

## **CONSTRUCTION SPECIFICATIONS**

This set of Specifications shall govern the methods of construction and the kinds of materials to be used for the proposed building shown in the plans and detail drawings.

The plans, detail drawings and these Specifications shall be considered as complementing each other, so that what is mentioned, or shown in one, although not mentioned or shown in the other, shall be considered as appearing on both. In case of conflict between the two, the same should be referred to the designing Architect/Engineer for resolution.

### **GENERAL CONDITIONS -**

All parts of the construction shall be finished with first class workmanship, to the fullest talent and meaning of the plans and these Specifications, and to the entire satisfaction of the Architect/Engineer and the Owner.

The construction shall conform to all the requirements of the National Building Code, as well as the local rules and regulations of the Municipality/city of Baguio City, Philippines.

### **CLEARING THE SITE -**

The building site shall be leveled according to the plans and cleared of rubbish, roots and other perishable and objectionable matters to a suitable subgrade.

All such unsuitable materials shall be removed from the building site and spread uniformly over the areas adjacent to the proposed building, or otherwise disposed of as may be directed by the Architect or Engineer in charge of the construction.

### **STAKING OUT THE BUILDING LINES -**

The building lines shall be staked out and all lines and grades shown in the drawing established before any execution is started. Batterboards and reference marks shall be erected at such places where they will not be disturbed the excavation of the building.

### **EXCAVATION -**

All excavations shall be made to grade indicated in the drawings. Where the building site is covered with any kind of fill, the excavation for footings should be made deeper until the stratum for safe bearing capacity of the soil is reached.

Whenever water is encountered in the excavation process, it shall be removed by bailing or pumping, care being taken that the surrounding soil particles are not disturbed or removed.

**Engineering Construction Specifications** J. Goldbloom, 2012-12-06 For the past 25 years Joe Goldbloom and I have conducted a running debate over whether specifications writers engage in the unlawful practice of law Joe's position is that lawyers have no business writing specifications that being the designer's province Having been given the honor to write this foreword I have the opportunity for the last word at least for now Joe Goldbloom and I first met in 1964 while serving together on the ASCE Committee on Contract Administration Joe became my teacher mentor and friend Underlying our good natured debate was the serious issue of the technical qualifications required of a specifications writer As a matter of fact specifications writing traditionally has fallen in a crack between the two professions Specifications writing typically is neither taught in engineering school nor in law school Engineers are taught how to design lawyers are taught how to draft contracts Specifications writing requires mastery of the technical elements of design as well as the skills of contract drafting Specifications writing is neither glamorous nor sexy it is often viewed as a necessary evil of the designer's job
