*England* Graham Faiella, 2005      *England* Graham Faiella, 2004-12-15 England's royalty, eating habits, customs, and fairs are all discussed in this book as well as the country's history, geography, and climate. Photographs escort the reader through the country's festivals at Cheltenham, Notting Hill, and the Chelsea Flower Show. A home to many people throughout the centuries, including the Celts, Saxons, and Normans, England's multifaceted past that has affected and absorbed aspects of so many cultures is also discussed using detailed maps, images of historical leaders, and biographies of famous Britons.

*Ireland* Graham Faiella, 2006      *Understanding Early Modern Primary Sources* Laura Sangha, Jonathan Willis, 2016-07-07 *Understanding Early Modern Primary Sources* is an introduction to the rich treasury of source material available to students of early modern history. During this period, political development, economic and social change, rising literacy levels, and the success of the printing press ensured that the State, the Church, and the people generated texts and objects on an unprecedented scale. This book introduces students to the sources that survived to become indispensable primary material studied by historians. After a wide-ranging introductory essay, part I of the book, *Sources*, takes the reader through seven key categories of primary material, including governmental, ecclesiastical, and legal records, diaries, and literary works, print and visual, and material sources. Each chapter addresses how different types of material were produced whilst also pointing readers towards the most important and accessible physical and digital source collections. Part II, *Histories*, takes a thematic approach. Each chapter in this section explores the sources that are used to address major early modern themes, including political and popular cultures, the economy, science, religion, gender, warfare, and global exploration. This collection of essays by leading historians in their respective fields showcases how practitioners research the early modern period and is an invaluable resource for any student embarking on their studies of the early modern period.      **Encyclopedia of Demons in**

**World Religions and Cultures** Theresa Bane, 2014-01-10 This exhaustive volume catalogs nearly three thousand demons in the mythologies and lore of virtually every ancient society and most religions. From Aamon, the demon of life and reproduction with the head of a serpent and the body of a wolf, in Christian demonology, to Zu, the half-man, half-bird personification of the southern wind and thunder clouds in Sumero-Akkadian mythology, entries offer descriptions of each demon's origins, appearance, and cultural significance. Also included are descriptions of the demonic and diabolical members making up the hierarchy of Hell and the numerous species of demons that, according to various folklores, mythologies, and religions, populate the earth and plague mankind. Very thoroughly indexed.      *Encyclopedia of Fairies in World Folklore and Mythology* Theresa Bane, 2013-09-18 Fairies have been revered and feared, sometimes simultaneously, throughout recorded history. This encyclopedia of concise entries, from the A Seneca of northeastern North America to the Zips of Central America and Mexico, includes more than 2,500 individual beings and species of fairy and nature spirits from a wide range of mythologies and religions from all over the globe.      *We Visit Chile* Tamra Orr, 2010-12-23 Chile is unlike any other country on the planet.

**Ethnic Fermented Foods and Alcoholic Beverages of Asia** Jyoti Prakash Tamang, 2016-08-05. Asia has a long history of preparation and consumption of various types of ethnic fermented foods and alcoholic beverages based on available raw substrates of plant or animal sources and also depending on agro-climatic conditions of the regions. Diversity of functional microorganisms in Asian ethnic fermented foods and alcoholic beverages consists of bacteria (Lactic acid bacteria and *Bacillus* species, *micrococcii* etc.), amylolytic and alcohol-producing yeasts and filamentous moulds. Though there are hundreds of research articles, review papers and limited books on fermented foods and beverages, the present book *Ethnic Fermented Foods and Alcoholic Beverages of Asia* is the first of this kind, a compilation of various ethnic fermented foods and alcoholic beverages of Asia. This book has fifteen chapters covering different types of ethnic fermented foods and alcoholic beverages of Asia. Some of the authors are well-known scientists and researchers with vast experiences in the field of fermented foods and beverages who include Prof. Tek Chand Bhalla (India), Prof. Yearul Kabir and Dr. Mahmud Hossain (Bangladesh), Prof. Tika Karki (Nepal), Dr. Saeed Akhtar (Pakistan), Prof. Sagarika Ekanayake (Sri Lanka), Dr. Werasit Sanpamongkolchai (Thailand), Prof. Sh. By what miracle can an assortment of seemingly unrelated particles come together and correctly assemble to form a human being? Amazingly, once aggregated, these atoms, molecules and compounds manage to interact reasonably coherently during our lives but seek to return to their dusty state when death occurs.
