Engaging Large Classes Strategies And Techniques For College Faculty:

Engaging Large Classes Christine A. Stanley, M. Erin Porter, 2002 Large classes have become a fact of life in colleges and universities across America even as academic funding has decreased class enrollments have continued to rise Although students teachers and administrators are often concerned by the potentially negative impact of uneven teacher to student ratios large classes also offer many potential advantages that are less recognized and not always maximized In Engaging Large Classes the authors demonstrate that large classes can be just as stimulating and rewarding as smaller classes Written by experienced teachers of large classes across a wide range of disciplines and institutions this book provides faculty members and administrators with instructional strategies and advice on how to enhance large class settings This book summarizes many of the core issues related to successfully teaching large classes including An honest review of the advantages and disadvantages of large classes Advice on how to design plan manage and fairly assess large classes The universality of large class issues across disciplines from classroom management to working with teaching assistants Strategies for using classroom technology active learning and collaborative learning Seventeen detailed examples of large classes from a range of higher education institutions The authors not only present an overview of research on teaching large classes they also equip readers with helpful insight into the mechanics of large class pedagogy This book has the potential to change the way academia views the reality of teaching large classes

Interactive Lecturing Elizabeth F. Barkley, Claire H. Major, 2018-02-28 Tips and techniques to build interactive learning into lecture classes Have you ever looked out across your students only to find them staring at their computers or smartphones rather than listening attentively to you Have you ever wondered what you could do to encourage students to resist distractions and focus on the information you are presenting Have you ever wished you could help students become active learners as they listen to you lecture Interactive Lecturing is designed to help faculty members more effectively lecture This practical resource addresses such pertinent questions as How can lecture presentations be more engaging How can we help students learn actively during lecture instead of just sitting and passively listening the entire time Renowned authors Elizabeth F Barkley and Claire H Major provide practical tips on creating and delivering engaging lectures as well as concrete techniques to help teachers ensure students are active and fully engaged participants in the learning process before during and after lecture presentations Research shows that most college faculty still rely predominantly on traditional lectures as their preferred teaching technique However research also underscores the fact that more students fail lecture based courses than classes with active learning components Interactive Lecturing combines engaging presentation tips with active learning techniques specifically chosen to help students learn as they listen to a lecture It is a proven teaching and learning strategy that can be readily incorporated into every teacher's methods In addition to providing a synthesis of relevant contemporary research and theory on lecturing as it relates to teaching and learning this book features 53 tips on how to deliver engaging presentations and 32

techniques you can assign students to do to support their learning during your lecture The tips and techniques can be used across instructional methods and academic disciplines both onsite including small lectures and large lecture halls as well as in online courses This book is a focused up to date resource that draws on collective wisdom from scholarship and practice It will become a well used and welcome addition for everyone dedicated to effective teaching in higher education

Student Engagement Techniques Elizabeth F. Barkley, 2009-10-06 Keeping students involved motivated and actively learning is challenging educators across the country yet good advice on how to accomplish this has not been readily available Student Engagement Techniques is a comprehensive resource that offers college teachers a dynamic model for engaging students and includes over one hundred tips strategies and techniques that have been proven to help teachers from a wide variety of disciplines and institutions motivate and connect with their students The ready to use format shows how to apply each of the book's techniques in the classroom and includes purpose preparation procedures examples online implementation variations and extensions observations and advice and key resources Given the current and welcome surge of interest in improving student learning and success this guide is a timely and important tool sharply focused on practical strategies that can really matter Kay McClenney director Center for Community College Student Engagement Community College Leadership Program the University of Texas at Austin This book is a must for every new faculty orientation program it not only emphasizes the importance of concentrating on what students learn but provides clear steps to prepare and execute an engagement technique Faculty looking for ideas to heighten student engagement in their courses will find useful techniques that can be adopted adapted extended or modified Bob Smallwood cocreator of CLASSE Classroom Survey of Student Engagement and assistant to the provost for assessment Office of Institutional Effectiveness University of Alabama Elizabeth Barkley's encyclopedia of active learning techniques here called SETs combines both a solid discussion of the research on learning that supports the concept of engagement and real life examples of these approaches to teaching in action James Rhem executive editor The National Teaching Learning Forum

Student Engagement Techniques Elizabeth F. Barkley, Claire H. Major, 2020-04-09 Practical Strategies and Winning Techniques to Engage and Enhance Student Learning The revised and updated second edition of Student Engagement Techniques is a much needed guide to engaging today's information overloaded students The book is a comprehensive resource that offers college teachers a dynamic model for engaging students and includes over one hundred tips strategies and techniques that have been proven to help teachers across all disciplines motivate and connect with their students This edition will provide a deeper understanding of what student engagement is demonstrate new strategies for engaging students uncover implementation strategies for engaging students in online learning environments and provide new examples on how to implement these techniques into STEM fields Student Engagement Techniques is among a handful of books several of which are in this series designed specifically to help instructors regardless of experience create the conditions that make meaningful engaged learning not just possible but

highly probable Michael Palmer Ph D Director Center for Teaching Excellence Professor General Faculty University of Virginia This practical guide to motivating and engaging students reads like a quite enjoyable series of conversations held over coffee with skilled colleagues It has been met with delight from every faculty member and graduate instructor that we ve shared the book with Megan L Mittelstadt Ph D Director Center for Teaching and Learning The University of Georgia Student Engagement Techniques belongs in the hands of 21st century instructors and faculty developers alike Its research based specific yet broadly applicable strategies can increase student engagement in face to face and online courses in any discipline Jeanine A Irons Ph D Faculty Developer for Diversity Equity and Inclusion Center for Teaching and Learning Excellence Syracuse University This book is an essential resource for faculty seeking to better engage with their students Anyone seeking a clear research based and actionable guide needs a copy of Student Engagement Techniques on their shelf Michael S Harris Ed D Associate Professor of Higher Education Director Center for Teaching Excellence Southern Methodist University Composing Our Future Michele Kaschub, Janice Smith, 2013-02-14 In order to prepare pre service teachers and meet the needs of practitioners in the field music teacher educators need resources to guide the development of curriculum specific courses professional development workshops and other environments where composition education can begin grow and flourish With chapters ranging from practical information to solid theory to useful best practice examples Composing Our Future offers fresh insight into composition in music education from authors who are directly engaged in this work
