Koenig,2008-01-01 Dr Harold G Koenig with expertise in the fields of geriatrics mental health and religion explains that the notion of retirement was in fact a marketing tool developed in the post World War II period Continuing today society's image

of retirement is based largely on myths such as things will get better when you retire you ll be able to do everything you wanted to but couldn t when you worked In fact these beliefs can be harmful leading to emotional issues identity crises and problems with physical health Journey Together Sarah Hermelin,2016-06-15 Offering a model of self improvement rooted in Jewish thought and practice Journey Together explains the mystical system of counting the Omer a Jewish practice of counting the days between the holidays of Passover and Pentecost focusing on a different personality characteristic on each of the 49 days The author illustrates how each trait can be improved with easy to grasp examples from the Bible as well as inspirational modern day stories Each chapter concludes with exercises that parents and children can carry out together to help strengthen the family bond This guide serves to make the counting of the Omer a transformative experience for families who take the time to apply its insights and lessons into their lives *I Dare to Heal* Joel Vorensky,2001 A peer counselor explains the secrets of healing the soul and the spirit **The Reluctant Jew** Michael Grossman,2007-03-02 Even if you are agnostic or hard core atheist there is a dazzling thought expanding bright side to religion you may have overlooked Living a spiritual life in the tradition of the Jewish faith does not mean mindless adherence to outdated dogma Judaism instead can be a source of exhilarating wonder an inspiration to justice and an impetus to ever increasing knowledge Nowadays even many who profess to be the most pious among us realize that when asked What is God they must answer logically even scientifically to be persuasive Theyre aware that any religion to be convincing other than to die hard adherents can not be at odds with reason and blindly insist only it speaks the truth The field therefore is wide open Each of us can attempt to journey towards a concept of God that makes sense celebrates the discoveries of science and will hopefully imbue the traveler with wonderment at the astonishing beauty in the world that too often lays hidden from us Join Michael Grossman in his journey to the heart of Judaism which places much more emphasis on what people do than on what they believe and in the process an understanding of all the worlds great faiths *Spiritual Caregiving* Verna Benner Carson,Harold G Koenig,2004-04 Healthcare providers are faced with a daunting job Daily they have encounters with those who are wounded and broken by disease physical emotional cognitive and spiritual disease Patients look to their caregivers for healing for advice for comfort and solace **Justice, Crime, and Ethics** Michael C. Ferguson,2010-08-24 Introduction to

the spiritual pathways of the major world religions exploring the core beliefs values and practices of each tradition **New York Magazine** ,1997-12-15 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea Searching for Eternity Donald R. Morse,2000 What happens when we die Do we simply cease to exist with our consciousness obliterated for all eternity Or do we have an enduring soul that can continue to experience awareness and some form of ongoing life Does God exist Without a creator how can the universe exist What is the purpose of the universe and what is its ultimate fate Does our behavior in day to day life really influence what happens to us after we die Why do many people believe in a heaven and a hell What is the basis of these beliefs Should we be anxious about our death or just enjoy life in the here and now Can these ultimate mysteries be solved by science What does science already know about the mysteries of creation Sooner or later all of us will face the stark reality of death Many people go through life with an increasing awareness and increasing anxiety about their eventual fate Dr Don Morse a scientist who believed in the absolute finality of death did too Then his near death experience led him on a quest to uncover what science knows about the nature of death Dr Morse s subsequent spiritual journey led him through the entire realm of science and religious beliefs until he came to an inescapable conclusion Some form of an afterlife must exist Join Dr Morse as he summarizes the vast research and data leading to this conclusion Near death and out of body experiences experiments creating apparitions research attempting to weight the soul and the wide range of ancient and modern spiritual concepts are all covered in this masterful comprehensive scientific quest for truth back cover The Publishers Weekly ,1998 **AAR/SBL Annual Meeting Program** American Academy of Religion.
