Good Ideas From Questionable Christians And Outright Pagans:

Good Ideas from Questionable Christians and Outright Pagans Steve Wilkens, 2025-11-04 What indeed has Athens to do with Jerusalem What concord is there between the Academy and the church Tertullian 3rd century Such skepticism about the place of philosophy in the life of Christians persists down through the ages As a student author Steve Wilkens had deep reservations about studying the works of pagans or even questionable Christians Now a teacher at a Christian university Wilkens has developed a deep appreciation for teaching and studying philosophy In fact he believes that the life of faith can be enriched by good philosophical reflection In this book Wilkens helps you begin the same journey Using generous quotations from the original sources Wilkens provides an introduction to the study of philosophy by exploring a single key issue from each of the following philosophers Socrates Plato Aristotle Augustine Aquinas Descartes Kierkegaard Marx Nietzsche and Sartre The questions considered include Why ask why Is a just society possible Is God responsible for evil Can you be certain of anything Is morality all about power Do you really want to be free Wilkens encourages you not to be a mere spectator but to actively and critically engage the questions and ideas these philosophers raise Here is a book for beginning students thoughtful Christians or anyone who wants to explore life's deepest questions Kierkegaard Mark A.

Tietjen, 2016-03-02 Søren Kierkegaard 1813-1855 had a mission reintroduce the Christian faith to Christians Mark Tietjen thinks that Kierkegaard's critique of his contemporaries strikes close to home today Through an examination of core Christian doctrines he helps us hear Kierkegaard's missionary message to a church that often fails to follow Christ with purity of heart Knowledge Unto Relationship Jeffrey L. Romine, PhD, 2016-05-24 We live in a day of advanced technology but what lies behind it is applied knowledge Knowledge is a sweeping term serving as a common denominator undergirding science philosophy theology and the list goes on It speaks to the condition of learnedness as opposed to merely opinion or its absence ignorance Christianity is knowledge based too Like pursuing a philosophic line of reasoning this book engages the biblical trajectory that follows from the Tree of Knowledge Drawing upon the great thinkers topics such as the great debate over faith and reason postmodernism law in the confines of covenant justice in the context of dominion and the role of the Holy Spirit are addressed distilling out key components related to knowledge showing how the path forward leads into covenant relationship **Christian Worldview and the Academic Disciplines** Deane E. D. Downey, Stanley E.

Porter, 2009-04-15 This book an edited compilation of twenty nine essays focuses on the differences that a Christian worldview makes for the disciplines or subject areas normally taught in liberal arts colleges and universities Three initial chapters of introductory material are followed by twenty six essays each dealing with the essential elements or issues in the academic discipline involved These individual essays on each discipline are a unique element of this book These essays also treat some of the specific differences in perspective or procedure that a biblically informed Christian perspective brings to each discipline *Christian Worldview and the Academic Disciplines* is intended principally as an introductory textbook in

Christian worldview courses for Christian college or university students This volume will also be of interest to Christian students in secular post secondary institutions who may be encountering challenges to their faith both implicit and explicit from peers or professors who assume that holding a strong Christian faith and pursuing a rigorous college or university education are essentially incompatible This book should also be helpful for college and university professors who embrace the Christian faith but whose post secondary academic background because of its secular orientation has left them inadequately prepared to intelligently apply the implications of their faith to their particular academic specialty Such specialists be they professors or upper level graduate students will find the extensive bibliographies of recent scholarship at the end of the individual chapters particularly helpful Downey and Porter present a unique contribution to the perennial question of how faith interacts with the academic disciplines Numerous factors contribute to this book's significance the common conviction that one's Christian beliefs ought to shape the contents of one's teaching the variety of perspectives and opinions and the wide range of academic disciplines under discussion The essays originating among the excellent faculty of Trinity Western University will deservedly be much used in undergraduate colleges and universities Hans Borsma J I Packer Professor of Theology Regent College Few faculty Christian or otherwise understand what their colleagues in other departments are doing or why This collection of essays is not only an excellent introduction to the whole scope of academic enterprises but to the unique and important relationship between each discipline and the Christian faith An important book not only for the entire range of faculty but for students yearning to understand both their Christian faith and what is being taught in the classroom James W Sirf author of the *Universe Next Door* and with co author Carl Peraino *Deepest Differences A Christian Atheist Dialogue* Christian Worldview and the Academic Disciplines is a book long overdue It will serve as an outstanding textbook for interdisciplinary courses But this book is more than that Christian Worldview and the Academic Disciplines is a book that everyone concerned with Christian thought especially in the context of the Academy will want to read I highly recommend it Craig A Evans Payment Distinguished Professor of New Testament Acadia Divinity College Nova Scotia
