Hells Kitchen South Developing Strategies:

Bloomberg's New York Julian Brash, 2011 New York mayor Michael Bloomberg claims to run the city like a business In Bloomberg s New York Julian Brash applies methods from anthropology geography and other social science disciplines to examine what that means He describes the mayor s attitude toward governance as the Bloomberg Way a philosophy that holds up the mayor as CEO government as a private corporation desirable residents and businesses as customers and clients and the city itself as a product to be branded and marketed as a luxury good Commonly represented as pragmatic and nonideological the Bloomberg Way Brash argues is in fact an ambitious reformulation of neoliberal governance that advances specific class interests He considers the implications of this in a blow by blow account of the debate over the Hudson Yards plan which aimed to transform Manhattan s far west side into the city s next great high end district Bringing this plan to fruition proved surprisingly difficult as activists and entrenched interests pushed back against the Bloomberg administration suggesting that despite Bloomberg s success in redrawing the rules of urban governance older political arrangements and opportunities for social justice remain *Mixed-Use Megaprojects and the Competitive City* Mike S. Harris, 2025-04-29 This book examines the motives and outcomes of competitively positioned mixed use megaprojects on government owned land These projects have emerged worldwide in recent decades driven by urban international competition the mobility and expansion of knowledge economies the shift of global investment from physical to human capital and the prevalence of market driven or entrepreneurial politics Six case studies across three countries are analysed through five themes Positioning Governing Shaping Connecting and Public Benefit While pursuing similar objectives of attracting mobile capital each project operates within a specific political financial and social context These projects reflect the prevailing development practices and underlying power structures of cities and states Throughout the implementation process they can also reveal the power struggles and competing agendas within a city In this manner they serve as a valuable lens for understanding the political economic and cultural dynamics of a city and how urban morphology manifests these processes **306090 09:** **Regarding Public Space** Design Bureau for Public Space, 2005-12 The journal 306090 continues to garner acclaim throughout the architecture and design world as an essential forum for issues of architectural practice and theory Its role as a voice for young architects designers and academics is reinforced by its knack for approaching broad topics from unique perspectives and synthesizing multiple points of view 306090 09 Regarding Public Space explores the conception production and operation of contemporary public space in the city from the vantage of its design development construction and use Rather than dwell on what public space is 306090 s guest editors identify it as the material manifestation of intersecting forces economics program sustainable land use whose formation involves a complex set of manipulations in both physical space and managerial aptitude The articles in this volume by contributors from cities across the globe test the ways in which we articulate the built environment to make public space interrogating it through examples from practice and theoretical

Bloomberg Chris McNickle,2017-09-19 Examine the Bipartisan Legacy of a Remarkable Billionaire Politician Bloomberg A Billionaire s Ambition tells the story of how one of America s most successful entrepreneurs was elected mayor of New York City and what he did with the power he won Bloomberg s stunning victory against all odds just weeks after the 9 11 terrorist attack left him facing challenges unlike any mayor in history For the next twelve years he kept the city safe managed budgets through fiscal crises promoted private sector growth generated jobs built infrastructure protected the environment supported society s cultural sensibilities and achieved dramatic improvements in public health Bloomberg was an activist executive who used government assets boldly and wisely for the greatest good for the greatest number of people His time as mayor was not without controversy Bloomberg supported stop and frisk police tactics that a judge ruled unconstitutional and jailhouse violence rose to levels so severe the federal government intervened The administration s homeless policies were ineffective And he forced a change in the city charter to allow him to serve a third term Overall record low crime and the lasting impact of innovative policies will cause his tenure to be remembered as a remarkable success Having returned to his global media empire and to his private philanthropy Bloomberg continues to challenge the National Rifle Association on gun control promote national education reform and support policies to combat climate change Frequently touted as an independent candidate for president Bloomberg leaves behind a legacy of effective government

Hell's Kitchen and the Battle for Urban Space Joseph J. Varga,2013-05-01 Hell s Kitchen is among Manhattan s most storied and studied neighborhoods A working class district situated next to the West Side s middle and upper class residential districts it has long attracted the focus of artists and urban planners writers and reformers Now Joseph Varga takes us on a tour of Hell s Kitchen with an eye toward what we usually take for granted space and particularly how urban spaces are produced controlled and contested by different class and political forces Varga examines events and locations in a crucial period in the formation of the Hell s Kitchen neighborhood the Progressive Era and describes how reformers sought to shape the behavior and experiences of its inhabitants by manipulating the built environment But those inhabitants had plans of their own and thus ensued a struggle over the very spaces public and private commercial and personal in which they lived Varga insightfully considers the interactions between human actors the built environment and the natural landscape and suggests how the production of and struggle over space influence what we think and how we live In the process he raises incisive questions about the meaning of community citizenship and democracy itself **National Guide to Funding for**

Migration Control Logics and Strategies in Europe Claudia Finotelli,Irene Ponzo,2023-04-24 Building upon the concept of migration regime this open access book brings together the works of scholars who have investigated logics and routines of action in the field of immigration control within a single and innovative theoretical framework The chapters cover a wide range of policy domains from visa policy to the externalisation of controls labour migration to asylum internal controls towards irregular migration to restrictions for intra EU mobility By unravelling organisational strategies and practices across Europe the book does not only contribute to dismantling the very idea of the European North South divide in migration but also shows how Europe really works in the field of migration in times of deep economic asylum and health crises In this perspective the book questions the widespread understanding of migration control outcomes as simply the result of more or less effective state policies without considering the embeddedness of the national policy goals and strategies in the dynamic interplay of different economies institutional cultures and geopolitical positions *Contemporary Processes in Architecture*

Ali Rahim,2000-11 Yesterday s working methods are no longer adequate for architectural practice The neo avant garde architects are now arguing for contemporary processes that are as dynamic and fluid as the way we live and think with the same intensity as such intangible forces as the global market and the Internet For any process to be truly creative in the generative sense we must condition an environment where new rules engage and inspire us Models of design need to be created that are capable of consistently transforming and evolving keeping pace with today s rate of change This issue of Architectural Design explores how contemporary processes in the pursuit of creativity and fluidity have become more abstract and experimental attempting to overcome the pragmatic determinism attributed to more conventional working methods It explores the work of architects who design with generative potentials force fields and conceptual diagrams developed with the aid of high end computer software packages Through elucidating texts and the potent imagery of process many of the projects are illustrated stage by stage it effectively promises that a revolution is about to happen in the production of architectural design Ben van Berkel of UN Studio James Corner Ed Keller Kolatan MacDonald Studio Nox Oliver Lang Greg Lynn Enrique Norten OCEAN Reiser Umemoto *Witnessing Whiteness* Kristopher Norris,2020-05-20

Witnessing Whiteness identifies the roots of white supremacy within the Christian church s theology and practice and argues that the white church has a particular and fundamental responsibility to address it Employing the shared resources of white traditionalist witness theology and black liberationist theology and attending to the criticisms liberation theology directs at traditionalism it proposes concrete practices to challenge the white church s and white theology s complicity in white supremacy Abstract ,2000 *New York's New Edge* David Halle,Elisabeth Tiso,2014-12-09 The story of New York s west side no longer stars the Sharks and the Jets Instead it s a story of urban transformation cultural shifts and an expanding contemporary art scene The Chelsea Gallery District has become New York s most dominant neighborhood for contemporary

art and the streets of the west side are filled with gallery owners art collectors and tourists Developments like the High Line historical preservation projects like the Gansevoort Market the Chelsea galleries and plans for megaprojects like the Hudson Yards Development have redefined what is now being called the Far West Side of Manhattan David Halle and Elisabeth Tiso offer a deep analysis of the transforming district in New York s New Edge and the result is a new understanding of how we perceive and interpret culture and the city in New York s gallery district From individual interviews with gallery owners to the behind the scenes politics of preservation initiatives and megaprojects the book provides an in depth account of the developments obstacles successes and failures of the area and the factors that have contributed to them **Clearinghouse**

Review ,1989 Integrated Assessment of Water Resources and Global Change Eric Craswell,Mike Bonnell,Deborah Bossio,Siegfried Demuth,Nick van de Giesen,2007-04-05 This book presents papers from an international conference held in Bonn Germany in February 2005 that dealt with integrated water resources management in industrialized and developing countries The papers detail such emerging concepts as blue and green water virtual water the water footprints of nations multi agent modeling linkages between water and biodiversity and social learning and adaptive management

Re-examining the Cold War: U.S.-China Diplomacy, 1954-1973 Robert S. Ross,Changbin Jiang,2020-03-23 The twelve essays in this volume underscore the similarities between Chinese and American approaches to bilateral diplomacy and between their perceptions of each other s policy making motivations Much of the literature on U S China relations posits that each side was motivated either by ideologically informed interests or by ideological assumptions about its counterpart But as these contributors emphasize newly accessible archives suggest rather that both Beijing and Washington developed a responsive and tactically adaptable foreign policy Each then adjusted this policy in response to changing international circumstances and changing assessments of its counterpart s policies Motivated less by ideology than by pragmatic national security concerns each assumed that the other faced similar considerations **The Architect's Portfolio** Andreas

Luescher,2017-10-03 The creation of a successful portfolio is a vital skill needed by architectural students and professionals alike In a highly competitive global market the accomplished representation of the architect s work must be able to turn opportunities into triumphs This book offers a fresh step by step approach to achieving a reflective attractive and successful representation of one s work Structured in four stages it takes the reader through each step needed in the creation of a successful portfolio from understanding yourself and your market to planning designing and producing it Illustrated throughout in full color the book includes case study portfolios from the USA UK Europe and Asia which demonstrate the steps in the process for both practitioners and students from sketch trials to full colour stage lay outs These contributions come from architects all over the world providing terrific insight into current practices and inspiration and ideas This is essential reading for anyone putting together an architectural portfolio Shaping the Future of African American Film

Monica White Ndounou,2014-04-29 In Hollywood we hear it s all about the money It s a ready explanation for why so few

black films get made no crossover appeal no promise of a big payoff But what if the money itself is color coded What if the economics that governs film production is so skewed that no film by about or for people of color will ever look like a worthy investment unless it follows specific racial or gender patterns This Monica Ndounou shows us is precisely the case In a work as revealing about the culture of filmmaking as it is about the distorted economics of African American film Ndounou clearly traces the insidious connections between history content and cash in black films How does history come into it Hollywood's reliance on past performance as a measure of potential success virtually guarantees that historically underrepresented underfunded and undersold African American films devalue the future prospects of black films So the cycle continues as it has for nearly a century Behind the scenes the numbers are far from neutral Analyzing the onscreen narratives and off screen circumstances behind nearly two thousand films featuring African Americans in leading and supporting roles including such recent productions as Bamboozled Beloved and Tyler Perry's Diary of a Mad Black Woman Ndounou exposes the cultural and racial constraints that limit not just the production but also the expression and creative freedom of black films Her wide ranging analysis reaches into questions of literature language speech and dialect film images and narrative acting theater and film business practices production history and financing and organizational history By uncovering the ideology behind profit driven industry practices that reshape narratives by about and for people of color this provocative work brings to light existing limitations and possibilities for reworking stories and business practices in theater literature and film
