Good Place Guide Urban Design In Britain And Ireland:

The Good Place Guide John Billingham,2002 What makes a space be it a city neighborhood park square beach or market comfortable for people to use and visit Just look through these beautiful color photographs of 150 splendidly designed places and see Each one has been created or significantly altered over the last 50 years The Waterfront in Cardiff Wales the Barbican at Plymouth Concert Square in Liverpool these and many other places provide eye opening examples of fine design and planning for anyone concerned with urban spaces as well as those of us who must live in them **Urban Design** Jon Lang,2006-08-11 Urban Design provides a comprehensive and accessible introduction to urban design presenting a 3 dimensional model with which to categorise the processes and products involved It not only defines the subject but also considers the future direction of the field and what can be learned from the past 50 international case studies demonstrate the variety of urban design efforts that have occurred in recent history **Urban Design Futures** Malcolm Moor,Jon Rowland,2006-09-27 The last decade has seen the rise of urban design which has taken a central position in the new agendas for urban regeneration and renaissance Urban design has moved from marginality to mainstream The principles espoused by urban designers over the past thirty years are now accepted as key to a better urban environment and as we move towards greater sustainability different ideas are emerging that are challenging some of the accepted urban design norms urban design is at a watershed Urban Design Futures presents essays from an international cast of authors to review progress and explore emerging ideas should urban design reflect the future rather than recreate the past What are the new driving forces that will shape urban living and hence urban design in the future This book explores new concepts and points the way towards a series of urban design paradigms for the twenty first century Convivial Urban Spaces Henry Shaftoe,2012-05-04 Despite developments in urban design during the last few decades architects urban planners and designers often continue to produce areas of bland commercially led urban fabric that deliver the basic functional requirements of shelter work and leisure but are socially unsustainable and likely generators of future problems Convivial Urban Spaces demonstrates that successful urban public spaces are an essential part of a sustainable built environment Without them we are likely to drift into an increasingly private and polarized society with all the problems that would imply Taking a multidisciplinary approach this book draws on research and the literature and theory of environmental psychology and urban design to advance our understanding of what makes effective public spaces Practical guidance is illustrated with case studies from the UK Spain Germany and Italy The result is a practical and clearly presented guide to urban public space for planners architects and students of the urban environment **Town & Country Planning** ,2003 **The Architects' Journal** ,2003 Norway Ingerid Helsing Almaas,2002 Around 100 projects have been chosen to represent an architectural tradition of great quality and innovation in Norway The projects described are predominantly the work of young architects working within a context of prosperity and relatively cheap and plentiful land The Housing Design Handbook David

Levitt,2012-12-06 How well have architects succeeded in building housing and what lessons can be learned from their triumphs and failures The Housing Design Handbook will give you a complete understanding of what makes successful housing design Through the analysis of work by Levitt Bernstein and a wide range of other UK practices it illustrates good design principles and accumulates a wealth of knowledge in a readily accessible format for the first time Written by a recognised authority in the field the book provides a range of cases to illustrate the way that different issues in the design of housing have been approached and with what degree of success a review of the place of housing as the most significant built form in the urban landscape an understanding of the importance of achieving a sense of place as the bedrock of social continuity a discussion of how flexibility might be achieved in order to accommodate future changes in housing need if wholesale demolition and replacement is to be avoided more recent examples which explore why certain social groupings are more resistant to design innovation than others and why there has been such an architectural breakthrough in market led higher density urban living David Levitt examines the ideas behind the schemes and assesses how successful and sustainable those ideas have proved making this an essential reference for professionals and students practicing and studying the design and commissioning of housing
