Person, Being, and History Michael Baur, Robert E. Wood, 2011-03 During a distinguished career as thinker and educator at universities across North America philosopher Kenneth L Schmitz has striven to recover metaphysical realism in a world that has after Kant turned to the subject Schmitz has done so through precisely the window of the subjectivity particularity and concern for history which marks philosophy after Kant Although primarily associated with his native University of Toronto where he was known as the Educator Schmitz also taught at Loyola

Marymount Marquette the Catholic University of America and the John Paul II Institute for Studies on Marriage and Family His teaching focused upon the singularity of the human person founded upon the notion of being that generates the history of philosophy He was eminently generous in his appreciation of the philosophers about whom he lectured He taught philosophy richly grounded in the history of philosophy as a gold mine rather than as a minefield Anchored in his spirit the various essays in this volume by colleagues and former students of Schmitz examine his thought and the subjects of his teaching In addition to an overall exposition of his own thought the collection treats themes such as gift faith and reason culture and dialogue modernity and post modernity and themes in the work of various thinkers including Aristotle Anselm Aquinas Martin Heidegger Gabriel Marcel Max Scheler and Jean Paul Sartre Special attention is given to G W F Hegel whose philosophy Schmitz was particularly adept at teaching He turned many a budding scholar into a life long student of Hegel s work Several of the essays begin with a special tribute to the honoree The volume concludes with a bibliography of Schmitz s many works Michael Baur is associate professor of philosophy and adjunct professor of law at Fordham University He is the editor of numerous works including The Emergence of German Idealism Robert E Wood is professor and former chair of philosophy at the University of Dallas He is the longtime editor of the American Catholic Philosophical Quarterly and author of three books and numerous articles Contributors Thomas Anderson Jennifer Bates Michael Baur John Burbidge Thomas Busch James Crooks Daniel O Dahlstrom John Deely Martin Donougho Jude P Dougherty Louis Dupr James Kow Jay Lampert John C McCarthy Ralph McInerny John Russon Daniel E Shannon and Robert E Wood PRAISE FOR THE BOOK The editors of this book have done a great service in drawing attention to the notable excellences of Schmitz s work excellences both systematic and historical Perhaps this will provide some impetus to make available more of his essays surely worthy to be communicated to as wide an audience as possible The Thomist In his work Kenneth Schmitz seeks to unify the disparate and argumentatively to seek the common ground on a diverse gathering of opinions Not that he is blind to difference or so tolerant that criticism is suspended Rather his principal convictions enable him to favor the principle of charity in interpretation and respect in critical assessment That these qualities have been communicated to his former students and colleagues is apparent in these essays This collection brings the facets of Schmitz s philosophical thought into a fruitful exchange and introduces the lifework of an incredibly gifted and original thinker Thomas R Flynn Samuel Candler Dobbs Professor of Philosophy Emory University

After the Beautiful Robert B. Pippin, 2013-12-23 In his Berlin lectures on fine art Hegel argued that art involves a unique form of aesthetic intelligibility the expression of a distinct collective self understanding that develops through historical time Hegel s approach to art has been influential in a number of different contexts but in a twist of historical irony Hegel would die just before the most radical artistic revolution in history modernism In *After the Beautiful* Robert B Pippin looking at modernist paintings by artists such as douard Manet and Paul C zanne through Hegel s lens does what Hegel never had the chance to do While Hegel could never engage modernist painting he did

have an understanding of modernity and in it art he famously asserted was a thing of the past no longer an important vehicle of self understanding and no longer an indispensable expression of human meaning Pippin offers a sophisticated exploration of Hegel s position and its implications He also shows that had Hegel known how the social institutions of his day would ultimately fail to achieve his own version of genuine equality a mutuality of recognition he would have had to explore a different new role for art in modernity After laying this groundwork Pippin goes on to illuminate the dimensions of Hegel s aesthetic approach in the path breaking works of Manet the grandfather of modernism drawing on art historians T J Clark and Michael Fried to do so He concludes with a look at C zanne the father of modernism this time as his works illuminate the relationship between Hegel and the philosopher who would challenge Hegel s account of both modernity and art Martin Heidegger Elegantly inter weaving philosophy and art history After the Beautiful is a stunning reassessment of the modernist project It gets at the core of the significance of modernism itself and what it means in general for art to have a history Ultimately it is a testament via Hegel to the distinctive philosophical achievements of modernist art in the unsettled tumultuous era we have inherited

Memory in the Ontopoiesis of Life Anna-Teresa Tymieniecka,2009-09-30 An individual has the potentiality to develop himself herself during each period of his her life This potential for development can be affected by many diff ent factors These factors are divided into two main areas as internal factors and external factors The common assumption is that internal factors are more effective than external factors This is the dilemma about learning which p cess of lifelong learning is related to self actualization In this paper discussion is limited to concept of lifelong learning and self actualization

LIFELONG LEARNING An individual can take proper support form many components such as family education system media and peers However they may not provide proper s port for the individual Thus the individual needs more pedagogical support to solve problems of life develop his her skills and capabilities The pedagogical support should be given by educational system Teaching and learning in some areas such as math science drawing social studies and so on were de ned as pedagogical support in the past But this approach is weakening in today During teaching and learning processes teacher and learner should focus on the learning rather than the teaching The concept of learning is likely to be argued in many dimensions The c cepts of teaching and learning tend to be rede ned based on the latest changes

Lexicon Mark A. Wrathall, 2021-06-03 Martin Heidegger 1889 1976 was one of the most original thinkers of the twentieth century His work has profoundly influenced philosophers including Jean Paul Sartre Simone de Beauvoir Maurice Merleau Ponty Michel Foucault Jacques Derrida Hannah Arendt Hans Georg Gadamer Jürgen Habermas Charles Taylor Richard Rorty Hubert Dreyfus Stanley Cavell Emmanuel Levinas Alain Badiou and Gilles Deleuze His accounts of human existence and being and his critique of technology have inspired theorists in fields as diverse as theology anthropology sociology psychology political science and the humanities This Lexicon provides a comprehensive and accessible guide to Heidegger's notoriously obscure vocabulary Each entry clearly and concisely defines a key term and explores in depth the meaning of each concept explaining how it fits into Heidegger's broader philosophical project With over 220 entries written by the world's leading Heidegger experts this landmark volume will be indispensable for any student or scholar of Heidegger's work

Epochal Discordance Véronique M. Fóti, 2012-02-01 Friedrich Hölderlin must be considered not only a significant poet but also a philosophically important thinker within German Idealism In both capacities he was crucially preoccupied with the question of tragedy yet surprisingly this book is the first in English to explore fully his philosophy of tragedy Focusing on the thought of Hegel Nietzsche Heidegger and Reiner Schürmann Véronique M. Fóti discusses the tragic turning in German philosophy that began at the close of the eighteenth century to provide a historical and philosophical context for an engagement with Hölderlin She goes on to examine the three fragmentary versions of Hölderlin's own tragedy *The Death of Empedocles* together with related essays and his interpretation of Sophoclean tragedy Fóti also addresses the relationship of his character Empedocles to the pre-Socratic philosopher and concludes by examining Heidegger's dialogue with Hölderlin concerning tragedy and the tragic

The Culmination Robert B. Pippin, 2024-01-05 By far the deepest and most thorough study of Heidegger's reading of Hegel and its centrality to his account of the history of metaphysics Taylor Carman Barnard College A provocative reassessment of Heidegger's critique of German Idealism from one of the tradition's foremost interpreters Heidegger claimed that Western philosophy ended even in the German Idealist tradition In *The Culmination* Robert B. Pippin explores the ramifications of this charge through a masterful survey of Western philosophy especially Heidegger's critiques of Hegel and Kant Pippin argues that Heidegger's basic concern was to determine sources of meaning for human life particularly those that had been obscured by Western philosophy's attention to reason *The Culmination* offers a new interpretation of Heidegger German Idealism and the fate of Western rationalism Can thought explain why it cares about what it thinks Can the mind account for its own minding Drawing on his decades of reflection on German Idealism Pippin supports Heidegger's answer no The implications for the history of philosophy and for its future are profound Richard Polt Xavier University *The Culmination* is rich and complex and fascinating *European Journal of Philosophy* An indispensable resource for anyone concerned about the future of philosophy Steven Crowell Rice University

Heidegger and Plato Catalin Partenie, Tom Rockmore, 2005-08-26 For Martin Heidegger the fall of philosophy into

metaphysics begins with Plato Thus the relationship between the two philosophers is crucial to an understanding of Heidegger and perhaps even to the whole plausibility of postmodern critiques of metaphysics It is also as the essays in this volume attest highly complex and possibly founded on a questionable understanding of Plato As editors Catalin Partenie and Tom Rockmore remark a simple way to describe Heidegger's reading of Plato might be to say that what began as an attempt to appropriate Plato and through him a large portion of Western philosophy finally ended in an estrangement from both Plato and Western philosophy The authors of this volume consider Heidegger's thought in relation to Plato before and after the Kehre or turn In doing so they take up various central issues in Heidegger's *Being and Time* 1927 and thereafter and the questions of hermeneutics truth and language The result is a subtle and multifaceted reinterpretation of Heidegger's position in the tradition of philosophy and of Plato's role in determining that position

Memory, History, Justice in Hegel Angelica Nuzzo, 2012-04-05 This reconstruction of the work of dialectical memory in Hegel raises the fundamental question of the principle that presides on the articulation of history and indicates in Hegel's philosophy two alternative models of conceiving history one that grounds history on ethical memory the other that sees justice as the moving principle of history

Tragedies of Spirit Theodore George, 2012-02-01 In *Tragedies of Spirit* Theodore D George engages Hegel's *Phenomenology of Spirit* to explore the philosophical significance of tragedy in post-Kantian continental thought George follows lines of inquiry originally developed by Nietzsche Heidegger Gadamer and Derrida and takes as his point of departure the concern that Hegel's speculative philosophy forms a summit of modernity that the present historical time is called to interrogate Yet George argues that Hegel's larger speculative ambitions in the *Phenomenology* compel him to turn to the resource of tragedy in order to give voice to issues of incommensurability discontinuity otherness strife and crisis From this standpoint Hegel's interest in the tragic proves to be more pervasive and to run deeper than has previously been recognized The author shows that Hegel's reliance upon the tragic not only stretches and tests assumptions of speculative philosophy but also illuminates original insights into human finitude While situating Hegel's approach to tragedy as part of a broader response to Kant George also contextualizes Hegel's interest in tragedy with reference to figures in German Idealism and Romanticism such as Schelling Hölderlin and Schlegel

Madness and Death in Philosophy Ferit Guven, 2012-02-01 Ferit G ven illuminates the historically constitutive roles of madness and death in philosophy by examining them in the light of contemporary discussions of the intersection of power and knowledge and ethical relations with the other Historically as G ven shows philosophical treatments of madness and death have limited or subdued their disruptive quality Madness and death are linked to the question of how to conceptualize the unthinkable but G ven illustrates how this conceptualization results in a reduction to positivity of the very radical negativity these moments represent Tracing this problematic through Plato Hegel Heidegger and finally in the debate on madness between Foucault and Derrida G ven gestures toward a nonreducible disruptive form of negativity articulated in Heidegger's critique of Hegel and Foucault's engagement with Derrida that might allow for the preservation of real otherness and open the possibility of a true ethics of difference

Hegel's Phenomenology Ardis B. Collins, 2013 How Hegel proves the truth of logic by examining the dynamics of lived experience

Postmodern quests in applied philosophy, 2012 *Death and Desire in Hegel, Heidegger and Deleuze* Brent Adkins, 2007-11-22 Despite what its title might suggest *Death and Desire* is a meditation on life Using the texts of Hegel Heidegger and Deleuze the author argues that philosophy has been dominated by a form of thought that focuses exclusively on death The importance of *Death and Desire* lies in its refusal of the morbidity of much contemporary philosophy Its uniqueness lies in placing Hegel Heidegger and Deleuze in conversation Its usefulness lies in the clarity with which it articulates and compares these very diverse thinkers
