Heidegger And Marcuse:

Heidegger and Marcuse Andrew Feenberg, 2005 First Published in 2005 Routledge is an imprint of Taylor Francis an informa company **Heideggerian Marxism** Herbert Marcuse, 2005-01-01 The Frankfurt School philosopher Herbert Marcuse 1898 1979 studied with Martin Heidegger at Freiburg University from 1928 to 1932 and completed a dissertation on Hegel's theory of historicity under Heidegger's supervision During these years Marcuse wrote a number of provocative philosophical essays experimenting with the possibilities of Heideggerian Marxism For a time he believed that Heidegger's ideas could revitalize Marxism providing a dimension of experiential concreteness that was sorely lacking in the German Idealist tradition Ultimately two events deterred Marcuse from completing this program the 1932 publication of Marx's early economic and philosophical manuscripts and Heidegger's conversion to Nazism a year later Heideggerian Marxism offers rich and fascinating testimony concerning the first attempt to fuse Marxism and existentialism These essays offer invaluable insight concerning Marcuse's early philosophical evolution They document one of the century's most important Marxist philosophers attempting to respond to the crisis of Marxism the failure of the European revolution coupled with the growing repression in the USSR In response Marcuse contrived an imaginative and original theoretical synthesis existential Marxism

Toward a Concrete Philosophy Mikko Immanen, 2020-11-15 Toward a Concrete Philosophy explores the reactions of Theodor Adorno Max Horkheimer and Herbert Marcuse to Martin Heidegger prior to their dismissal of him once he turned to the Nazi party in 1933 Mikko Immanen provides a fascinating glimpse of the three future giants of twentieth century social criticism when they were still looking for their philosophical voices By reconstructing their overlooked debates with Heidegger and Heideggerians Immanen argues that Adorno Horkheimer and Marcuse saw Heidegger's 1927 magnum opus Being and Time as a serious effort to make philosophy relevant for life again and as the most provocative challenge to their nascent materialist diagnoses of the discontents of European modernity Our knowledge of Adorno's Frankfurt discussion with Frankfurt Heideggerians remains anecdotal even though it led to a proto version of Dialectic of Enlightenment's idea of the entwinement of myth and reason Similarly Horkheimer's enthusiasm over Heidegger's legendary post World War I lectures and criticism of Being and Time have escaped attention almost entirely And Marcuse's intriguing debate with Heidegger over Hegel and the origin of the problematic of being and time has remained uncharted until now Reading these debates as fruitful intellectual encounters rather than hostile confrontations Toward a Concrete Philosophy offers scholars of critical theory a new thought provoking perspective on the emergence of the Frankfurt School as a rejoinder to Heidegger's philosophical revolution **Heidegger's Children** Richard Wolin, 2003-03-02 Martin Heidegger is perhaps the twentieth century's greatest philosopher and his work stimulated much that is original and compelling in modern thought A seductive classroom presence he attracted Germany's brightest young intellects during the 1920s Many were Jews who ultimately would have to reconcile their philosophical and often personal commitments to Heidegger with his nefarious political views

In 1933 Heidegger cast his lot with National Socialism. He squelched the careers of Jewish students and denounced fellow professors whom he considered insufficiently radical. For years he signed letters and opened lectures with Heil Hitler. He paid dues to the Nazi party until the bitter end. Equally problematic for his former students were his sordid efforts to make existential thought serviceable to Nazi ends and his failure to ever renounce these actions. This book explores how four of Heidegger's most influential Jewish students came to grips with his Nazi association and how it affected their thinking. Hannah Arendt, who was Heidegger's lover as well as his student, went on to become one of the century's greatest political thinkers. Karl L. with returned to Germany in 1953 and quickly became one of its leading philosophers. Hans Jonas grew famous as Germany's premier philosopher of environmentalism. Herbert Marcuse gained celebrity as a Frankfurt School intellectual and mentor to the New Left. Why did these brilliant minds fail to see what was in Heidegger's heart and Germany's future? How would they after the war reappraise Germany's intellectual traditions? Could they salvage aspects of Heidegger's thought? Would their philosophy reflect or completely reject their early studies? Could these Heideggerians forgive or even try to understand the betrayal of the man they so admired? Heidegger's Children locates these paradoxes in the wider, cruel irony that European Jews experienced their greatest calamity immediately following their fullest assimilation. And it finds in their responses answers to questions about the nature of existential disillusionment and the juncture between politics and ideas.

The Bloomsbury Companion to Heidegger Francois Raffoul, Eric S. Nelson, 2013-08-15 The definitive reference guide to Heidegger's life and work including 57 original essays covering all the key aspects of his thought. Herbert Marcuse and the Crisis of Marxism Douglas Kellner, 1984 Critical overview of the entirety of Marcuse's work and discusses his enduring importance. Kellner had extensive interviews with Marcuse and provides hitherto unknown information about his road to Marxism, his relations with Heidegger and Existentialism, his involvement with the Frankfurt School and his reasons for appropriating Freud in the 1950s. In addition, Kellner provides a novel interpretation of the genesis and structure of Marcuse's theory of one-dimensional society, the development of his political theory and of the role of aesthetics in his critical theory.

Marcuse and Freedom (RLE Social Theory) Peter Lind, 2020-07-26 This comprehensive study of Marcuse's thought concentrates on his theory of freedom, arguing that it is this which supplies the key to all his writings. This argument is substantiated by a detailed chronological examination of Marcuse's works. The author shows the rigorous logic underlying Marcuse's thinking, which is often obscured in Marcuse's own presentation, and pays particular attention to the influence of Heidegger and of Marx's notion of human labour. This sympathetic reconstruction of the subject attempts to rescue Marcuse from misunderstanding and superficial criticism and argues that Marcuse's most famous work, *One-Dimensional Man*, is in fact an aberration from the mainstream of his work. This book forms one of the most accessible and reliable treatments of Marcuse available. **Heidegger and Marx** Laurence Paul Hemming, 2013-01-31 Martin Heidegger and Karl Marx remain two of the most influential thinkers in philosophy, in political science and other social sciences and in the humanities. Yet

there has never been a full length study in English of the relationship between their ideas and there has only been one study in German from 1966 A Productive Dialogue fills this gap and contradicts the widely held assumption that Heidegger had no significant engagement with Marx Hemming focuses on four related areas of inquiry Heidegger s reading of Marx Marx s relation to G W F Hegel Heidegger s disastrous political involvement with National Socialism and the significance of Hegel Marx Heidegger and Friedrich Nietzsche for the politics of the twentieth and twenty first centuries A Productive Dialogue explores the understanding of political processes systems and behavior that animates both thinkers

Heidegger and Derrida Herman Rapaport,1989-01-01 As the spell of Jacques Derrida grows stronger with more translations and analyses appearing every season it is possible and necessary to determine what in his work is truly new and what continues philosophical and literary traditions Although Martin Heidegger has been mentioned before as a precursor of deconstruction Herman Rapaport is the first to develop the connections between the writings of the German philosopher and Derrida Heidegger and Derrida discusses the French philosopher s adoption of certain Heideggerian themes and his extension or overturning of them But Rapaport does more than show how deconstruction builds on the philosophical foundations laid by Heidegger and also by Hegel Nietzsche and Freud In the most comprehensive study of Derrida s works to date he tackles the problem of writing an intellectual history about a figure who has put into question the possibility of such a construction and acknowledges Derrida s concerns with Jewish history in relation to Western thought

Responding to Technology Daniel McDonald,2007 Martin Heidegger s writings on modern technology are an important contribution to twentieth century philosophy In these works Heidegger argues that modern technology is a mode of world disclosure that reduces human beings to raw materials Inherent in these writings are significant social implications which emerge out of the view that human beings are reduced to raw materials under the influence of modern technology However these social issues remain underdeveloped in Heidegger s own work This thesis aims to show that Herbert Marcuse s ideas about the social implications of modern technology can be used to supplement Heidegger s writings on modern technology in order to provide a more complete account of the social issues related to modern technology It argues that a convergence between the two authors on the subject of modern technology can be established based on the idea that technology sets up a world the phenomenological understanding of modern science and the view that modern technology reduces human beings and nature to raw materials It then proceeds to develop an enriched account of the social sphere based on the idea that modern technology reduces the political sphere to an administrative technocracy

The Ruthless Critique of Everything Existing Andrew Feenberg,2023-02-28 For several years after 1968 Herbert Marcuse was one of the most famous philosophers in the world He became the face of Frankfurt School Critical Theory for a generation in turmoil His fame rested on two remarkable books Eros and Civilization and One Dimensional Man These two books represent the

utopian hopes and dystopian fears of the time In the 1960s and 70s young people seeking a theoretical basis for their revolution found it in his work Marcuse not only supported their struggles against imperialism and race and gender discrimination he foresaw the far reaching implications of the destruction of the natural environment Marcuse s Marxism was influenced by Husserl and Heidegger Hegel and Freud These eclectic sources grounded an original critique of advanced capitalism focused on the social construction of subjectivity and technology Marcuse contrasted the one dimensionality of conformist experience with the new sensibility of the New Left The movement challenged a society that delivered the goods but devastated the planet with its destructive science and technology A socialist revolution would fail if it did not transform these instruments into means of liberation both of nature and human beings This aspiration is alive today in the radical struggle over climate change Marcuse offers theoretical resources for understanding that struggle Heidegger, Žižek and Revolution Tere Vadén, 2014-08-07 Why did Martin Heidegger the giant of continental philosophy believe in 1933 that Hitler is the future of Europe And why does Slavoj Žižek the most dangerous philosopher in the West support Heidegger s right wing militancy Heidegger and Žižek are not only erudite thinkers on human being but also incorrigible revolutionaries who even after the catastrophic failures of their favourite revolutions the October revolution for Žižek and the National Socialist revolution for Heidegger want to overcome capitalism undemocratically if necessary The two share a spirited and sophisticated rejection of the liberalist worldview and the social order based on it The problem is not that liberalism is factually wrong but rather that it is ethically bad Both argue for building and educating a new collective based on human finitude and communality In the tradition of the Enlightenment Žižek advocates a universalist revolution whereas Heidegger sees the transformation rooted in particular historical existence inviting a bewildering array of mutually exclusive criticisms and apologies of his view The crisis that Heidegger and Žižek want to address is still here but their unquestioned Europocentrism sets a dark cloud over the whole idea of revolution *The Ruthless Critique of Everything Existing* Andrew Feenberg, 2023-02-28 How Marcuse helps us understand the ecological crisis of the 21st century For several years after 1968 Herbert Marcuse was one of the most famous philosophers in the world He became the face of Frankfurt School Critical Theory for a generation in turmoil His fame rested on two remarkable books *Eros and Civilization* and *One Dimensional Man* These two books represent the utopian hopes and dystopian fears of the time In the 1960s and 70s young people seeking a theoretical basis for their revolution found it in his work Marcuse not only supported their struggles against imperialism and race and gender discrimination he foresaw the far reaching implications of the destruction of the natural environment Marcuse s Marxism was influenced by Husserl and Heidegger Hegel and Freud These eclectic sources grounded an original critique of advanced capitalism focused on the social construction of subjectivity and technology Marcuse contrasted the one dimensionality of conformist experience with the new sensibility of the New Left The movement challenged a society that delivered the goods but devastated the planet with its destructive science and technology A socialist revolution would fail if it

did not transform these instruments into means of liberation both of nature and human beings This aspiration is alive today in the radical struggle over climate change Marcuse offers theoretical resources for understanding that struggle

Heidegger's Contribution to the Understanding of Work-Based Studies Paul Gibbs, 2010-09-29 This book seeks to develop the philosophy of Heidegger's notion and reflects the growing importance of work based studies which is becoming of special interest to higher education institutions and commercial organisations The author acknowledges the dominance of the economic discourse of higher education but in this book he tries to argue that Heidegger offers a phenomenological approach to understanding the diversity to higher education that work based learning can bring The book offers a structured argument for a phenomenological understanding of both the educational institution and the commercial environment to be considered as workplaces

The Aesthetic State Josef Chytrý, 2024-07-26 Shortly after the middle of the eighteenth century a number of thinkers from the German speaking lands began to create a paradigm drawn from their impressions of a distant historical reality ancient Athens added to it a new mode of thought modern dialectics and at times even paid homage to the ancient Greek deity Dionysos to materialize their longing for an ideal The influence of these forces came to permeate modern German consciousness deifying the concept and activity of art reviving the Platonic and Sanskrit vision of the cosmos as play and aesthetic creation and projecting a way of life and labor that would honor not the commodity but the aesthetic product With rigorous commitment to primary sources and an unflagging critical engagement with the ideas and concrete situations they raise Josef Chytrý provides a comprehensive and extensive study of this central motif in German thought from Winckelmann to Marcuse Chytrý takes aesthetic state to signify the concentrated modern intellectual movement to revitalize the radical Hellenic tradition of the polis as the site of a beautiful or good life The movement begins with the classicism of Winckelmann Weimar aesthetic humanism Wieland Herder Goethe and Schiller's formal theory of the aesthetic state and continues through the idealism of the Swabian dialecticians Holderlin Hegel and Schelling and the realism of Marx Wagner and Nietzsche It culminates in the postrealism of Heidegger Marcuse and the aesthetic modernist artist Walter Spies who initiated a dialogue with the non Western theatre state of the isle of Bali Josef Chytrý concludes that the future speculation on the ideal of an aesthetic state must come to terms with the postrealist themes of ontological anarchy aesthetic ethos and theatre state In a bold effort to stimulate such speculation Chytrý indicates how proponents of the aesthetic state might join forces with Rawlsian political theory to promote further the organon of persuasion that in his view serves as the common
