same time find within ourselves Author Bio Christopher Alan Anderson 1950 received the basis of his education from the University of Science and Philosophy Swannanoa Waynesboro Virginia He resides in the transcendental romantic tradition that vein of spiritual creativity of the philosopher and poet His quest has been to define and express an eternal romantic reality from which a man and a woman could together stand in their difference and create a living universe of procreative love Mr Anderson began these writings in 1971 The first writings were published in 1985 On a personal note when Mr Anderson was asked to describe the writings and what he felt their message was he responded Spiritual procreation Mankind has yet to distinguish the two sexes on the spiritual level In this failure lies the root of our problems and why we cannot yet touch the eternal together The message of man and woman balance brings each of us together in love with our eternal other half right now Keywords Man and Woman Balance Relationships Procreation Spirituality Love Metaphysics Eternal Creation Sexuality Soul Nature and Revelation Jeanne Halgren Kilde, *Nature and Revelation* is an absorbing history of Macalester College from its origins as a Presbyterian secondary school in frontier St Paul to its current presence as a nationally prominent liberal arts college Detailing the college's history Jeanne Halgren Kilde tells stories of the college's influential leaders its defining moments its rapidly changing student life and the sometimes controversial evolution of the school's curriculum and reputation exploring its transformation from a modest evangelical college into a progressive secular institution By highlighting the college's balancing act between nature and revelation between the pursuit of empirical knowledge and religious conviction Kilde traces the impact of changing perceptions of religion and education over Macalester's more than century long history As once religious colleges gradually shed their church ties and negotiated tensions between religious vocational and liberal arts missions they both mirrored and affected the development of education and the trajectory of American Protestantism itself Placing Macalester College in a national context Kilde explores the cultural political and pedagogical challenges and shifts experienced by most U S institutions of higher education during this turbulent period While so doing Kilde uncovers a number of little known aspects of the college's history and explores the
