Applied Mechanics Reviews ,1989 *The Politics and Economics of Britain's Foreign Aid* Tim Lankester, 2013 The

Pergau dam in Malaysia was the most controversial project in the history of British aid. Because of its high cost it was a poor candidate for aid funding. It was provided in part to honour a highly irregular promise of civil aid in connection with a major arms deal. After two parliamentary inquiries and intense media coverage in a landmark judgement the aid for Pergau was declared unlawful. Tim Lankester offers a detailed case study of this major aid project and of government decision making in Britain and Malaysia. Exposing the roles played by key politicians and other stakeholders on both sides he analyses the background to the aid arms linkage and the reasons why the British and Malaysian governments were so committed to the project before exploring the response of Britain's Parliament and its media and NGOs and the resultant legal case. The main causes of the Pergau debacle are carefully drawn out from conflicting policy agendas within the British government to the power of the business lobby and the inability of Parliament to provide any serious challenge. Finally Lankester asks whether given what was known at the time and what we know now he and his colleagues in Britain's aid ministry were correct in their objections to the project. Pergau is still talked about as a prime example of how not to do aid. Tim Lankester a key figure in the affair is perfectly placed to provide the definitive account. At a time when aid budgets are under particular scrutiny it provides a cautionary tale. *Energy Research Abstracts*, 1990. *Fundamental British Values, Michel Foucault, and Religious Education Teacher Subjectivity* Francis Farrell, 2023-05-17. This book contributes to the small but growing critical literature on fundamental British values and the Prevent strategy in the British education system. Focusing specifically on RE a subject concerned with multiculturalism difference and pluralism the book will argue that there is a tension between the aims of RE and the agenda of fundamental British values. The author argues that fundamental British values and the requirements of the Prevent duty 2015 amount to a securitization of education which fundamentally alters the relationship between teachers and learners. The book presents these developments in education policy as a radical discursive shift drawing from in depth individual and group interviews with 52 secondary teachers of religious education the book foregrounds the views of BAME teachers and argues for a nuanced and inclusive approach to civic and values education.

Stevenson, 2015-03-27. During the 1960s the automobile finally secured its position as an indispensable component of daily life in Britain. Car ownership more than doubled from approximately one car for every 10 people in 1960 to one car for every 4.8 people by 1970. Consumers no longer asked 'Do we need a car?' but 'What car shall we have?' This well illustrated history analyzes how both domestic car manufacturers and importers advertised their products in this growing market identifying trends and themes. Over 180 advertisement illustrations are included. *Library Journal*, 1987-07. *Official Reports of the Debates of the House of Commons of the Dominion of Canada* Canada. Parliament.
