Heidegger And The Language Of The World:

Heidegger and the Language of the World Peter J. McCormick, 1976 Heidegger, Language, and World-Disclosure Cristina Lafont, 2000-08-28 This book is a major contribution to the understanding of Heidegger and a rare attempt to bridge the schism between traditions of analytic and Continental philosophy Cristina Lafont applies the core methodology of analytic philosophy language analysis to Heidegger's work providing both a clearer exegesis and a powerful critique of his approach to the subject of language In Part One she explores the Heideggerean conception of language in depth In Part Two she draws on recent work from theorists of direct reference Putnam Donnellan and Kripke inter alia to reveal the limitations of Heidegger's views and to show how language shapes our understanding of the world without making learning impossible The book first appeared in German but has been substantially revised for the English edition On Heidegger and Language Joseph J. Kockelmans, 1980-06 This collection contains original translations of essays discussions and papers including six previously unpublished works from the International Colloquium on Heidegger's Conception of Language held at The Pennsylvania State University in 1969 This volume endeavors to place Martin Heidegger's ideas within a wide range of philosophical thought It contains critical reflections on his conception of speech in *Being and Time* linguistic meditations on Heidegger's use of language and analysis of his view on the relationship between thought and the language in which it is expressed In this book Heidegger scholars will find additional insights into his conception of language and his philosophy as a whole **Historical Dictionary of Heidegger's Philosophy** Frank Schalow, 2019-11-29 Martin Heidegger's thinking is a complex and his terminology is as nuanced as any thinker in the history of philosophy As the historian of philosophy par excellence he also exhibits both a greater appreciation and mastery of previous thinkers than any almost any other philosopher before or since The Historical Dictionary of Heidegger's Philosophy Third Edition addresses this dual challenge of reading understanding and interpreting Heidegger's vast writings The book provides a comprehensive and detailed account of the key terms shaping Heidegger's philosophy as well as outlining the development of his thought spanning the entirety of his career spanning almost sixty years The Dictionary also includes a discussion of Heidegger's seminal writings the spanning his entire Gesamtausgabe Complete Edition up through volume 99 of the projected 102 volumes This third edition of Historical Dictionary of Heidegger's Philosophy Third Edition contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 800 cross referenced entries that provides a clear and comprehensive exposition of the key developments in his life and his thought This book is an excellent resource for students researchers and anyone wanting to know more about Martin Heidegger *Encyclopedia of Contemporary Literary Theory* Irene Rima Makaryk, 1993-01-01 The last half of the twentieth century has seen the emergence of literary theory as a new discipline As with any body of scholarship various schools of thought exist and sometimes conflict within it I R Makaryk has compiled a welcome guide to the field Accessible and jargon free the Encyclopedia of Contemporary Literary Theory provides

lucid concise explanations of myriad approaches to literature that have arisen over the past forty years. Some 170 scholars from around the world have contributed their expertise to this volume. Their work is organized into three parts. In Part I, forty evaluative essays examine the historical and cultural context out of which new schools of and approaches to literature arose. The essays also discuss the uses and limitations of the various schools and the key issues they address. Part II focuses on individual theorists. It provides a more detailed picture of the network of scholars, not always easily pigeonholed into the categories of Part I. This second section analyses the individual achievements as well as the influence of specific scholars and places them in a larger critical context. Part III deals with the vocabulary of literary theory. It identifies significant complex terms, places them in context, and explains their origins and use. Accessibility is a key feature of the work. By avoiding jargon, providing mini bibliographies, and cross referencing throughout, Makaryk has provided an indispensable tool for literary theorists and historians, and for all scholars and students of contemporary criticism and culture.

The Cambridge Companion to Heidegger's Being and Time Mark A. Wrathall, 2013-07-31. The Cambridge Companion to Heidegger's Being and Time contains seventeen chapters by leading scholars of Heidegger. It is a useful reference work for beginning students but also explores the central themes of Being and Time with a depth that will be of interest to scholars. The Companion begins with a section by section overview of Being and Time and a chapter reviewing the genesis of this seminal work. The final chapter situates Being and Time in the context of Heidegger's later work. The remaining chapters examine the core issues of Being and Time, including the question of being, the phenomenology of space, the nature of human being, our relation to others, the importance of moods, the nature of human understanding, language, Heidegger's views on idealism and realism, and his position on skepticism and truth. Heidegger's account of authenticity, with a focus on his views on freedom, being toward death, and resoluteness, and the nature of temporality and human historicity.

Actological Readings in Continental Philosophy Malcolm Torry, 2023-01-12 Actological Readings in Continental Philosophy is what it says it is The book asks how we might understand the writings of a number of continental philosophers actologically that is with reality understood as action in changing patterns rather than as beings that change It also asks how the different continental philosophies might enable us to develop an actology an understanding of reality as action in changing patterns The philosophers whom we study are Immanuel Kant Friedrich Nietzsche Edmund Husserl Martin Heidegger Emmanuel Levinas Gilles Deleuze Hans Georg Gadamer Maurice Merleau Ponty Gaston Bachelard Michel Foucault and Michel Serres A whole new way of understanding reality casts new light on their philosophies and raises and answers some significant new questions

Expanding Hermeneutics Don Ihde, 1998 Expanding Hermeneutics examines the development of interpretation theory emphasizing how science in practice involves and implicates interpretive processes Ihde argues that the sciences have developed a sophisticated visual hermeneutics that produces evidence by means of imaging visual displays and visualizations From this vantage point Ihde demonstrates how interpretation is built into technologies and instruments

The Religion of Reality Didier Maleuvre, 2006 The book first argues that religious feeling persists in the secular western mind that it has taken refuge in the unlikeliest of camps indeed with the supposed debunker of religious creed the rationalist existential ego

Remaking Humanity Adam Beyt, 2024-08-22 Drawing upon Edward

Schillebeeckx's theology and Judith Butler's philosophy Adam Beyt uses the framework of nonviolent hope to construct a Catholic political theology responding to dehumanizing violence Dehumanizing violence names words institutions or acts violating the inherent dignity of being made in the image and likeness of God Theology can participate in dehumanizing violence by claiming an uninterrogated universality that marginalizes bodies due to their perceived differences such as gender race sexuality or ability The book's constructive project integrates Schillebeeckx's and Butler's thought with queer theory and phenomenology to model embodiment as an enfleshing dynamism between bodies and signification The text then posits Catholic discipleship as incarnating hope by defending the humanum the new humanity announced through God's Reign Combining reflections from Schillebeeckx and Butler this hope centers discipleship as nonviolent world building Concluding with a sustained reflection with the writings of Franz Fanon and Walter Benjamin the final chapter sketches a Catholic solidaristic response to contemporary struggles against the necropolitics of colonizing and state violence through assemblies of hope
