

Questions to Help Kids SOLVE PROBLEMS

Wholehearted School Counseling

What do you hope will happen instead
of what is bothering you?

Can you be 100% sure that your thought is 100% true?
What else could be possible?

What is the worst thing that could happen?
What is the best thing that could happen?

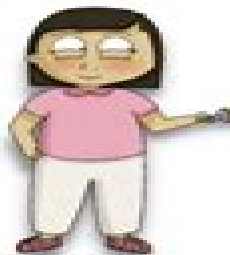

If you could wave a magic wand and things changed in the way you'd like,
how would you know magic had happened? What would be different?

What has helped you move closer to your goal or
hope so far? (Even if it has just been a little help.)

What are 2-3 small steps you can take which will
help move you closer to your goal?

If the worst really did happen, what could you do
to cope and who could help you?

When is a time you faced a similar problem,
and what did you do that helped?

What would you advise your best friend if they
were dealing with a similar challenge?

Creativity In Learning Talia Mercer, AI, 2025-03-11 *Creativity In Learning* explores the transformative power of creative practices in education arguing that creativity isn't just innate talent but a skill to be cultivated. The book examines how creative engagement enhances cognitive functions like memory and critical thinking ultimately improving learning retention and problem solving skills. It uniquely bridges theory and practice offering actionable strategies and pedagogical methodologies for educators to unlock creativity's potential in any learning environment. Did you know that creative activities directly influence brain function? Or that incorporating arts based activities can boost core subject comprehension? The book progresses by first defining creativity and exploring its neurological underpinnings. It then details specific tools for fostering creativity such as design thinking and project based learning. Finally it presents case studies demonstrating the positive impact of creative environments. This approach supported by empirical studies in cognitive psychology and education makes the book a valuable resource for educators curriculum developers and policymakers seeking to improve educational outcomes and implement innovative education strategies.
