**TransGothic in Literature and Culture** Jolene Zigarovich, 2017-09-08 This book contributes to an emerging field of study and provides new perspectives on the ways in which Gothic literature visual media and other cultural forms explicitly engage gender sexuality form and genre The collection is a forum in which the ideas of several well respected critics converge producing a breadth of knowledge and a diversity of subject areas and methodologies It is concerned with several questions including How can we discuss Gothic as a genre that crosses over boundaries constructed by a culture to define and contain gender and sexuality How do transgender bodies specifically mark or disrupt this boundary crossing In what ways does the Gothic open up a plural narrative space for transgenre explorations encounters and experimentation With this the volume's chapters explore expected categories such as transgenders

transbodies and transembodiments but also broader concepts that move through and beyond the limits of gender identity and sexuality such as transhistories transpolitics transmodalities and transgenres Illuminating such areas as the appropriation of the trans body in Gothic literature and film the function of trans rhetorics in memoir textual markers of transgenderism and the Gothic s transgeneric qualities the chapters offer innovative but not limited ways to interpret the Gothic In addition the book intersects with but also troubles non trans feminist and queer readings of the Gothic Together these diverse approaches engage the Gothic as a definitively trans subject and offer new and exciting connections and insights into Gothic Media Film Narrative and Gender and Sexuality Studies **Romanticism, Gender, and Violence** Nowell Marshall, 2013-07-22

Combining queer theory with theories of affect psychoanalysis and Foucauldian genealogy *Romanticism Gender and Violence* Blake to George Sodini theorizes performative melancholia a condition where regardless of sexual orientation overinvestment in gender norms causes subjects who are unable to embody those norms to experience socially expected normal gender as something unattainable or lost This perceived loss causes an ambivalence within the subject that can lead to self inflicted violence masochism suicide or violence toward others sadism murder Reading a range of Romantic poetry and novels between 1790 1820 but ultimately moving beyond the period to show its contemporary cultural relevance through readings of Eliot s *The Mill on the Floss* Virginia Woolf s *Mrs Dalloway* Andrew Holleran s *Dancer from the Dance* and George Sodini s 2009 murder suicide case this study argues that we need to move beyond focusing on bullying teens and LGBT students and look at our cultural investment in gender normativity itself Doing so allows us to recognize that the relationship between non normative gender performance and violence is not simply a gay problem it is a human problem that can affect people of any sex sexuality age race or ethnicity and one that we can trace back to the Romantic period Bringing late 18th century novels into conversation with both canonical and lesser known Romantic poetry allows us to see that as people whose performance of gender occasionally exceeds the normal we too often internalize these norms and punish ourselves or others for our inability to adhere to them Contrasting paired chapters by male and female authors and including sections on failed romantic coupling melancholic femininities melancholic masculinities failed gender performance and madness and ending with a section titled *After Romanticism* this study works on multiple levels to complicate previous understandings of gender and violence in Romanticism while also offering a model for contemporary issues relating to gender and violence among people who fail to perform gender according to social norms [The Encyclopedia of Romantic Literature, 3 Volume Set](#) Frederick Burwick, Nancy Moore Goslee, Diane Long Hoeveler, 2012-01-30 *The Encyclopedia of Romantic Literature* is an authoritative three volume reference work that covers British artistic literary and intellectual movements between 1780 and 1830 within the context of European transatlantic and colonial historical and cultural interaction Comprises over 275 entries ranging from 1 000 to 6 500 words arranged in A Z format across three fully cross referenced volumes Written by an international cast of leading and emerging scholars Entries explore genre development in prose poetry and drama of the Romantic period

vampires in contemporary popular literature and demonstrating how they engage with essential cultural preoccupations anxieties and desires Drawing from cultural materialism anthropology psychoanalysis literary criticism gender studies and postmodern thought Piatti Farnell re frames the concept of the vampire in relation to a distinctly twenty first century brand of Gothic imagination highlighting important aesthetic conceptual and cultural changes that have affected the literary genre in the post 2000 era She places the contemporary literary vampire within the wider popular culture scope also building critical connections with issues of fandom and readership In reworking the formulaic elements of the vampiric tradition and experimenting with genre bending techniques this book shows how authors such as J R Ward Stephanie Meyers Charlaine Harris and Anne Rice have allowed vampires to be moulded into enigmatic figures who sustain a vivid conceptual debt to contemporary consumer and popular culture This book highlights the changes conceptual political and aesthetic that vampires have undergone in the past decade simultaneously addressing how these changes in vampire identity impact on the definition of the Gothic as a whole
