Ends And Principles In Kants Moral Thought:

Ends and Principles in Kant's Moral Thought John E. Atwell, 2012-12-06 Immanuel Kant 1724 1804 stands among the greatest thinkers of the Western world There is hardly an area of thought at least of philosophical thought to which he did not make significant and lasting contributions Particularly noteworthy are his writings on the foundations and limits of human knowledge the bidimensional nature of perceptual or natural objects including human beings the basic principles and ends of morality the character of a just society and of a world at peace the movement and direction of human history the nature of beauty the end or purpose of all creation the proper education of young people the true conception of religion and on and on Though Kant was a life long resident of Konigsberg Prussia child student tutor and then professor of philosophy and other subjects his thought ranged over nearly all the world and even beyond Reports reveal that he a bachelor was an amiable man highly respected by his students and colleagues and even loved by his several close friends He was apparently a man of integrity both in his personal relations and in his pursuit of knowledge and truth Despite his somewhat pessimistic attitude toward the moral progress of mankind judging from past history and contemporary events he never wavered from a deep seated faith in the goodness of the human heart in man s splendid disposition toward the good Ends and Principles in Kant's Moral Thought John E. Atwell, 1986 **Immanuel Kant's Moral Theory** Roger J. Sullivan, 1989 This book sure to become a standard reference work is a comprehensive lucid and systematic commentary on Kant s practical or moral philosophy Kant is arguably the most important moral philosopher of the modern period yet prior to this area in a single volume Using as nontechnical a language as possible Professor Sullivan offers a detailed authoritative account of Kant s moral philosophy including his ethical theory his philosophy of history his political philosophy his philosophy of religion and his philosophy of education and demonstrates the historical Kantian origins of such important notions as autonomy respect for persons rights and duties An invaluable resource this book will be extremely useful to advanced undergraduates graduates and professional philosophers alike **Kant and Law** B. Sharon Byrd, 2017-07-05 Immanuel Kant s legal philosophy and theory have played an enormous role in the development of law since the eighteenth century Although this influence can be seen primarily in German law and in the law of nations which have traditionally been oriented toward German legal development today Kant s philosophy has experienced a Renaissance in the Anglo American legal world This anthology collects what the editors believe to be the very best of articles on Kant s legal theory with an emphasis on his *Metaphysics of Morals* of 1797 In particular the articles relate to 1 the nature of law and justice 2 private law 3 public law 4 criminal law 5 international law and 6 cosmopolitan law **Idealism and Freedom** Henry E. Allison, 1996-01-26 Henry Allison is one of the foremost interpreters of the philosophy of Kant This new volume collects all his recent essays on Kant s theoretical and practical philosophy Special features of the collection are a detailed defense of the author s interpretation of transcendental idealism a consideration of the Transcendental Deduction and some other recent interpretations thereof

further elaborations of the tensions between various aspects of Kant's conception of freedom and of the complex role of this conception within Kant's moral philosophy

Kant on Happiness in Ethics Victoria S. Wike, 1994-01-01 This book provides a comprehensive analysis of Kant's treatment of happiness in ethics. It considers the definition of happiness and the possible roles happiness may serve in ethics. It argues against critics who maintain that Kant's deontological ethic rejects happiness and against critics who assert that Kant's ethic is in fact consequential and concerned above all with ends such as happiness. By pointing to a system that organizes Kant's various claims about happiness, the book supports the view that happiness has positive roles to play in Kant's ethic.

The Value of Humanity in Kant's Moral Theory Richard Dean, 2006-05-11 The humanity formulation of Kant's Categorical Imperative demands that we treat humanity as an end in itself. Because this principle resonates with currently influential ideals of human rights and dignity, contemporary readers often find it compelling even if the rest of Kant's moral philosophy leaves them cold. Moreover, some prominent specialists in Kant's ethics have recently turned to the humanity formulation as the most theoretically central and promising principle of Kant's ethics. Nevertheless, it has received less attention than many other aspects of Kant's ethics. Richard Dean offers the most sustained and systematic examination of the humanity formulation to date. He presents an original analysis of what it means to treat humanity as an end in itself and examines the implications both for Kant scholarship and for practical guidance on specific moral issues.

Kant: Political Writings Immanuel Kant, 1991-01-25 The original edition of Kant's Political Writings was first published in 1970 and has long been established as the principal English language edition of this important body of writing. In this new expanded edition, two important texts illustrating Kant's view of history are included for the first time: his reviews of Herder's *Ideas on the Philosophy of the History of Mankind* and *Conjectures on the Beginning of Human History*, as well as the essay *What is Enlightenment?*. In addition to a general introduction assessing Kant's political thought in terms of his fundamental principles of politics, this edition also contains such useful student aids as notes on the texts, a comprehensive bibliography, and a new postscript looking at some of the principal issues in Kantian scholarship that have arisen since first publication.

Unity of Knowing and Acting in Kant Saju Chackalackal, 2002

Ethical Theory Heimir Geirsson, Margaret Holmgren, 2000-06-28 This anthology is designed for use as a brief introduction to ethical theory. Included are sections on various forms of ethical theory: Ethical Relativism, Divine Command Theory, Egoism, Consequentialism, Deontology, Justice, Virtue Ethics, and Feminist Ethics. Each section includes two or three of the most important and interesting contributions to the field, together with brief introductions by the editors. A final section, *Theories in Practice*, consists of five selections on the issues of abortion, world poverty, and affirmative action.

Ethical Theory - Second Edition Heimir Geirsson, Margaret Holmgren, 2010-05-07 This first-rate introduction to ethical theory contains sections on various forms of ethical theory, such as egoism, virtue ethics, divine command theory, and consequentialism. Each section includes two or three of the most important contributions to the field, together with brief introductions by the editors. The

second edition contains an improved approach to applied ethics Each chapter on moral theories now includes a selection that deals with a moral problem such as human cloning abortion and global warming The selection illustrates how the relevant theoretical approach is put to use There is therefore a much tighter integration between theory and practice than before The new edition also contains an improved section on feminist ethical theory

The Oxford Handbook of the History of Ethics Roger Crisp, 2013-01-31 This original and comprehensive volume explores the history of philosophical ethics in the western tradition from Homer until the present day Leading experts in the field use their expertise and specialist knowledge to illuminate key subjects and ideas in contemporary ethics and survey the history of the discipline

Encyclopedia of Ethics Lawrence C. Becker, Charlotte B. Becker, 2013-10-18 The editors working with a team of 325 renowned authorities in the field of ethics have revised expanded and updated this classic encyclopedia Along with the addition of 150 new entries all of the original articles have been newly peer reviewed and revised bibliographies have been updated throughout and the overall design of the work has been enhanced for easier access to cross references and other reference features New entries

include Cheating Dirty hands Gay ethics Holocaust Journalism Political correctness and many more

Agency and Autonomy in Kant's Moral Theory Andrews Reath, 2006 Kant's theory of moral sensibility respect for the moral law and the influence of inclination Hedonism heteronomy and Kant's principle of happiness The categorical imperative and Kant's conception of practical rationality Legislating the moral law Autonomy of the will as the foundation of morality Legislating for a realm of ends the social dimension of autonomy Agency and universal law Self legislation and duties to oneself Agency and the imputation of consequences in Kant's ethics

The Bloomsbury Encyclopedia of Utilitarianism James E. Crimmins, 2017-01-26 The idea of utility as a value goal or principle in political moral and economic life has a long and rich history Now available in paperback The Bloomsbury Encyclopedia of Utilitarianism captures the complex history and the multi faceted character of utilitarianism making it the first work of its kind to bring together all the various aspects of the tradition for comparative study With more than 200 entries on the authors and texts recognised as having built the tradition of utilitarian thinking it covers issues and critics that have arisen at every stage There are entries on Plato Epicurus and Confucius and progenitors of the theory like John Gay and David Hume together with political economists legal scholars historians and commentators Cross referenced throughout each entry consists of an explanation of the topic a bibliography of works and suggestions for further reading Providing fresh juxtapositions of issues and arguments in utilitarian studies and written by a team of respected scholars The Bloomsbury Encyclopedia of Utilitarianism is an authoritative and valuable resource

The Modern Schoolman, 1994

Kant, Ought Implies Can, the Principle of Alternate Possibilities, and Happiness Samuel Kahn, 2018-12-31 Throughout his corpus Kant repeatedly and resolutely denies that there is a duty to promote one's own happiness and most present day Kantians seem to agree with him In Kant Ought Implies Can the Principle of Alternate Possibilities and Happiness Samuel Kahn argues that this denial rests on two main ideas 1 a conception of duty

that makes the principle of ought implies can OIC and the principle of alternate possibilities PAP analytic and 2 the claim that humans necessarily promote their own happiness This book defends OIC and PAP but nonetheless attacks the second idea and it supplements this attack with two additional arguments an interpersonal one and an intrapersonal one for the claim that a modern day Kantian ethics should affirm a duty to promote one's own happiness Creating the Kingdom of Ends Christine M. Korsgaard, 1996-07-28 Christine Korsgaard has become one of the leading interpreters of Kant's moral philosophy She is identified with a small group of philosophers who are intent on producing a version of Kant's moral philosophy that is at once sensitive to its historical roots while revealing its particular relevance to contemporary problems She rejects the traditional picture of Kant's ethics as a cold vision of the moral life which emphasises duty at the expense of love and value Rather Kant's work is seen as providing a resource for addressing not only the metaphysics of morals but also for tackling practical questions about personal relations politics and everyday human interaction This collection contains some of the finest current work on Kant's ethics and will command the attention of all those involved in teaching and studying moral theory **Philosophy Books, 1982-1986** Thomas May, 1991 **Valences of Historiography** Gevork Hartoonian, 2024-12-30 The compiled essays offer various themes and ways of approaching historiography Each chapter probes the state of contemporary theorization of architecture histories working toward the theme of critically re-writing history Essential to each author's contribution are specific traditions created by the mole of history burrowing through the past This book concerns the historian's conjectures towards capturing the past and present zeitgeist Temporality is the theme running through the narrative of this volume It raises the question of whether the ever growing body of work on architectural history should be considered as history More specifically what is the intersection between history and architectural history Furthermore can every text focused on architecture's past be considered categorically historiographic In what capacity does architectural history index history beyond contingencies and without reducing the text to empirical realities and the historian's interest in a specific subject including those collected through archival research itself an emblem of textuality This book upholds the conviction that the past should be recalled accurately and that there is no history but historical criticism the scope of which exceeds the historicity of Humanism Dialectically the timeline experienced across contemporary techno economic and cultural domains aesthetics offers an opportunity to explore architecture produced outside the Euro American continents Valences of Historiography offers a fresh take on architectural history that is useful for academics researchers and architecture students
