Good Man Of Nanking:

The Good Man of Nanking John Rabe, 2000-03-14 The Good Man of Nanking is a crucial document for understanding one of World War II's most horrific incidents of genocide one which the Japanese have steadfastly refused to acknowledge It is also the moving and awe inspiring record of one man's conscience courage and generosity in the face of appalling human brutality Until the recent emergence of John Rabe's diaries few people knew about the unassuming hero who has been called the Oskar Schindler of China In November 1937 as Japanese troops overran the Chinese capital of Nanking and began a campaign of torture rape and murder against its citizens one man a German who had lived in China for thirty years and who was a loyal follower of Adolph Hitler put himself at risk and in order to save the lives of 200 000 poor Chinese 600 of whom he sheltered in his own home

The Good German of Nanking John Rabe, 1999 In 1937 as the invading Japanese Army closed on Nanking then the capital of China all foreigners were ordered to evacuate One man a mild 55 year old German named John Rabe who ran the local Siemens factory refused on the grounds that it would show a bad example to his Chinese workers Sending his wife and family to safety he watched in horror as the Japanese began to wipe out the population Hastily contacting the tiny remaining community of foreigners and using the flimsy authority of a pact Hitler had made with the Japanese Rabe spent months safeguarding and providing refuge for thousands of Chinese often interposing himself physically between the executioners and their victims It is estimated that he saved between 250 000 and 300 000 lives by his efforts And every night he would write up his diary of these extraordinary events THE GOOD GERMAN OF NANKING is Rabe's story in his own words the amazing testament to one of the hitherto unsung heroes of the twentieth century

The Nanking Atrocity, 1937-1938 Bob Tadashi Wakabayashi, 2017-08-01 First published in 2007 The Nanking Atrocity remains an essential resource for understanding the massacre committed by Japanese soldiers in Nanking China during the winter of 1937-38 Through a series of deeply considered and empirically rigorous essays it provides a far more complex and nuanced perspective than that found in works like Iris Chang's bestselling *The Rape of Nanking* It systematically reveals the flaws and exaggerations in Chang's book while deflating the self-exculpatory narratives that persist in Japan even today This second edition includes an extensive new introduction by the editor reflecting on the historiographical developments of the last decade in advance of the 80th anniversary of the massacre

Tower of Skulls Richard B. Frank, 2020-03-03 A sweeping epic Promises to do for the war in the Pacific what Rick Atkinson did for Europe James M Scott author of *Rampage* In 1937 the swath of the globe east from India to the Pacific Ocean encompassed half the world's population Japan's onslaught into China that year unleashed a tidal wave of events that fundamentally transformed this region and killed about twenty five million people This extraordinary World War II narrative vividly portrays the battles across this entire region and links those struggles on many levels with their profound twenty first century legacies In this first volume of a trilogy award winning historian Richard B Frank draws on rich archival research and recently discovered documentary evidence to tell an epic story

War, Nation, Memory Keith A. Crawford, Stuart J. Foster,2007-12-01 The Second World War stands as the most devastating and destructive global conflict in human history More than 60 nations representing 1 7 billion people or three quarters of the world s population were consumed by its horror Not surprisingly therefore World War II stands as a landmark episode in history education throughout the world and its prominent place in school history textbooks is almost guaranteed As this book demonstrates however the stories that nations choose to tell their young about World War II do not represent a universally accepted truth about events during the war Rather wartime narratives contained in school textbooks typically are selected to instil in the young a sense of national pride common identify and shared collective memory To understand this process War Nation Memory describes and evaluates school history textbooks from many nations deeply affected by World War II including China France Germany Japan USA and the United Kingdom It critically examines the very different and complex perspectives offered in many nations and analyses the ways in which textbooks commonly serve as instruments of socialisation and in some cases propaganda Above all War Nation Memory demonstrates that far from containing neutral knowledge history textbooks prove fascinating cultural artefacts consciously shaped and legitimated by powerful ideological cultural and sociopolitical forces dominant in the present

Witnessing the Witness of War Crimes, Mass Murder, and Genocide Manuela Consonni, Philip Galland Nord, 2023-07-24
Rethinking the concepts of witnessing and witness is highly relevant to the study of war crimes, mass murder, and genocide. Through multiple readings, the volume shows the meanings and functions of witnessing in a political and historical context marked by the emergence of multiculturalism. The ultimate goal is the exploration of divergent and intersectional positions of the witness and witnessing as both concrete and hermeneutical categories. As a result, the mechanisms of social, political, and psychological oppression, murder, and genocide will become tangible and understandable with greater precision and finesse.

Between China and Japan Joshua A. Fogel, 2015-05-12
Over the past thirty-five years, Joshua Fogel has pioneered the study of Sino-Japanese cultural and political relations understood as the intersections of the histories of these two countries. This volume brings together many of his essays and reviews in this new field. For a variety of reasons discussed within, scholars have been reluctant to look at these two nations' historical connections, either through comparative analysis or actual interactions. Fogel's work has focused squarely here. Among the issues addressed are Japanese scholarly views of modern China and Chinese history; Chinese considerations of the Japanese language in the Ming and Qing periods; the Japanese immigration to the East Asian Mainland, especially to Shanghai and Harbin; and more.

Nanjing 1937 Peter Harmsen, 2015-11-17
A true story of the Sino-Japanese conflict. A valuable account of a little-known event and a grim reminder of the darker side of war. *Military History Monthly*. The infamous Rape of Nanjing looms like a dark shadow over the history of Asia in the twentieth century and is among the most widely recognized chapters of World War II in China. By contrast, the story of the month-long campaign before this notorious massacre has never been told in its entirety. *Nanjing 1937* by Peter Harmsen fills this gap. This is the follow-up to Harmsen's bestselling *Shanghai 1937: Stalingrad on the Yangtze* and begins where that book left off. In stirring prose, it describes how the Japanese Army, having invaded the mainland and emerging victorious from the Battle of Shanghai, pushed on toward the capital, Nanjing, in a crushing advance that confirmed its reputation for bravery and savagery in equal measure. While much of the struggle over Shanghai had carried echoes of the grueling war in the trenches two decades earlier, the Nanjing campaign was a fast-paced mobile operation in which armor and air power played major roles. It was blitzkrieg two years before Hitler's invasion of Poland. Facing the full might of modern mechanized warfare, China's resistance was heroic but ultimately futile. As in Shanghai, the battle for Nanjing was more than a clash between Chinese and Japanese soldiers; and citizens of a variety of nations witnessed or took part in the hostilities. German advisors, American journalists, and British diplomats all played important parts in this vast drama. And a new power appeared on the scene: Soviet pilots dispatched by Stalin to challenge Japan's control of the skies. This epic tale is told with verve and attention to detail by Harmsen, a veteran East Asia correspondent who consolidates his status as the

foremost chronicler of World War II in China with this path breaking work of narrative history
