## **Global Bargaining Unctad And The Quest For A New International Economic Order:**

**Global Bargaining** Robert L. Rothstein, 2015-03-08 Negotiations on an international commodity policy have been the central issue on the North South agenda for the past three years. They also can be seen as the first major effort to give substantive meaning to the Third World's desire not only for a new regime for the world's raw commodity trade but also for a New International Economic Order. Yet various obstacles have impeded successful North South bargaining and the negotiations remain at a stalemate. Focusing on the bargaining process between developed and developing countries in the United Nations Conference on Trade and Development, Robert Rothstein analyzes the factors that have inhibited successful negotiation and suggests ways in which these obstacles might be removed. The first part of the book focuses on the specifics of the commodity debate while in the second part the author attempts to explain the causes of delay, misunderstanding and mistrust within the negotiating process. Assessing the possibility of devising an effective bargaining policy among unequal parties with conflicting values and interests, Professor Rothstein suggests a number of structural, institutional and conceptual reforms. Originally published in 1979, The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. **The New International Economic Order** Jeffrey A. Hart, 1983-10-06 **U.S. Foreign Policy And The New International Economic Order** Robert K. Olson, 2019-06-04 This is an up-to-date authoritative account of the development of U.S. policy toward the New International Economic Order (NIEO) from its inception in 1974 through the Eleventh Special Session of the General Assembly in August-September 1980. Mr. Olson concentrates on the latter stages of the North-South dialogue, analyzing U.S. policy in the context of The Politics of International Economic Relations by Jeffrey A. Hart and Joan Edelman Spero, 2013-06-17. The first and definitive book of its kind, Joan Spero's The Politics of International Economic Relations has been fully updated to reflect the sweeping changes in the international arena. With the expertise of co-author Jeffrey Hart, the fifth edition strengthens the coverage of political and economic relations since the end of the Cold War, economic polarization in developing nations, and the roots of economic decline in centrally planned economies. A new chapter on industrial policy and competitiveness debates further illustrates the changing dynamics of International Political Economy. Ideal as a supplement to the International Relations course or as the core text in International Political Economy, Spero and Hart's The Politics of International Economic Relations continues to give students the breadth and depth of scholarship needed to understand the politics of world economy. **International Politics** G. R. Berridge, 2014-01-21 A new Edition of this well-established introduction to international politics. **Planning for the Planet** Simone Schleper, 2019-07-12 During the 1960s and 1970s, rapidly growing environmental awareness and

**The World Health Organization between North and South** Nitsan Chorev, 2012-05-01 Since 1948 the World Health Organization WHO has launched numerous programs aimed at improving health conditions around the globe ranging from efforts to eradicate smallpox to education programs about the health risks of smoking In setting global health priorities and carrying out initiatives the WHO bureaucracy has faced the challenge of reconciling the preferences of a small minority of wealthy nations who fund the organization with the demands of poorer member countries who hold the majority of votes In *The World Health Organization between North and South* Nitsan Chorev shows how the WHO bureaucracy has succeeded not only in avoiding having its agenda co-opted by either coalition of member states but also in reaching a consensus that fit the bureaucracy's own principles and interests Chorev assesses the response of the WHO bureaucracy to member state pressure in two particularly contentious moments when during the 1970s and early 1980s developing countries forcefully called for a more equal international economic order and when in the 1990s the United States and other wealthy countries demanded international organizations adopt neoliberal economic reforms In analyzing these two periods Chorev demonstrates how strategic maneuvering made it possible for a vulnerable bureaucracy to preserve a relatively autonomous agenda promote a consistent set of values and protect its interests in the face of challenges from developing and developed countries alike

Negotiating Trade John S. Odell, 2006-02-16 Negotiations between governments shape the world political economy and in turn the lives of people everywhere Developing countries have become far more influential in talks in the World Trade Organization including infamous stalemates in Seattle in 1999 and Cancun in 2003 as well as bilateral and regional talks like those that created NAFTA Yet social science does not understand well enough the process of negotiation and least of all the roles of developing countries in these situations This 2006 book sheds light on three aspects of this otherwise opaque process the strategies developing countries use coalition formation and how they learn and influence other participants' beliefs This book will be valuable for many readers interested in negotiation international political economy trade development global governance or international law Developing country negotiators and those who train them will find practical insights on how to avoid pitfalls and negotiate better
