specific underlying will be similar Still every single fund has to be examined on its own in detail as it will have the specific alpha generating competitive advantage Thus the author suggests a pre selection of the potential fund manager or the management team by analysing the team and the fund s performance first The analysis goes through the quantitative figures and the qualities of the management team Detailed knowledge about the strategies and its fit into the portfolio is worthless unless the investor is able to select the performing manager Without that skill the probability of ending up with an underperforming alternative investment fund or a blow up is huge The analysis of the management team qualities shows behaviour patterns helping to detect management teams which are tending towards moral hazard Secondly the alternative investment fund style specific risks are examined The author gives an overview
