Brassell, 2013-07-25 On this journey with my daughter being an emotionally impaired student in a special education classroom I found much discrimination when she reached the age of twelve when it started becoming apparent to me It seemed she was rejected by her peers who made fun of her disability and learning ability but it did not help much when she was being called LD or the 504 kid and other names associated with her disability Kids can be so cruel to one another without understanding the depth of the pain they inflict This conduct started in her second year in junior high and lasted through her high school years Mr Knight principal of Munger Junior High School stated that he had seen a significant and rapid change in my daughter s behavior since last year It is sad that a principal can point out that my daughter was going downhill and did nothing to fix it until I started writing letters and she was sent to another school it was as simple as a telephone call At that time Mr Knight stated there was no money in the school district budget to have my daughter moved The downfall in an EI Special Education Classroom is that everyone has ADHD which was the biggest of my daughter s problems those boys who was really rough They were in trouble especially when they had nothing to do but play games for the entire day every single day They didn t have a teacher but they did have a babysitter in the classroom that was hired from

the Kronk s Boxing Gym This man had no teaching skills I told Mr Knight I was very disappointed with what was going on in Jemeica s class I asked him if Mr Ronald was a certified teacher He replied no and stated they would be hiring a certified teacher soon I then asked Mr Knight where were the books and other learning resources in the classroom that was supposed to be the main teaching tools needed I asked how was it possible for my daughter to learn anything without a teacher or any other resources the classroom needed including books not one book in the classroom There was one black male student who checked in each morning but saddened by the fact he was not learning anything so he just walked out of school each day I would see him leave the school myself and no one seemed to care The Dearborn Heights Westwood school district could not find an EI Classroom for my daughter to attend Emotional Impaired Classroom This left her at home learning nothing for far too many days leading to months I was sending my daughter to school for an education and that is something she never received whether it was discrimination of her disability or her race Not when her psychiatrist gave the names of three schools she could attend and yet she could not find a school for her to attend

provide international perspectives on core issues in family support Providing a combination of clear theoretical frameworks and practical guidance with clear how to messages and a strong emphasis on evaluation this book will be of interest to social workers working in all areas of family support *Understanding and Managing the Difficult Child* William Lyman Camp FACAPP,2021-12-15 While working with parents and children for nearly half a century it has become increasingly evident that the Adlerian child psychology methods as outlined in this book are effective when applied to family conflicts They have been tested by numerous teachers counselors and others in many locations over many years Many parents have discovered for themselves that these strategies engage their children and win their cooperation Still parents often do not know why children act as they do or why they succeed or fail The information and recommendations in this book are based on a philosophy of life and concept of human nature and behavior first presented by Alfred Adler Rudolph Dreikurs and others The parenting methods they recommended have become increasingly accepted and used during recent decades in Europe and North America They do not suggest either permissiveness or punishment but instead methods for use by parents which emphasize wise guidance of children without either overcontrolling them or stifling their creative spirit With more secure knowledge of what to do parents can improve their parenting using techniques and strategies that work Parents are too often faced with child raising challenges for which they are not prepared Just as the child needs training so do parents Ideas presented in the pages of this book suggest new ways to respond to a child s provocations that can lead to new attitudes and parental behaviors These can and often do lead in turn to new and productive approaches and methods that allow more harmonious relationships to develop But why do children act as they do And why do these methods enable parents to succeed The information included in this volume was designed to answer these and related questions as well as to present a set of principles in a form readily usable by parents in the home teachers in the classroom and other adults in other circumstances and situations
