The Global Crisis Makers Graeme Donald Snooks, 2000-09-02 The author argues that we should not be diverted by the East Asian meltdown which is a predictable outcome of global dynamics Of real concern however is the hidden crisis which has been inadvertently engineered by neoliberal economists who dominate the world's financial institutions They are the global crisis makers who have convinced governments to abandon strategic leadership and to impose crippling deflationary policies By employing the innovative theoretical empirical work published in his recent series of remarkable books Graeme Snooks shows how this threat to progress and liberty can be overcome *The Global Crisis Makers* G. The Collapse of Darwinism, Or, The Rise of a Realist Theory of Life Graeme Donald Snooks, 2003-01-01 In this provocative work noted social and economic theorist Graeme D Snooks exposes fatal flaws in the foundations of the Darwinian theory of evolution Further he develops a remarkable replacement theory of evolution The new dynamic strategy theory views life as a strategic pursuit rather than a game of chance in which organisms adopt dynamic strategies only one of which is genetic change to survive and prosper This theory reveals the organism as empowered rather than as the plaything of gods genes or blind chance And it provides a powerful new basis for humanism

From Conflict to Crisis Jeanne M. Haskin, 2012 The rich understand that capitalism is a game of musical chairs It's systemic class warfare conducted on a grand scale to discourage solidarity across lines that might otherwise threaten the system and with each market reset arranged by the Federal Reserve more of the country's resources fall into wealthy hands Examining what happens when a society favors old money over new and breaks all the rules to make the world safe for finance author Jeanne Haskin predicts increasing volatility and violence in the United States if we do not significantly change course For a preview of what lies ahead for the U.S. the author takes us for a quick exemplary trip through Central America A society that is reared on competition will face unsettling challenges to authority if it doesn't set certain functions outside the arena of battle via systematic enrichment of the affluent minority that has always had the power to topple and ruin the system Today's preoccupation with America's revolutionary history is not just a piece of theater At the heart of America's outrage is an inability to lash out and demand redemption from the source of its distress because the pain is inflicted not by hatred but by the fundamental lack of stability built into our way of life Now that a fifth of the population is suffering job loss foreclosures or exclusion from employment due to prejudice poor credit a lack of skills or education a glut of competition and insufficient opportunity the failure to provide for the helpless majority means the system is at an impasse Because the system can't or won't perform the Tea Party's rise was preemptive with all its implied violence and real American theater as the means to channel our anger into voting out Obama so reform can proceed unimpeded with all its inherent dangers After reviewing some foreign examples that erupted in the environments of colonialism and post colonialism neoliberalism militarism and oligarchies the author filters through the head spinning social and political noise that stands in for responsible debate in America today Ms Haskin's richly documented essay sees a bonfire prepared as social
