Margaret Ripley Wolfe, 2021-12-14 From *Gone with the Wind* to *Designing Women* images of southern females that emerge from fiction and film tend to obscure the diversity of American women from below the Mason Dixon line In a work that deftly lays bare a myriad of myths and stereotypes while presenting true stories of ambition grit and endurance Margaret Ripley Wolfe offers the first professional historical synthesis of southern women s experiences across the centuries In telling their story she considers many ordinary lives those of Native American African American and white women from the Tidewater region and Appalachia to the Mississippi Delta to the Gulf Coastal Plain women whose varied economic and social circumstances resist simple explanations Wolfe examines critical eras outstanding personalities and groups wives mothers pioneers soldiers suffragists politicians and civil rights activists and the impact of the passage of time and the pressure of historical forces on the region s females The historical southern woman argues Wolfe has operated under a number of handicaps bearing the full weight of southern history mythology and legend Added to these have been the limitations of being female in a patriarchal society and the constraining images of the southern belle and her mentor the southern lady In addition the specter of race has haunted all southern women Gender is a common denominator but according to Wolfe it does not transcend race class point of view or a host of other factors Intrigued by the imagery as well as the irony of biblical stories and southern history Wolfe titles her work *Daughters of Canaan* Canaan symbolizes promise and for activist women in particular the South has been about promise as much as fulfillment General readers and students of southern and women s history will be drawn to Wolfe s engrossing chronicle **Crude Awakening** Amanda Coyne, Tony Hopfinger, 2011-11-08

Women of Discriminating Taste Margaret L. Freeman, 2020-12-01 Women of Discriminating Taste examines the role of historically white sororities in the shaping of white womanhood in the twentieth century As national women's organizations sororities have long held power on college campuses and in American life Yet the groups also have

always been conservative in nature and inherently discriminatory selecting new members on the basis of social class religion race or physical attractiveness In the early twentieth century sororities filled a niche on campuses as they purported to prepare college women for ladyhood Sorority training led members to comport themselves as hyperfeminine heterosocially inclined traditionally minded women following a model largely premised on the mythical image of the southern lady Although many sororities were founded at non southern schools and also maintained membership strongholds in many non southern states the groups adhered to a decidedly southern aesthetic a modernized version of Lost Cause ideology in their social training to deploy a conservative agenda Margaret L Freeman researched sorority archives sorority related materials in student organizations as well as dean of women s student affairs and president s office records collections for historical data that show how white southerners repeatedly called upon the image of the southern lady to support southern racial hierarchies Her research also demonstrates how this image could be easily exported for similar uses in other areas of the United States that shared white southerners concerns over changing social demographics and racial discord By revealing national sororities as significant players in the grassroots conservative movement of the twentieth century Freeman illuminates the history of contemporary sororities difficult campus relationships and their continuing legacy of discriminatory behavior and conservative rhetoric
