Ending Apartheid In America The Need For A Black Political Party And Reparations Now:

The Limits of Law Austin Sarat, Lawrence Douglas, Martha Merrill Umphrey, 2005 This collection brings together well established scholars to examine the limits of law a topic that has been of broad interest since the events of 9 11 and the responses of U S law and policy to those events The limiting conditions explored in this volume include marking law s relationship to acts of terror states of emergency gestures of surrender payments of reparations offers of amnesty and invocations of retroactivity These essays explore how law is challenged frayed and constituted out of contact with conditions that lie at the farthest reaches of its empirical and normative force *Making Whole what Has Been Smashed* John Torpey, 2006 This book explores the recent spread of political efforts to rectify past injustices Although it recognizes that reparations campaigns may lead to improved well being of victims and to reconciliation among former antagonists it examines the extent to which concern with the past may depart from the future orientation of progressive politics Du Bois's Dialectics Reiland Rabaka, 2009-07-15 Du Bois s Dialectics is doubly distinguished from other books on Du Bois because it is the first extended exploration of Du Bois s contributions to new critical theory and the first book length treatment of his contributions to contemporary black radical politics and the developing discipline of Africana Studies With chapters that undertake ideological critiques of education religion the politics of reparations and the problematics of black radical politics in contemporary culture and society Du Bois s Dialectics employs Du Bois as its critical theoretical point of departure and demonstrates his and Africana Studies contributions to as well as contemporary critical theory s connections to critical pedagogy sociology of religion and reparations theory Rabaka offers the first critical theoretical treatment of the W E B Du Bois_ Booker T Washington debate which lucidly highlights Du Bois s transition from a bourgeois black liberal to a black radical and revolutionary democratic socialist This book is primarily directed at scholars advanced undergraduate and graduate students working in and associated with Africana Studies American Studies Ethnic Studies and Cultural Studies

Reparations Alfred L. Brophy, 2006-09-14 Today the debate over reparations whether African Americans should be compensated for decades of racial subjugation stands as the most racially divisive issue in American politics In this short definitive work Alfred L Brophy a leading expert on racial violence traces the reparations issue from the 1820s to the present in order to assess the arguments on both sides of the current debate Taking us inside litigation and legislatures past and present examining failed and successful lawsuits and exploring reparations actions by legislatures newspapers schools businesses and truth commissions this book offers a valuable historical and legal perspective for reparations advocates and critics alike A book about reparations and its contentious qualities that is a must read for all If you want to know the essence of the debate this book is for you Charles K Ogletree Jr Harvard Law School **Racism** Albert J. Wheeler, 2000 Of all mankind s vices racism is one of the most pervasive and stubborn Success in overcoming racism has been achieved from time to time but victories have been limited thus far because mankind has focused on personal economic gain or power grabs

ignoring generosity of the soul This bibliography brings together the literature providing access by subject groupings as well as author and subject indexes Contents Racial Attitudes Racism and Poverty Hate Groups Racial Justice Racism and Politics Race Discrimination Racial Identity Racism Around the World **De Paul Law Review** ,2004 **The Cumulative Book Index** ,1999 **Civil Rights Journal** ,1995 **Racist America** Joe R. Feagin,2014-01-21 This third edition of Joe R Feagin s Racist America is significantly revised and updated with an eye toward racism issues arising regularly in our contemporary era This edition incorporates more than two hundred recent research studies and reports on U S racial issues that update and enhance all the last edition s chapters It expands the discussion and data on concepts such as the white racial frame and systemic racism from research studies by Feagin and his colleagues The author has further polished the book to make it yet more readable for undergraduates including eliminating repetitive materials adding headings and more cross referencing and adding new examples anecdotes and narratives about contemporary racism Politics and the Past John Torpey,2004-09-01 Politics and the Past offers an original multidisciplinary exploration of the growing public controversy over reparations for historical injustices Demonstrating that reparations politics has become one of the most important features of international politics in recent years the authors analyze why this is the case and show that reparations politics can be expected to be a major aspect of international affairs in coming years In addition to broad theoretical and philosophical reflection the book includes discussions of the politics of reparations in specific countries and regions including the United States France Latin America Japan Canada and Rwanda The volume presents a nuanced historically grounded and critical perspective on the many campaigns for reparations currently afoot in a variety of contexts around the world All readers working or teaching in the fields of transitional justice the politics of memory and social movements will find this book a rich and provocative contribution to this complex debate From Here to Equality, Second Edition William A. Darity Jr.,Andrea Kirsten Mullen,2022-07-27 Racism and discrimination have choked economic opportunity for African Americans at nearly every turn At several historic moments the trajectory of racial inequality could have been altered dramatically But neither Reconstruction nor the New Deal nor the civil rights struggle led to an economically just and fair nation Today systematic inequality persists in the form of housing discrimination unequal education police brutality mass incarceration employment discrimination and massive wealth and opportunity gaps Economic data indicates that for every dollar the average white household holds in wealth the average black household possesses a mere ten cents This compelling and sharply argued book addresses economic injustices head on and make the most comprehensive case to date for economic reparations for U S descendants of slavery Using innovative methods that link monetary values to historical wrongs William Darity Jr and A Kirsten Mullen assess the literal and figurative costs of justice denied in the 155 years since the end of the Civil War and offer a detailed roadmap for an effective reparations program including a substantial payment to each documented U S black descendant of slavery This new edition features a new foreword addressing the latest developments

on the local state and federal level and considering current prospects for a comprehensive reparations program *African American Leadership* Ronald W. Walters, Robert C. Smith, 1999-04-01 Written by two of the nation's preeminent scholars on the topic this book provides a panoramic overview of black leadership in the United States **The New York Times Index** ,2003 *Encyclopedia of African American Politics* Robert C. The African-American Odyssey: Since 1865 Darlene Clark Hine, William C. Hine, Stanley Harrold, 2003 This book is the first comprehensive survey of the African American experience It draws on recent research to present black history in a clear and direct manner within a broad social cultural and political framework White supremacy the Great Depression the building of black community institutions the equal rights movement and African American military service For anyone who is interested in an in depth exploration of African American history as it relates to U S history *After Dictatorship* Peter Hoeres, Hubertus Knabe, 2023-02-20 Numerous studies concerning transitional justice exist However comparatively speaking the effects actually achieved by measures for coming to terms with dictatorships have seldom been investigated There is an even greater lack of transnational analyses This volume contributes to closing this gap in research To this end it analyses processes of coming to terms with the past in seven countries with different experiences of violence and dictatorship Experts have drawn up detailed studies on transitional justice in Albania Argentina Ethiopia Chile Rwanda South Africa and Uruguay Their analyses constitute the empirical material for a comparative study of the impact of measures introduced within the context of transitional justice It becomes clear that there is no sure formula for dealing with dictatorships Successes and deficits alike can be observed in relation to the individual instruments of transitional justice from criminal prosecution to victim compensation Nevertheless the South American states perform much better than those on the African continent This depends less on the instruments used than on political and social factors Consequently strategies of transitional justice should focus more closely on these contextual factors *The Gaither Reporter* ,1998-12 **West Africa** ,2003 **Bulletin of the Atomic Scientists** ,1993-11 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world
