**Sociology and Catholic Social Teaching** Stephen R. Sharkey, 2012-08-31 Sociology and Catholic Social Teaching Contemporary Theory and Research contains essays by key scholars in the territory where Catholic social thought and secular sociology meet and offers a much needed alternative to the relativism and individualism that so often characterize social scientific analysis today Contributors to this volume argue that Catholic social teaching as articulated so powerfully today in recent papal encyclicals and major summations such as the Compendium of the Social Doctrine of the Church offers a powerful moral framework for addressing today's pressing social problems This is especially true since many of its tenets find solid support in social scientific research on the nature of the person and the workings of culture and social institutions Sponsored by the Society of Catholic Social Scientists and including work by sociologists from both the Society and the Pontifical Academy of Social Sciences this volume is offered in the spirit of Pope John Paul II's exhortation to draw from contemporary social science whatever can help the Church better understand contemporary social issues and trends and thus better serve humanity Specific articles address such topics as the Church as a virtual nation in the international arena changing cultural norms regarding deviance the historical and contemporary relationship between Catholicism and mainstream academic sociology empirical support for a natural law perspective on family relations the social psychology of happiness and moral behavior among emerging adults the sociology of knowledge from a distinctively Catholic perspective and how the principles of subsidiarity and solidarity can be used to analyze and evaluate the functioning of institutions like the family education and the state Each author also offers some autobiographical reflections on how they relate sociology and their life of Faith This anthology will interest scholars in both sociology and Catholic social thought as well as advanced undergraduate and graduate students in these areas

Exploring high tension religious groups, white power movements, paranormal subcultures, LGBTQ groups, drifters, recreational drug and alcohol users and more, the authors identify how and when people combat, defy, hide from or run from being stigmatized as deviant. While most texts emphasize the criminological features of deviance, the authors' coverage here showcases the diversity of social and noncriminal deviance. *Deviance Management* allows for a more thorough understanding of strategies typically used by normalization movements to destigmatize behaviors and identities while contributing to the study of social movements and intra-movement conflict.

**Reimagining Faith and Abortion** Fiona Bloomer, Kellie Turtle, 2024-01-09. In this book, faith leaders, scholars and activists from around the globe provide their perspective on faith and abortion. They reflect on examples of faith organisations which have provided leadership on the issue as well as examining religious approaches from Buddhist, Christian, Jewish, Muslim and interfaith perspectives. Challenging the assumption that all people of faith are anti-abortion, this book provides a counterpoint to right wing faith perspectives and outlines how faith communities reimagine abortion as an issue of social, pastoral and theological concern. Providing perspectives from the global North and South, it includes settings where abortion is legal and where it is restricted and settings where abortion stigma is ever present to settings where abortion is normalised. It also demonstrates the complex connections between faith and abortion, how women and pregnant people are positioned in society and how morality is claimed and challenged.
